- (47) The host State may delegate responsibilities as host to another participating State or States engaged in the military activity on the territory of the host State, which will be the delegated State. In such cases, the host State will specify the allocation of responsibilities in its invitation to observe the activity.
- (48) Each participating State may send up to two observers to the military activity to be observed. The invited State may decide whether to send military and/or civilian observers, including personnel accredited to the host State. Military observers will normally wear their uniforms and insignia while performing their tasks.
- (49) The modalities regarding observation of certain military activities will conform to the provisions in Annex II.

- (50) The host or delegated State will determine a duration of observation which permits the observers to observe a notifiable military activity from the time that agreed thresholds for observation are met or exceeded until, for the last time during the activity, the thresholds for observation are no longer met.
- (51) The observers may make requests with regard to the observation programme. The host or delegated State will, if possible, accede to them.
- (52) The observers will be granted, during their mission, the privileges and immunities accorded to diplomatic agents in the Vienna Convention on Diplomatic Relations.
- (53) The participating States will ensure that official personnel and troops taking part in an observed military activity, as well as other armed personnel located in the area of the military activity, are adequately informed regarding the presence, status and functions of observers.
- (54) The host or delegated State will not be required to permit observation of restricted locations, installations or defence sites.
- (55) In order to allow the observers to confirm that the notified activity is non-threatening in character and that it is carried out in conformity with the appropriate provisions of the notification, the host or delegated State will:

 - (55.4) - be encouraged, whenever feasible and with due consideration for the security of the observers, to provide an aerial survey, preferably by helicopter, of the area of the military activity. to help them gain a general impression of its scope and scale. At least one observer from each participating State represented at the observation should be given the opportunity to participate in the survey. Helicopters and/or aircraft may be provided by the host State or by another participating State at the request of and in agreement with the host State;

Commanders and other senior personnel of the participating formations as well as of the visited units will inform the observers of the mission and disposition of their respective units;

Where States other than the host State have been engaged in the activity, military representatives of those States will also be invited to take part in this discussion.

(56) The participating States need not invite observers to notifiable military activities which are carried out without advance notice to the troops involved unless these notifiable activities have a duration of more than 72 hours. The continuation of these activities beyond this time will be subject to observation while the agreed thresholds for observation are met or exceeded. The observation programme will follow as closely as practically possible all the provisions for observation set out in this document.

(57) The participating States are encouraged to permit media representatives from all participating States to attend observed military activities in accordance with accreditation procedures set down by the host State. In such instances, media representatives from all participating States will be treated without discrimination and given equal access to those facets of the activity open to media representatives.

(57.1) The presence of media representatives will not interfere with the observers carrying out their functions nor with the flow of the military activity.

(58) The host or delegated State will provide the observers with transportation from a suitable location announced in the invitation to the area of the notified activity so that the observers are in position before the start of the observation programme. It will also provide the observers with appropriate means of transportation in the area of the military activity, and return the observers to another suitable location announced in the invitation at the conclusion of the observation programme.

VI. ANNUAL CALENDARS

- (59) Each participating State will exchange, with all other participating States, an annual calendar of its military activities subject to prior notification,⁷ within the zone of application for CSBMs, forecast for the subsequent calendar year. - (77) The participating State which has received such a request will reply in the affirmative to the request within the agreed period of time, subject to the provisions contained in paragraphs (74) and (75).
- (78) The participating State which requests an inspection will be permitted to designate for inspection on the territory of another State within the zone of application for CSBMs, a specific area. Such an area will be referred to as the "specified area". The specified area will comprise terrain where notifiable military activities are conducted or where another participating State believes a notifiable military activity is taking place. The specified area will be defined and limited by the scope and scale of notifiable military activities but will not exceed that required for an army level military activity.
- (79) In the specified area the inspection team accompanied by the representatives of the receiving State will be permitted access, entry and unobstructed survey, except for areas or sensitive points to which access is normally denied or restricted, military and other defence installations, as well as naval vessels, military vehicles and aircraft. The number and extent of the

restricted areas should be as limited as possible. Areas where notifiable military activities can take place will not be declared restricted areas, except for certain permanent or temporary military installations which, in territorial terms, should be as small as possible, and consequently those areas will not be used to prevent inspection of notifiable military activities. Restricted areas will not be employed in a way inconsistent with the agreed provisions on inspection.

- (80) Within the specified area, the forces of participating States other than the receiving State will also be subject to the inspection.
- (81) Inspection will be permitted on the ground, from the air, or both.

The inspection team will be headed by a national of the inspecting State, which will have at least as many inspectors in the team as any invited State. The inspection team will be under the responsibility of the inspecting State, against whose quota the inspection is counted. While conducting the inspection, the inspection team may divide into two subteams.
- (90) The inspectors and, if applicable, auxiliary personnel will be granted during their mission the privileges and immunities in accordance with the Vienna Convention on Diplomatic Relations.
- (91) The participating States will ensure that troops, other armed personnel and officials in the specified area are adequately informed regarding the presence, status and functions of inspectors and, if applicable, auxiliary personnel. The receiving State will ensure that no action is taken by its representatives which could endanger inspectors and, if applicable, auxiliary personnel. In carrying out their duties, inspectors and, if applicable, auxiliary personnel will take into account safety concerns expressed by representatives of the receiving State.
- (92) The receiving State will provide the inspection team with appropriate board and lodging in a location suitable for carrying out the inspection, and, when necessary, medical care; however this does not exclude the use by the inspection team of its own tents and rations.
- (93) The inspection team will have use of its own maps and charts, photo and video cameras, binoculars, hand-held passive night vision devices and dictaphones. Upon arrival in the specified area the inspection team will show the equipment to the representatives of the receiving State. Suggestions of the receiving State as to the briefings will be taken into consideration.
- (97) The inspecting State will specify whether aerial inspection will be conducted using an airplane, a helicopter or both. Aircraft for inspection will be chosen by mutual agreement between the inspecting and receiving States. Aircraft will be chosen which provide the inspection team with a continuous view of the ground during the inspection.
- (98) After the flight plan, specifying, *inter alia*, the inspection team's choice of flight path, speed and altitude in the specified area, has been filed with the competent air traffic control authority the inspection aircraft will be permitted to enter the specified area without delay. Within the specified area, the inspection team will, at its request, be permitted to deviate from the approved flight plan to make specific observations provided such deviation is consistent with paragraph (79) as well as flight safety and air traffic requirements. Directions to the crew will be given through a representative of the receiving State on board the aircraft involved in the inspection.
- (99) One member of the inspection team will be permitted, if such a request is made, at any time to observe data on navigational equipment of the aircraft and to have access to maps and charts used by the flight crew for the purpose of determining the exact location of the aircraft during the inspection flight.
- (100) Aerial and ground inspectors may return to the specified area as often as desired within the 48-hour inspection period.
- (101) The receiving State will provide for inspection purposes land vehicles with cross-country capability. Whenever mutually agreed, taking into account the specific geography relating to the area to be inspected, the inspecting State will be permitted to use its own vehicles.
- (102) If land vehicles or aircraft are provided by the inspecting State, there will be one accompanying driver for each land vehicle, or accompanying aircraft crew.
- (103) The inspecting State will prepare a report of its inspection using a format to be agreed by the participating States and will provide a copy of that report to all participating States without delay.

- (104) The inspection expenses will be incurred by the receiving State except when the inspecting State uses its own aircraft and/or land vehicles. The inspecting State will be responsible for travel expenses to and from the point(s) of entry.

EVALUATION

- (105) Information provided under the provisions on Information on Military Forces and on Information on Plans for the Deployment of Major Weapon and Equipment Systems will be subject to evaluation.
- (106) Subject to the provisions below each participating State will provide the opportunity to visit active formations and units in their normal peacetime locations as specified in points 2 and 3 of the provisions on Information on Military Forces to allow the other participating States to evaluate the information provided.
- (106.1) Non-active formations and combat units temporarily activated will be made available for evaluation during the period of temporary activation and in the area/location of activation indicated under paragraph (10.3.3). In such cases the provisions for the evaluation of active formations and units will be applicable, *mutatis mutandis*. Evaluation visits conducted under this provision will count against the quotas established under paragraph (107).
- (107) Each participating State will be obliged to accept a quota of one evaluation visit per calendar year for every sixty units, or portion thereof, reported under paragraph (10). However, no participating State will be obliged to accept more than fifteen visits per calendar year. No participating State will be obliged to accept more than one fifth of its quota of visits from the same participating State; a participating State with a quota of less than five visits will not be obliged to accept more than one visit from the same participating State during a calendar year. No formation or unit may be visited more than twice during a calendar year and more than once by the same participating State during a calendar year.
- (107.1) A participating State will inform all other participating States when, if applicable, its quota is filled.
- (108) No participating State will be obliged to accept more than one visit at any given time on its territory.
- (109) If a participating State has formations or units stationed on the territory of other participating States (host States) in the zone of application for CSBMs, the maximum number of evaluation visits permitted to its forces in each of the States concerned will be proportional to the number of its units in each State. The application of this provision will not alter the number of visits this participating State (stationing State) will have to accept under paragraph (107).

- (110) Requests for such visits will be submitted giving five days notice.
- (111) The request will specify:
- (111.1) - the formation or unit to be visited;
 - (111.2) - the proposed date of the visit;
 - (111.3) - the preferred point(s) of entry as well as the date and estimated time of arrival for the evaluation team;
 - (111.4) - the mode of transport to and from the point(s) of entry and, if applicable, to and from the formation or unit to be visited;
 - (111.5) - the names and ranks of the members of the team and, if applicable, information for the issue of diplomatic visas;
 - (111.6) - the preferred CSCE working language(s) to be used during the visit.
- (112) If a formation or unit of a participating State is stationed on the territory of another participating State, the request will be addressed to the host State and sent simultaneously to the stationing State.
- (113) The reply to the request will be given within 48 hours after the receipt of the request.
- (114) In the case of formations or units of a participating State stationed on the territory of another participating State, the reply will be given by the host State in consultation with the stationing State. After consultation between the host State and the stationing State, the host State will specify in its reply any of its responsibilities which it agrees to delegate to the stationing State.
- (115) The reply will indicate whether the formation or unit will be available for evaluation at the proposed date at its normal peacetime location.
- (116) Formations or units may be in their normal peacetime location but be unavailable for evaluation. Each participating State will be entitled in such cases not to accept a visit; the reasons for the non-acceptance and the number of days that the formation or unit will be unavailable for evaluation will be stated in the reply. Each participating State will be entitled to invoke this provision up to a total of five times for an aggregate of no more than 30 days per calendar year.
- (117) If the formation or unit is absent from its normal peacetime location, the reply will indicate the reasons for and the duration of its absence. The requested State may offer the possibility of a visit to the formation or unit outside its normal peacetime location. If the requested State does not offer this possibility, the requesting State will be able to visit the normal peacetime location of the formation or unit. The requesting State may however refrain in either case from the visit.

- (118) Visits will not be counted against the quotas of receiving States, if they are not carried out. Likewise, if visits are not carried out, due to force majeure, they will not be counted.
- (119) The reply will designate the point(s) of entry and indicate, if applicable, the time and place of assembly of the team. The point(s) of entry and, if applicable, the place of assembly will be designated as close as possible to the formation or unit to be visited. The receiving State will ensure that the team will be able to reach the formation or unit without delay. The receiving State will, in its reply, indicate which of the six official working languages will be used during the evaluation visit.
- (120) The request and the reply will be communicated to all participating States without delay.
- (121) Participating States will facilitate the passage of teams through their territory.
- (122) The team will have no more than two members. It may be accompanied by an interpreter as auxiliary personnel.
- (123) The members of the team and, if applicable, auxiliary personnel will be granted during their mission the privileges and immunities in accordance with the Vienna Convention on Diplomatic Relations.
- (124) The visit will take place in the course of a single working day and last up to 12 hours.
- (125) The visit will begin with a briefing by the officer commanding the formation or unit, or his deputy, in the headquarters of the formation or unit, concerning the personnel as well as the major weapon and equipment systems reported under paragraph (10).
- (125.1) In the case of a visit to a formation, the receiving State may provide the possibility to see personnel and major weapon and equipment systems reported under paragraph (10) for that formation, but not for any of its formations or units, in their normal locations.
- (125.2) In the case of a visit to a unit, the receiving State will provide the possibility to see the personnel and the major weapon and equipment systems of the unit reported under paragraph (10) in their normal locations.
- (126) Access will not have to be granted to sensitive points, facilities and equipment.
- (127) The team will be accompanied at all times by representatives of the receiving State.
- (128) The receiving State will provide the team with appropriate transportation during the visit to the formation or unit.

- (129) The evaluation team will have use of its own maps and charts, photo and video cameras, personal binoculars and dictaphones. Upon arrival at the location of the formation or unit being visited the evaluation team will show the equipment to the representatives of the receiving State.
- (130) The visit will not interfere with activities of the formation or unit.
- (131) The participating States will ensure that troops, other armed personnel and officials in the formation or unit are adequately informed regarding the presence, status and functions of members of teams and, if applicable, auxiliary personnel. Participating States will also ensure that no action is taken by their representatives which could endanger the members of teams and, if applicable, auxiliary personnel. In carrying out their duties, members of teams and, if applicable, auxiliary personnel will take into account safety concerns expressed by representatives of the receiving State.
- (132) Travel expenses to and from the point(s) of entry, including expenses for refuelling, maintenance and parking of aircraft and/or land vehicles of the visiting State, will be borne by the visiting State according to existing practices established under the CSBM inspection provisions.
- (132.1) Expenses for evaluation visits incurred beyond the point(s) of entry will be borne by the receiving State, except when the visiting State uses its own aircraft and/or land vehicles in accordance with paragraph (111.4).
- (132.2) The receiving State will provide appropriate board and, when necessary, lodging in a location suitable for carrying out the evaluation as well as any urgent medical care which may be required.
- (132.3) In the case of visits to formations or units of a participating State stationed on the territory of another participating State, the stationing State will bear the costs for the discharge of those responsibilities which have been delegated to it by the host State under the terms of paragraph (114).
- (133) The visiting State will prepare a report of its visit using a format to be agreed by the participating States which will be communicated to all participating States expeditiously.
- (134) The communications concerning compliance and verification will be transmitted preferably through the CSBM communications network.
- (135) Each participating State will be entitled to request and obtain clarification from any other participating State concerning the application of agreed confidence- and security-building measures. The requested participating State will provide promptly relevant clarification to the requesting participating State unless otherwise specified in this document. Communications in this context will, if appropriate, be transmitted to all other participating States.

* * *

(136) The participating States are encouraged to undertake, including on the basis of separate agreements, in a bilateral, multilateral or regional context, measures to increase transparency and confidence. Illustrative examples could be as follows:

(136.1) - to provide their neighbouring participating States with information on certain military activities carried out below the thresholds for notification and close to borders between them;

(136.2) - to invite representatives from other, especially neighbouring participating States to observe exercises other than those subject to the provisions of this document.

(137) The participating States are encouraged to provide information on such measures to the CPC, which will distribute lists of received information and make it available upon request.

IX. COMMUNICATIONS

(138) The CSCE Communications Network

The participating States have established a network of direct communications between their capitals for the transmission of messages relating, *inter alia*, to agreed measures contained in this document. The network will complement the existing use of diplomatic channels. Participating States undertake to use the network flexibly, efficiently and in a cost-effective way in communications between States concerning agreed CSBMs and other CSCE-related matters.

(139) Financial Arrangements

The cost-sharing arrangements are set out in documents CSCE/WV/Dec.2 and CSCE/WV/Dec.4.

(140) Points of Contact

Each participating State will designate a point of contact capable of transmitting and receiving messages from other participating States on a 24-hour-a-day basis and will notify in advance any change in this designation.

(141) Six CSCE languages

Communications may be in any one of the six working languages of the CSCE. Without prejudicing the future continued use of all six working languages of the CSCE, according to established rules and practice as set out in the Final Recommendations of the Helsinki Consultations, the participating States will:

- (141.1) - in order to facilitate an efficient use of the communications network, give due consideration to practical needs of rapid transmission of their messages and of immediate understandability. A translation into another CSCE working language will be added where needed to meet that principle;
- (141.2) - indicate at least two CSCE working languages in which they would prefer to receive the message or its translation.

(142) Use of the Network

Participating States will, whenever possible, use the Standard Operating Procedures (S.O.P.) and enforce user discipline to maximize the efficiency and cost-effectiveness of the network.

(142.1) Messages will always have headers as defined in the S.O.P.

(142.2) Messages will, whenever possible, be transmitted in formats with headings in all six CSCE working languages. Such formats, agreed among the

participating States with a view to making transmitted messages immediately understandable by reducing the language element to a minimum, are annexed to document CSCE/WV/Dec.4. The formats may be subject to agreed modifications as required.

(142.3) Messages will be considered official communications of the sending State. If the content of a message is not related to an agreed measure, the receiving State has the right to reject it by so informing the other participating States.

(142.4) Any narrative text, to the extent it is required in such formats, and messages that do not lend themselves to formatting will be transmitted in the CSCE working languages chosen by the transmitting State, in accordance with the provisions of paragraph (141).

(142.5) Each participating State has the right to ask for clarification of messages in case of doubt.

(143) Additional use of the Network

Participating States may agree among themselves to use the network for other purposes.

(144) The Communications Group

A Communications Group will be established, composed of representatives of the participating States and chaired, on behalf of the Chairman-in-Office, by a representative of the Secretary General of the CSCE.

(144.1) The group will address questions relating to rules of procedure, working methods, formats and any other measures to enhance the viability and effectiveness of the communications network, including issues relating to use of modern information technologies for data exchange.

(144.2) The group will meet two times per year for at least one day. Additional meetings may be convened as necessary.

(144.3) The Chairman of the Group will report to the appropriate CSCE committee about the proceedings of the Communications Group and, if appropriate, present drafts for decisions to be taken as prepared by the Group.

X. ANNUAL IMPLEMENTATION ASSESSMENT MEETING

- (145) The participating States will hold each year a meeting to discuss the present and future implementation of agreed CSBMs. Discussion may extend to:
- (145.1) - clarification of questions arising from such implementation;
- (145.2) - operation of agreed measures, including the use of additional equipment during inspections and evaluation visits;
- (145.3) - implications of all information originating from the implementation of any agreed measures for the process of confidence- and security-building in the framework of the CSCE.
- (146) Before the conclusion of each year's meeting the participating States will normally agree upon the agenda and dates for the subsequent year's meeting. Lack of agreement will not constitute sufficient reason to extend a meeting, unless otherwise agreed. Agenda and dates may, if necessary, be agreed between meetings.
- (147) The Special Committee of the Forum for Security Co-operation will hold such meetings. It will consider, as required, suggestions made during the AIAM aiming at the improvement of the implementation of CSBMs.
- Within one month after the AIAM, the Conflict Prevention Centre will circulate a survey of such suggestions.
- (147.1) One month prior to the meeting, the Conflict Prevention Centre will circulate a survey of exchanged annual information and ask participating States to confirm or to correct applicable data.
- (147.2) Any participating State may request assistance in implementing the provisions of this document from any other participating State.
- (147.3) Participating States which, for whatever reason, have not exchanged annual information according to this document will during the meeting explain the reasons why and provide an expected date for their full compliance with this commitment.
- * * *
- (148) The participating States will implement this set of mutually complementary confidence- and security-building measures in order to promote security co-operation and to reduce the risk of military conflict.
- (149) In order to strengthen compliance with agreed confidence- and security-building measures and in addition to other relevant provisions of this document, the participating States will, as necessary, consider in appropriate CSCE bodies how to ensure full implementation of those measures.
- (150) The measures adopted in this document are politically binding and will come into force on 1 January 1995, unless specified otherwise.

- (151) The Secretary General of the CSCE is requested to transmit the present document to the Secretary-General of the United Nations and to the Governments of the non-participating Mediterranean States, observer State, Japan and the Republic of Korea.
- (152) The text of this document will be published in each participating State, which will disseminate it and make it known as widely as possible.
- (153) The representatives of the participating States express their profound gratitude to the Government and people of Austria for the excellent arrangements they have made for the negotiations within the framework of the FSC and the warm hospitality they have extended to the delegations which participated in the negotiations.

Vienna, 28 November 1994

Under the terms of the Madrid mandate, the zone of application for CSBMs is defined as follows:

"On the basis of equality of rights, balance and reciprocity, equal respect for the security interests of all CSCE participating States, and of their respective obligations concerning confidence- and security-building measures and disarmament in Europe, these confidence- and security-building measures will cover the whole of Europe as well as the adjoining sea area* and air space. They will be of military significance and politically binding and will be provided with adequate forms of verification which correspond to their content.

As far as the adjoining sea area* and air space is concerned, the measures will be applicable to the military activities of all the participating States taking place there whenever these activities affect security in Europe as well as constitute a part of activities taking place within the whole of Europe as referred to above, which they will agree to notify. Necessary specifications will be made through the negotiations on the confidence- and security-building measures at the Conference.

Nothing in the definition of the zone given above will diminish obligations already undertaken under the Final Act. The confidence- and security-building measures to be agreed upon at the Conference will also be applicable in all areas covered by any of the provisions in the Final Act relating to confidence-building measures and certain aspects of security and disarmament.

* In this context, the notion of adjoining sea area is understood to refer also to ocean areas adjoining Europe."

Wherever the term "the zone of application for CSBMs" is used in this document, the above definition will apply. The following understanding will apply as well:

The commitments undertaken in letters to the Chairman-in-Office of the CSCE Council by Armenia, Azerbaijan, Belarus, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan, Ukraine and Uzbekistan on 29 January 1992 have the effect of extending the application of CSBMs in the Vienna Document 1992 to the territories of the above-mentioned States insofar as their territories were not covered already by the above.

The following provisions will apply in conformity with the events as set out in Chapters III and V:

(1) Invitations

Invitations will be extended in accordance with the provisions of Chapter IX to all participating States 42 days or more in advance of the event. The invitations will include the following information as applicable:

- (1.1) the type of event, e.g. visits to air bases, military facilities or military formations, a demonstration of new types of major weapon and equipment systems or an observation of certain military activities;
- (1.2) the location where the event will take place, including geographic co-ordinates in case of visits to air bases;
- (1.3) State arranging the event and, if different, the host State;
- (1.4) responsibilities delegated;
- (1.5) whether the event is combined with other events;
- (1.6) number of visitors or observers invited;
- (1.7) date, time and place of assembly;
- (1.8) planned duration of the event;
- (1.9) anticipated date, time and place of departure at the end of the programme;
- (1.10) arrangements for transportation;
- (1.11) arrangements for board and lodging, including a point of contact for communications with visitors or observers;
- (1.12) language(s) to be used during the programme;
- (1.13) equipment to be issued by the State arranging the event;
- (1.14) possible authorization by the host State and, if different, the State arranging the event, of the use of special equipment that the visitors or observers may bring with them;
- (1.15) arrangements for special clothing to be issued;
- (1.16) any other information including, if applicable, the designation/name of the air base, military facility or formation to be visited, the designation of the military activity to be observed and/or the type(s) of major weapon and equipment system(s) to be viewed.

(2) Replies

Replies, indicating whether or not the invitation is accepted, will be given in writing, in accordance with the provisions of Chapter IX, not later than 21 days before the event and will include the following information:

- (2.1) reference to invitation;
- (2.2) name and rank of visitors or observers;
- (2.3) date and place of birth;
- (2.4) passport information (number, date and place of issue, expiration date);
- (2.5) travel arrangements, including airline name and flight number, if applicable, and time and place of arrival.

If the invitation is not accepted in time, it will be assumed that no visitors or observers will be sent.

(3) Financial aspects

- (3.1) The invited State will cover the travel expenses of its representative(s) to the place of assembly and from the place of departure, possibly the same as the place of assembly, as specified in the invitation;
- (3.2) The State arranging the event will cover travel arrangements and expenses from the place of assembly and to the place of departure - possibly the same as the place of assembly - as well as appropriate civil or military board and lodging in a location suitable for carrying out the event.

(4) Other provisions

The participating State(s) will, in due co-operation with the visitors or observers, ensure that no action is taken which could be harmful to their safety.

Furthermore, the State arranging the event will:

- (4.1) give equal treatment and offer equal opportunities to all visitors or observers to carry out their functions;
- (4.2) restrict to the minimum necessary the time reserved for transfer and administrative activities during the event;
- (4.3) provide any urgent medical care which may be required.

Chairman's Statement

It is understood that the implementation aspects of CSBMs in the case of contiguous areas of participating States specified in the understanding of Annex I which share frontiers with non-European non-participating States may be discussed at future Annual Implementation Assessment Meetings.

This statement will be an annex to the Vienna Document 1994 and will be published with it.

Vienna, 28 November 1994

Chairman's Statement

It is understood that the participating States will take into consideration practical problems which may arise at an initial stage in implementing CSBMs on the territories of newly independent States admitted to the CSCE. Those States will promptly inform all the participating States about such practical problems.

This statement will not constitute a precedent and will be subject to review in the light of the discussion at the Annual Implementation Assessment Meeting.

This statement will be an annex to the Vienna Document 1994 and will be published with it.

Vienna, 28 November 1994

Chairman's Statement

In view of the task of the Conflict Prevention Centre to support the implementation of CSBMs assigned to it in the Charter of Paris the CPC should prepare, on a regular basis, a factual presentation of the information exchanged in accordance with this document between all participating States. At least initially, this should be done on the basis of existing resources.

This factual presentation should facilitate the analysis of this information by participating States and will not entail conclusions by the CPC.

This Chairman's Statement will be subject to review and may be amended, as appropriate, by the Special Committee of the FSC.

This statement will be an annex to the Vienna Document 1994 and will be published with it.

Vienna, 28 November 1994

126th Plenary Meeting

FSC Journal No. 130, Agenda item 2

DECISION No. 18/95

The Forum for Security Co-operation adopts the following decision regarding the Observation of Certain Military Activities (Chapter V of the Vienna Document 1994):

1. The Forum for Security Co-operation notes that paragraph 45 of the Vienna Document 1994 obliges participating States to extend invitations to other participating States to observe certain notifiable military activities and that, in accordance with paragraph 49 and Annex II, the host State is obliged to extend such invitations at the time of notification.
2. The FSC also notes that paragraph 39 concerns notifiable military activities carried out without advance notice to the troops involved and that, according to paragraph 39.1, notification of such activities, above the agreed thresholds, will be given at the time the troops involved commence such activities.
3. The FSC further notes that paragraph 56 provides that participating States need not invite observers to notifiable military activities which are carried out without advance notice to the troops involved unless these notifiable activities have a duration of more than 72 hours and that paragraph 56 also states that, in this circumstance, the observation programme will follow as closely as practically possible all the provisions for observation set out in the Document.
4. The FSC therefore determines that the time periods for invitation and reply defined in Annex II of the Vienna Document 1994 cannot be followed under the circumstances noted in paragraphs 39 and 56 and decides that in such cases the provisions of Annex II will apply as follows:
 - Invitations will be extended together with the notification given in accordance with paragraph 39.1; and
 - Replies will be given not later than three days after the invitation is issued.

This decision enters into force on 18 October 1995. It will be annexed to the Vienna Document 1994.

132nd Plenary Meeting

FSC Journal No. 136, Agenda item 3

DECISION No. 19/95

**ANNUAL EXCHANGE OF INFORMATION ON DEFENCE PLANNING
(PARAGRAPH 15 OF THE VIENNA DOCUMENT 1994)**

The Forum for Security Co-operation agrees on the following understanding related to the implementation of the Annual Exchange of Information on Defence Planning (Paragraph 15 of the Vienna Document 1994).

Paragraph (15) - General provisions

The participating States will notify as part of the information exchange the date on which the Military Budget for the forthcoming fiscal year was approved by the competent National Authorities and the identification of these authorities.

Paragraph (15.2) - Force planning

Negative information, that is, information that no changes are foreseen, should be stated where applicable.

Paragraph (15.3) - Information on previous expenditures

Information for the preceding fiscal year will refer to the most recent fiscal year for which figures are available, thus enabling participating States to deliver their annual information in one package.

Paragraph (15.4) - Information on budgets

The expression "available" in "where available" and in "as far as available" refers to relevant and releasable facts, figures and/or estimates under consideration in the national procedures for defence planning described in paragraph 15.1.2.

This decision enters into force on 29 November 1995. It will be annexed to the Vienna Document 1994.

146th Plenary Meeting

FSC Journal No. 151, Agenda item 3

DECISION No. 2/96

The Forum for Security Co-operation agrees that implementation of the Air Base Visit measure of the Vienna Document 1994 would be enhanced if all participating States were on the same five-year calendar. The FSC therefore decides that, with regard to paragraph 20 of the Air Base Visit measure of the Vienna Document 1994, a new common schedule of five-year periods for participating States to arrange air base visits will begin on 1 January 1997.

This decision is adopted on 24 April 1996. It will be annexed to the Vienna Document 1994.

147th Plenary Meeting

FSC Journal No. 152, Agenda item 2

DECISION No. 3/96

The Forum for Security Co-operation agrees that the OSCE Communications Network may be used to communicate with those participating States not connected to the Network through the intermediary services of the Conflict Prevention Centre.

The FSC agrees that increased use of the Network through the CPC's services would be an improvement to the implementation of Chapter IX on Communications of the Vienna Document 1994.

The FSC therefore decides that:

1. The CPC will forward messages received over the OSCE Communications Network to those participating States not connected to the Network. The CPC should conduct this task within existing resources.
2. Participating States connected to the Network will include the CPC as an information addressee on messages that should be forwarded to non-connected States.

This Decision enters into force on 8 May 1996. It will be annexed to the Vienna Document 1994.

152nd Plenary Meeting

FSC Journal No. 157, Agenda item 3

DECISION No. 4/96

The Forum for Security Co-operation (FSC) notes that paragraph 15 of the Vienna Document 1994 obliges participating States to provide information on defence budgets to all other participating States not later than two months after the military budget has been approved by the competent national authorities.

The FSC acknowledges that, in light of experience gathered in implementing this obligation, the deadline for defence planning submissions should be extended to three months.

The FSC therefore agrees on the following amendment of the respective paragraph 15:

(15) General Provisions

The participating States will ...

The information will be provided to all other participating States not later than three months after the military budget, referred to in paragraph (15.4.1), has been approved by the competent national authorities.

Participating States which, for whatever reasons, will not be able to meet the deadline required above will give notification of the delay, while explaining the reasons and provide an envisaged date for the actual submission.

This decision enters into force on 19 June 1996. It will be annexed to the Vienna Document 1994.

DECISION No. 6/96

The Forum for Security Co-operation agrees to add the following wording to paragraph 15 of the Vienna Document 1994 (Defence Planning):

Participating States which do not have armed forces and therefore have no information to provide in accordance with paragraph 15 of the Vienna Document 1994 will so inform all other participating States.

This NIL report will be provided together with the Annual Exchange of Military Information (paragraph 9) not later than 15 December of each year for the following year.

This decision enters into force on 9 October 1996. It will be annexed to the Vienna Document 1994.

165th Plenary Meeting

FSC Journal No. 170, Agenda item 3

DECISION No. 7/96

The Forum for Security Co-operation notes that an armoured combat vehicles (ACVs) parameter is included in the Vienna Document 1994 among the thresholds for notification of military activities.

The Forum for Security Co-operation recognizes that the inclusion of the ACVs parameter in the framework of the constraining provisions would be militarily significant and would better conform the parameters of both prior notification and constraining provisions.

The Forum for Security Co-operation further notes that, in the light of experience gathered in implementing the constraining provisions, a gradual increase in the periods between certain military activities would represent a major improvement in the field of confidence- and security-building.

The Forum for Security Co-operation therefore agrees on the following amendment to the relevant paragraphs:

- (65.1) No participating State will carry out within three calendar years more than one military activity subject to prior notification involving more than 40,000 troops, or 900 battle tanks or 2000 ACVs.
- (65.2) No participating State will carry out within one calendar year more than six military activities subject to prior notification each involving more than 13,000 troops, or 300 battle tanks or 500 ACVs but not more than 40,000 troops, or 900 battle tanks or 2000 ACVs.

This decision enters into force on 20 November 1996. It will be annexed to the Vienna Document 1994.
