

MEDIA FOR IMPROVED REPORTING ON ENVIRONMENT AND NATURAL RESOURCES IN CENTRAL ASIA

### CONCEPT

Capacity development

Access to information on environment and natural resources in CA

Regional collaboration

Interactive tools and platforms

### CAPACITY DEVELOPMENT

## **Target vs Actuals**

26/27

Trainers trained and mentored regionally

50/0

Media professionals trained to report on conflict sensitive and natural resources

10/0

Fellows attend international conferences on environmental issues

70/32

**€126,000/15,466 (4)** 

Journalists and eco activists join forces at EcoCamps

30 production sub-grants distributed regionally

# POSSIBLE CO-OPERATION WITH AARHUS CENTRES

ToT alumni and training modules can be used by the Aarhus centres in delivering and developing educational programs

- The Aarhus centres can apply for the subgrants to implement media projects
- During the in-country events participate as the local experts (KG, KZ and TJ)

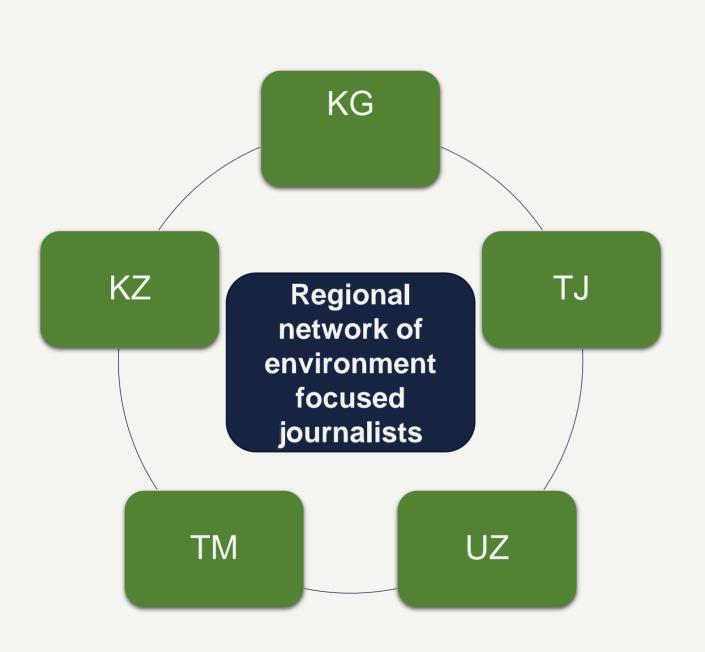

Maria Orlova, editor at the "Argumenty nedeli. Kyrgyzstan", Chui oblast started using infographics on their newspaper after completing the ToT in Kyrgyzstan

Result: Increased technical and thematic capacity of local and national media professionals to report on environment and natural resources

### REGIONAL COLLABORATION

### Target vs Actuals

100/19

10 cross-border workshops attended by 100 participants.

50/0

10 cross-border reporting trips organized for 50 journalists

**€10,000/480** 

50 stipends provided to support individual journalists for production of relevant content

# POSSIBLE CO-OPERATION WITH AARHUS CENTRES

- The Aarhus centres can use events for networking purposes with the media representatives to develop cross-border collaborative projects
- Synergies with other regional initiatives implemented by international organizations
- The staff members of Aarhus centres can apply for the individual stipends

# INTERACTIVE TOOLS AND PLATFORMS

## **Target vs Actuals**

## DATA COLLECTION NETWORK

1/1

In house network of 5 data collectors per each target country

60/15

Datasets created on water and air pollution, deforestations and protected areas in targeted countries

LIVINGASIA.ONLINE

1/1

Geojournalism platform designed, launched and deployed

80/28

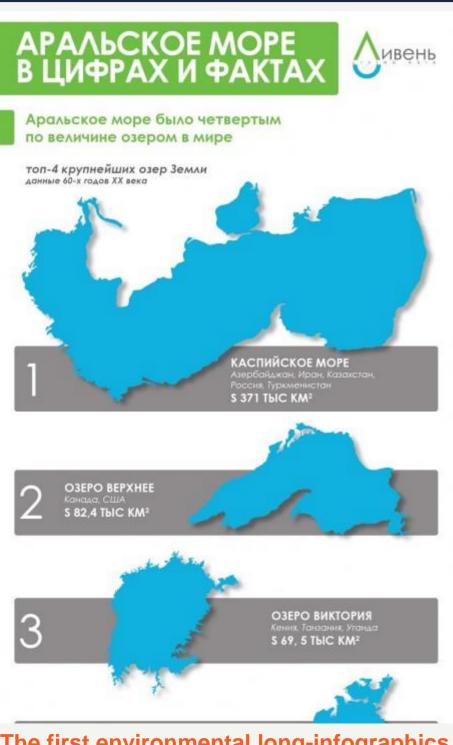

Multimedia stories from local media outlets and Content Managers

**DATALABS** 

40/0

At least 20 journalists trained at two regional LABs

### RESULTS SO FAR

The first environmental long-infographics (infographics in which presented maximum facts and data about one topic)

- 5 joint multimedia stories with local media outlets
- 10 stories from the website republished on different news-websites
- 2 multimedia stories exclusively produced for the Ливень: Living Asia by local media.
- 15 data-sets published: 3 on
  Kazakhstan, 4 on Kyrgyzstan, 3 on
  Tajikistan and 5 on Turkmenistan

#### informburo.kz

27 октября в 14:50 ⋅ 🥹

Арал - боль всего Казахстана, море, которое мы потеряли всего за несколько десятилетий. Что происходит там прямо сейчас - в репортаже, который специально для informburo.kz привезла команда экопроекта Ливень. Living Asia

#### Как и чем живёт Аральское море

В зарубежной прессе ситуацию с Аралом называют не иначе, как "Величайшей экологической трагедией современности".

#### Бектур Искендер

31 октября в 17:54 ⋅ 🥹

Почитайте Виталия Белошапкина в роли журналиста-эколога (внезапно!). Но материал правда очень полезный, потому что сжигание осенних листьев задрало по самые гланды.

Vitalii Beloshapkin, Ливень. Living Asia

Почему нельзя сжигать листья, и что с ними делать? | KLOOP.KG - Новости Кыргызстана

ИСТОРИИ ЭКОЛАЙФХАКИ ЭКОЛОГИЗМЫ РЕАЛИТИ «LIVEHЬ» Q

Result: Sustained cross-border stakeholder engagement and media interaction on natural resources and environmental issues

# POSSIBLE CO-OPERATION WITH AARHUS CENTRES

- The Ливень: Living Asia platform ownership maybe transferred to the Aarhus centres. Preliminary agreement with the center in Khujand
- The Aarhus centres may use the platform for publication and dissemination of the content and data on environment and natural resource in the region
