

Ladies and Gentlemen

Firstly, I want to state, that I am very happy to declare there are people ready to listen for truth and protect of oppressed people and protect Human Rights. Therefore, I thank all organizer of this conference.

Actually, 3 or 4 minutes is not enough for stating for a dictator, who is controlling the country for 25 years.

Tolerance is an abbreviation, which is not existed in Dictator Rahmonov's dictionary. Fact of this is crackdown of peace agreement between Tajik opposition Union and Rahmonov's regime (1997).

Discrimination is a phenomena, which is existed in whole aspects of government Tajikistan.

For example, "designating of staffs" starting from Ministers, deputies, Judges, teachers ending to a simple staff of a bank, even scholarship for a student.

The regime divided society into specific and vague. In addition, completely socio-economical dealing connected to this policy. There is no any facilities for abnormal people. As an example: Zaid Saidov, former Ministry of industry and a success businessperson, who imprisoned for 29 years.

Changing the constitution of country on Dictator Rahmonov's demands and given the name of "Leader of the Nation" for himself is non-discrimination. Last referendum shows that, there is no any rights for other people except Rahmonov and his family. As he clearly announced, Tajikistan is only for me.

This person returned the country to dark period, while authoritarian regimes were controlling the Europe until 17 th century. It means that, Rahmonov's regime is not match with the present century.

In conclusion, I wish to state that,

1. Rahmonov within 25 years of his dictatorship made the country the biggest jail on the globe.
2. I request from the International community to not forget this jail.
3. Finally I request from the International Community to stop supporting Rahmonov's regime by Tajik nation's name, than the nation can resolve it's issues.

Thank you,
