

Thinkout

THINKOUT Recommendations

03 July 2014

Thinkout is a Belgian based non governmental organisation.

Thinkout has for challenge to include, integrate and enforce the different cultures in Europe in the mainstream society while respecting the human rights.

Thinkout attended the session I of the meeting of OSCE on 15th April 2016 concerning **"Challenges to Realizing Tolerance and Non-Discrimination: Root Causes and Consequences"** and made following speech and recommendation:

The only way to combate discrimination and hate crimes against muslims is by protecting their rights with law such as it is with anti-semitizm

We only have to open our eyes and recognize what's happening.
We see in Germany that offices of Islamic NGO's, places of worship are being attacked by extreme groups and almost no one of them has been condemned.

The French presidential elections created spaces for potential extremist hate crimes against muslims.

We cannot be blind for these facts anymore!!

The current situation is a black page of humanity when we see today that terrorist attacks and the refugee crisis serve as pretext to develop islamophobic attacks!

Everyone who thinks objectively can determine that to prevent islamophobia and the violation of the rights of Muslims is non other than specific legal protection laws.

Without further waste of time we should start the discussion of the legal settings so that the existing hate will not turn into a new massacre.

We believe and are hopeful with the German chairmanship to positive developments.
