

My name is Aiman Umarova. I am an Attorney At Law. Today I defend my client Mr.Kozlov Vladimir. He is a political prisoner.

Kozlov V. was sentenced to seven and half year-term for radicalism and he is serving his sentence in a general regim penal colony.

During this time he has many difficulties after he initiated a legal procedure against that facility.

Under our Laws Mr. Kozlov V. could be released early, conditionally, in November 2015 but only if he has not been a subject to disciplinary penalty.

The authorities of penitentiary system impose penalties on Kozlov V. It allow them to deny him to be released and to be free.

The Head of the general regim colony Mr.Idilov A. signed orders to punish Kozlov V. and put Kozlov V. in an isolation cell many times .

Mr.Kozlov today needs special medical care which is not available in a cell and conditions of then colony.

His rights are inveided by the authorities of the colony.

They also violated my rights as an Attorney at Law more than ten times.

When I visit my client every time I am undressed and all my legal papers are read by the colony staff.

I understand,It is illegal actions. I can not resist because If I do so I will never see my client.

Mr.Kozlov V. started legal procedurings against the colony.

The judge who consider his case did not allow to record affidavits of witnesses and court sessions.

No one could be in a hearing because the judge prohibited.

It was a closed session (hearing). He openly demonstrated his opinion against Mr.KozlovV.
