

# Daily Report 231/2019

30 September 2019<sup>1</sup>

#### **Summary**

- Compared with the previous reporting period, between the evenings of 27 and 28 September, the SMM recorded fewer ceasefire violations in Donetsk region and more in Luhansk region.
- Between the evenings of 28 and 29 September, the Mission recorded more ceasefire • violations in Donetsk region and fewer in Luhansk region, compared with the previous 24 hours.
- SMM mid-range unmanned aerial vehicle (UAV) flying over areas near Petrivske was • damaged by small-arms fire; and small-arms fire was assessed as directed at SMM mini-UAV near Lobacheve.
- The SMM saw fresh damage from small-arms fire to a house in Dokuchaievsk and from shelling to a house in Donetsk city.
- Inside the Stanytsia Luhanska disengagement area, the SMM again saw a temporary • pedestrian bypass bridge being connected with the broken section of the Stanytsia Luhanska bridge. It also saw workers from non-government-controlled areas clearing vegetation about 50m east of the bridge along the southern bank of the Siverskyi Donets river.
- The SMM saw a tube of a rocket-propelled grenade and recorded ceasefire violations inside the Zolote disengagement area. It again observed military presence inside the Petrivske disengagement area.
- The SMM observed weapons in violation of their respective withdrawal lines in • government-controlled areas of Donetsk region and on both sides of the contact line in Luhansk region, including at the former Luhansk international airport.
- The SMM saw unexploded ordnance near non-government-controlled Dovhe and • Vesela Hora.
- The SMM monitored adherence to the ceasefire to facilitate the operation of essential civilian infrastructure and the drilling of wells near Raivka.
- Restrictions of the Mission's access continued, including at a checkpoint of the armed • formations near the Petrivske disengagement area and Verkhnoshyrokivske, as well as near non-government-controlled Voznesenivka, areas near the border with the **Russian Federation \***

<sup>&</sup>lt;sup>1</sup> Based on information from the Monitoring Teams as of 19:30, 29 September 2019. All times are in Eastern European Summer Time.

**Ceasefire violations**<sup>2</sup>

<sup>&</sup>lt;sup>2</sup> For a complete breakdown of ceasefire violations, please see the annexed table. During the reporting period, the SMM camera in Pervomaisk was not operational. <sup>3</sup> Including explosions.

<sup>&</sup>lt;sup>4</sup> Including from unidentified weapons.

#### Map of recorded ceasefire violations

In Donetsk region, between the evenings of 27 and 28 September, the SMM recorded fewer ceasefire violations, including fewer explosions (about 230), compared with the <u>previous</u> reporting period (about 360 explosions). The majority of ceasefire violations, including explosions, were recorded at easterly, southerly and westerly directions of Svitlodarsk (government-controlled, 57km north-east of Donetsk) and in areas north and north-north-east of Marinka (government-controlled, 23km south-west of Donetsk).

Between the evenings of 28 and 29 September, the SMM recorded more ceasefire violations, however fewer explosions (about 125), compared with the previous 24 hours. The majority of ceasefire violations were recorded by the SMM camera at the entry-exit checkpoint in Pyshchevyk (government-controlled, 84km south of Donetsk) at a range of 2-8km south and south-south-east of the camera, by the SMM camera in Chermalyk (government-controlled, 77km south of Donetsk) at a range of 2-3km south and south-south-east of the camera and in areas east and east-south-east of Svitlodarsk.

In Luhansk region, between the evenings of 27 and 28 September, the SMM recorded more ceasefire violations, including more explosions (30), compared with the <u>previous reporting</u> <u>period</u> (15 explosions). The majority of ceasefire violations, including explosions, were recorded in areas north-north-west of Kadiivka (formerly Stakhanov, non-government-controlled, 50km west of Luhansk).

Between the evenings of 28 and 29 September, the SMM recorded fewer ceasefire violations, including fewer explosions (12), compared with the previous 24 hours. The majority of ceasefire violations were recorded in areas south-east of Popasna (government-controlled, 69km west of Luhansk).

SMM mid-range UAV flying over areas near Petrivske was damaged by small-arms fire; and small-arms fire was assessed as directed at SMM mini-UAV near Lobacheve

On 27 September, the SMM conducted a mid-range UAV flight over the disengagement area near Petrivske (non-government-controlled, 41km south of Donetsk), as well as areas near Viktorivka (42km south-west of Donetsk) and Rodnykove (non-government-controlled, 36km south of Donetsk), about 260-320m above the ground; it landed the UAV. Subsequently, the SMM noted that the same UAV had sustained damage: an entry hole (around 5mm in diameter) on the lower side of the left wing and an exit hole on the upper side of the left wing (around 3-4mm in diameter) with cracks surrounding the hole in an upward direction and a chipped battery on its lower left corner located between the two holes. The SMM assessed the damage as caused by small-arms fire.\*

On 29 September, while positioned 1.6km north-north-east of Lobacheve (non-governmentcontrolled, 13km east of Luhansk), conducting a mini-UAV flight, the SMM heard seven shots of small-arms fire about 3km south-east, assessed as aimed at the UAV, which was flying about 3km south-east of its position. The SMM lost control over the UAV and was unable to recover it.\*

Fresh damage from small-arms fire to a house in Dokuchaievsk and from shelling to a house in Donetsk city

On 28 September, in the northern edge of Dokuchaievsk (non-government-controlled, 30km south-west of Donetsk), at 15 Vatutina Street, the SMM saw a hole located on the south-

facing window pane on the ground floor of a multi-storey building. It also saw two corresponding holes: one in the sofa opposite the aforementioned window and one in the concrete wall with scratches in the wallpaper, all assessed as the ricochet of one bullet. The SMM assessed that the damage was fresh and had been caused by a 12.7mm bullet. A resident of the apartment (woman in her sixties) told the SMM that the damage had been caused on 27 September while she was at home.

On 29 September, at a one-storey house at 306 Petrovskoho Street in the western outskirts of the Trudivski area of Petrovskyi district of Donetsk city (non-government-controlled), the SMM saw damage to a west-facing brick wall with debris on the ground scattered in a radius of about 2m as well as broken tree branches in the garden, all assessed as fresh damage caused by shrapnel. The SMM saw pieces of metal assessed as the tailfin of a recoilless gun (SPG-9,73mm) lying on the ground in front of the above-mentioned wall. A resident of the house (man in his fifties) told the SMM that the damage had been caused by shelling at 18:30 on 28 September while he was at home.

#### Stanytsia Luhanska disengagement area

On 28 September, the SMM saw ten workers from government-controlled areas with a crane and an excavator working on a concrete foundation of a temporary pedestrian bypass bridge connected to the southern edge of the broken section of the Stanytsia Luhanska bridge (15km north-east of Luhansk). The workers were fixing wooden boards on the top of platforms and installing rails on both sides of the temporary bridge, and cutting off a metal part of a traffic barrier on the edge of the broken section of the bridge in order to open up access to the temporary bridge. It also saw seven workers clearing vegetation with two chainsaws and a tractor on the eastern side of the northern edge of the broken section of the bridge.

On the same day, the SMM saw three deminers from non-government-controlled areas gathered close to the checkpoint of the armed formations south of the broken section of the Stanytsia Luhanska bridge and four others <u>again</u> clearing and burning vegetation about 50m east of the Stanytsia Luhanska bridge, along the southern bank of the Siverskyi Donets river.

Between the checkpoint of the armed formations and the broken section of the bridge, the SMM saw a senior member and at least five other members of the armed formations (wearing "JCCC" armbands).

On 29 September, the SMM saw ten workers from government-controlled area working on a concrete foundation of a temporary pedestrian bypass bridge.

On 29 September, while on the north-eastern edge of Stanytsia Luhanska (governmentcontrolled, 16km north of Luhansk), the SMM heard an undetermined explosion at an assessed range of 2-4km south, assessed as outside the disengagement area but within 5km of its periphery. In the afternoon of 28 September, positioned at the northern edge of the broken section of the bridge, the SMM heard seven explosions, assessed as controlled detonations on the southern bank of the Siverskyi Donets river, inside the disengagement area.

#### Other disengagement areas<sup>5</sup>

On 27 September, the SMM crossed the road T-1316 through the Zolote disengagement area from non-government to government-controlled areas and back again; it saw for the first time a barbed wire across the road T-1316 that a Ukrainian Armed Forces soldier had removed to allow the SMM's passage and then placed back again about 10-20m south of the railway tracks. While crossing on 26 and 27 September, inside the disengagement area, the SMM saw an unused tube of a rocket-propelled grenade of camouflage colour about 1m long on the western edge of the T-1316 road about 1km north of the checkpoint of the armed formations and 500m south of the SMM camera site.

The SMM saw, outside the Zolote disengagement area, six men in camouflage uniform assessed as belonging to the armed formations digging new trenches west of the local road about 160m south of the disengagement area's southern edge.

On 28 September, the SMM camera in Zolote recorded seven projectiles in flight at an assessed range of 2-4km south-east and an undetermined explosion at an assessed range of 2-3.5km south, all assessed as inside the disengagement area. It also recorded an explosion at an assessed range of 7-10km east-south-east, assessed as outside the disengagement area but within 5km of its periphery.

On 27 September, inside the disengagement area near Petrivske, an SMM long-range UAV again spotted an armoured personnel carrier (APC) (BTR variant) about 1.2km south of the area's northern edge and 1.3km east of its western edge, assessed as belonging to the Ukrainian Armed Forces.

On 28 September, positioned close to the disengagement area near Petrivske, the SMM observed a calm situation.\*

#### Withdrawal of weapons

The SMM continued to monitor the withdrawal of weapons in implementation of the Memorandum and the Package of Measures and its Addendum.

The Mission observed 60 weapons in violation of withdrawal lines, 21 in governmentcontrolled areas of Donetsk and Luhansk regions and 39 in non-government-controlled areas of Luhansk region. The SMM also observed 35 weapons beyond their withdrawal lines but outside storage sites, two in government-controlled areas of Donetsk region and 33 in nongovernment-controlled areas of Luhansk region (for more details, see the tables below).

#### Weapons permanent storage sites

*At a permanent storage site in a government-controlled area of Luhansk region* 28 September

<sup>&</sup>lt;sup>5</sup> Disengagement is foreseen in the <u>Framework Decision of the Trilateral Contact Group relating to</u> disengagement of forces and hardware of 21 September 2016.

The SMM noted that 51 tanks (T-64) and six mortars (M120-15 *Molot*, 120mm) continued to be missing as well as three mortars (2B11/2S12 *Sani*, 120 mm) that were missing of the first time.

# *At a permanent storage site in a non-government-controlled area of Luhansk region* 28 September

The SMM noted that seven tanks (T-72), four towed howitzers (D-30 *Lyagushka*, 122mm) and one mortar 2B14 *Podnos*, 82mm) were missing for the first time.

At a heavy weapons permanent storage site in a non-government-controlled area of Luhansk region

28 September

The SMM noted that seven self-propelled howitzers (2S1 *Gvozdika*, 122mm) continued to be missing.

#### Indications of military and military-type presence in the security zone<sup>6</sup>

Government-controlled areas

#### 27 September

An SMM long-range UAV spotted:

- an APC (type unidentified) near Zalizne (formerly Artemove, 42km north-east of Donetsk);
- an armoured combat vehicle (ACV) (type unidentified) near Nevelske (18km north-west of Donetsk);
- an ACV (type unidentified) near Marinka;
- an APC (BTR-70) near Novotroitske (36km south-west of Donetsk);
- an ACV (type unidentified) near Starohnativka (51km south of Donetsk);
- three infantry fighting vehicles (IFV) and an ACV (type unidentified) near Novoselivka Druha (69km south of Donetsk);
- three ACVs (type unidentified) near Lebedynske (99km south of Donetsk);
- two ACVs (type unidentified) near Panteleimonivka (34km north of Donetsk); and
- an APC (BTR-80) and an IFV (BMP-2) near Popasna.

29 September

The SMM saw two APCs (MT-LB) on the southern edge of Popasna.

#### Unexploded ordnance near Dovhe and Vesela Hora

On 28 September, the SMM saw for the first time three separate pieces of UXO assessed as sections from tailfins of an 82mm mortar round and of rocket-propelled grenades (RPG) as well as an unexploded RPG warhead with a damaged nose cone, all covered by rubbish and lying in a ditch 5m west of a local road leading to residential areas about 130m south-west of Dovhe (non-government-controlled, 22km north-west of Luhansk).

<sup>&</sup>lt;sup>6</sup> The hardware mentioned in this section is not proscribed by the provisions of the Minsk agreements on the withdrawal of weapons.

On 29 September, the SMM saw for the first time an 82mm mortar round attached to a post at the entrance of an agricultural compound on the southern edge of Vesela Hora (non-government-controlled, 16km north of Luhansk).

#### SMM facilitation of operation of and repair works to civilian infrastructure

On 28 September, the SMM monitored adherence to the ceasefire to facilitate the drilling of wells near Raivka (non-government-controlled, 16km north-west of Luhansk).

On 28 and 29 September, the SMM continued to facilitate the operation of the Donetsk Filtration Station (15km north of Donetsk).

Border areas outside government control

On 27 September, while at a border crossing point near Novoazovsk (102km south-east of Donetsk) for about 15 minutes, the SMM saw seven cars (one with Ukrainian and one with Russian Federation licence plates, as well as five with "DPR" plates) and a covered cargo truck with Russian Federation licence plates entering Ukraine. It also saw seven cars (three with Ukrainian licence plates and four with "DPR" plates) and one covered cargo truck with "DPR" plates exiting Ukraine.

On 28 September, while at a border crossing point near Uspenka (73km south-east of Donetsk) for about one hour, the SMM saw 17 cars (two with Ukrainian, eight with Russian Federation and two with Lithuanian licence plates, as well as five with "DPR" plates), 12 covered cargo trucks (seven with Ukrainian, one with Russian Federation and one with Belarus licence plates, as well as three with "DPR" plates), two buses with "DPR" plates, as well as 25 pedestrians (11 men and 14 women, mixed ages), entering Ukraine. It also saw 17 cars (two with Ukrainian, six with Russian Federation, one with Polish and one with Estonian licence plates, as well as seven with "DPR" plates), five covered cargo trucks (four with Ukrainian licence plates, as well as one with "DPR" plates), one bus with Russian Federation licence plates, as well as 20 pedestrians (11 men and nine women, mixed ages), exiting Ukraine.

Positioned at a border crossing point near Voznesenivka (formerly Chervonopartyzansk, 65km south-east of Luhansk), the SMM saw no pedestrians or traffic entering or exiting Ukraine. After about ten minutes, a member of the armed formations asked the SMM to leave the area.\*

Positioned at the Chervona Mohyla railway station near Voznesenivka, the SMM saw no railway cars entering or exiting Ukraine. After about ten minutes, a member of the armed formations told the SMM to leave the area.\*

#### Gathering in Kyiv

On 27 September, the SMM monitored a gathering in relation to investigations into attacks against civil activists, including Kateryna Handziuk. The Mission saw about 300 protesters (mixed gender, aged 20-60) gathered in front of the Presidential Administration, with the presence of about 30 police officers. A participant complained about what they said was the lack of progress in investigations. The Mission saw some of them spray-paint a message "Who Will Be the Next Katya Handziuk" on an exterior ground in front of the entrance to the

building of the Presidential Administration. The SMM saw that the police escorted a man (26 years old) holding a banner with a message "attacks by right-wing groups should also be investigated" after he had been engaged in verbal altercations with a group of ten men, some wearing the insignia of the "Municipal Varta". It did not observe further incidents.

The Mission continued monitoring in Kherson, Odessa, Lviv, Ivano-Frankivsk, Kharkiv, Dnipro and Chernivtsi.

# \*Restrictions of the SMM's freedom of movement or other impediments to fulfilment of its mandate

The SMM's monitoring and freedom of movement are restricted by security hazards and threats, including risks posed by mines, UXO and other impediments – which vary from day to day. The SMM's mandate provides for safe and secure access throughout Ukraine. All signatories of the Package of Measures have agreed on the need for this safe and secure access, that restriction of the SMM's freedom of movement constitutes a violation, and on the need for rapid response to these violations. They have also agreed that the JCCC should contribute to such response and co-ordinate mine clearance. Nonetheless, the armed formations in parts of Donetsk and Luhansk regions frequently deny the SMM access to areas adjacent to Ukraine's border outside control of the Government (for example, see below). The SMM's operations in Donetsk and Luhansk regions remain restricted following the fatal incident of 23 April 2017 near Pryshyb; these restrictions continued to limit the Mission's observations.

#### Denial of access:

- On 28 and 29 September, at a checkpoint on the northern edge of Petrivske (nongovernment-controlled, 41km south of Donetsk), an armed member of the armed formations <u>again</u> denied the SMM passage, citing "engineer's work and shelling in the area", thereby restricting the SMM's access to its camera in Petrivske.
- On 28 and 29 September, at a checkpoint 1km west of Verkhnoshyrokivske (formerly Oktiabr, non-government-controlled, 85km south of Donetsk), two members of the armed formations, including one visibly armed, <u>again</u> denied the SMM passage citing "ongoing anti-terrorist operation" and "demining activities".
- On 28 September, at a border crossing point near Voznesenivka (formerly Chervonopartyzansk, non-government-controlled, 65km south-east of Luhansk), a member of the armed formations told the SMM to leave the area.
- On 28 September, at the Chervona Mohyla railway station in Voznesenivka, a member of the armed formations told the SMM to leave, citing it was not allowed to be in the area.

#### *Regular restrictions related to disengagement areas and mines/UXO:*

- The sides continued to deny the SMM full access, as well as the ability to travel certain roads previously identified as important for effective monitoring by the Mission and for civilians' movement, through failure to conduct comprehensive clearance of mines, UXO and other obstacles.

#### Other impediments:

- On the evening of 27 September, an SMM long-range UAV lost its GPS signal, assessed as due to probable jamming, while flying over areas between Illinivka (government-controlled, 56km north of Donetsk) and Petrivske (non-government-controlled, 41km south of Donetsk) and between Hranitne (government-controlled, 60km south of Donetsk) and Shevchenko (non-government-controlled, 82km south of Donetsk). The same UAV also lost its GPS signal due to signal interference, assessed as jamming, while flying over government-controlled areas of southern Donetsk region and non-government-controlled areas of central Donetsk region.<sup>7</sup>
- On 28 September, an SMM mini UAV experienced on three occasions signal interference, assessed as due to probable jamming, while flying over areas near Bohdanivka (government-controlled, 41km south-west of Donetsk).
- On 28 September, the SMM noted its mid-range UAV had sustained damage, assessed as caused by small-arms fire during a flight over the disengagement area near Petrivske (non-government-controlled, 41km south of Donetsk), as well as areas near Viktorivka (42km south-west of Donetsk) and Rodnykove (non-government-controlled, 36km south of Donetsk) on 27 September (see above).
- On 29 September, positioned 1.6km north-north-east of Lobacheve (non-governmentcontrolled, 13km east of Luhansk), while conducting a mini-UAV flight, the SMM heard seven shots of small-arms fire about 3km south-east, assessed as aimed at the UAV, which was flying about 3km south-east of its position. The SMM lost control over the UAV, which crashed in the field; the Mission was unable to recover it.
- On 29 September, an SMM mini-UAV experienced signal interference, assessed as due to probable jamming, while flying over areas near Petrivske.

<sup>&</sup>lt;sup>7</sup> The interference could have originated from anywhere within the radius of kilometres from the UAVs' position.

### Table of ceasefire violations as of 29 September 2019<sup>8</sup>

<sup>&</sup>lt;sup>8</sup> The table only includes ceasefire violations directly observed by the SMM and it may include those also assessed to be live-fire exercises, controlled detonations, etc. Details provided – in terms of distance, direction, weapons-type, etc. – are based on assessments provided by monitors on the ground, and are not always necessarily precise. When information is not known (indicated with an "N/K"), the SMM was unable to ascertain such information due to distance, weather conditions and/or other considerations. Ceasefire violations recorded by more than one patrol and assessed to be the same are entered only once.

#### Map of Donetsk and Luhansk regions<sup>9</sup>

<sup>&</sup>lt;sup>9</sup> The SMM is deployed to ten locations throughout Ukraine – Kherson, Odessa, Lviv, Ivano-Frankivsk, Kharkiv, Donetsk, Dnipro, Chernivtsi, Luhansk and Kyiv – as per Permanent Council Decision 1117 of 21 March 2014. This map of eastern Ukraine is meant for illustrative purposes and indicates locations mentioned in the report, as well as those where the SMM has offices (monitoring teams, patrol hubs, and forward patrol bases) in Donetsk and Luhansk regions. (In red: a forward patrol base from which SMM staff has temporarily relocated based on recommendations of security experts from participating States as well as SMM security considerations. The SMM uses the premises during daylight hours and patrols in this settlement during daylight hours, as well).
