Project name: Strengthening the capacities of Aarhus Centres in disaster risk reduction (DRR) in order to enhance awareness of local communities

Activities 2014 - National workshop for capacity-building of Aarhus Centers and their partners in the area of DRR, 19-21 November 2014, Zenica, Bosnia and Herzegovina

Objectives:

Upgrade knowledge of Aarhus Centers and their partners from NGO sector and municipalities about DRR concepts and approaches; Facilitate exchange of experiences among DRR experts and practitioners;

Define priority actions and cooperation modalities of Aarhus Centers, municipalities and other stakeholders related to DRR.

Results and conclusions:

- Workshop on learning about DRR concept as well as exchanges and networking among all participants.
- •Built capacities and initiated new partnerships for future projects on the topic of DRR.
- •Significant increase of **visibility of Aarhus Centres' DRR** related activities towards ministries, municipalities and NGOs represented in the workshop.

- •Participants understood that the negligence of prevention measures were the main cause for the large-scale consequences of the recent disasters
- •Municipal authorities gained **new knowledge about DRR** and raised understanding that local authorities have the leading role in DRR efforts
- •Ideas developed during group work and partnerships initiated during this workshop were the basis for future joint projects.

Project name: Action Plan on strengthening public awareness of disaster risk reduction in the Municipality of Vogosca
