

Reply to the statement made by Armenian delegation in Session 10.

It seems Armenian delegation has not yet given up its experience of accusation against its neighbor, Azerbaijan.

Instead Armenian delegation should make statements calling OSCE to consider the freedom of expression on the Internet in Armenia, where people have no access to websites, due to the fact that they have been blocked by Armenian government. Official website of Justice for Khojaly campaign (<http://www.justiceforkhojaly.org>) is among many.
