PERMANENT MISSION OF THE REPUBLIC OF CYPRUS TO THE OSCE
VIENNA

REF:24.32.014
No OSCE 21/19

NOTE VERBALE

The Permanent Mission of the Republic of Cyprus to the OSCE, presents its compliments to the Permanent Missions and Delegations of all participating States to the OSCE and to the Conflict Prevention Center and has the honour, in reference to the decision No. 10/02 of the Forum for Security Co-operation, to provide herewith the reply of the Republic of Cyprus to the Questionnaire on Anti-Personnel Mines and the Explosive Remnants of Wars.

The Permanent Mission of the Republic of Cyprus to the OSCE avails itself of this opportunity to renew to all Permanent Missions and Delegations to the OSCE and to the Conflict Prevention Center, the assurances of its highest consideration.

To: -Permanent Missions and Delegations of all participating States to the OSCE
-Conflict Prevention Centre

OSCE Questionnaire on Anti-Personnel Mines 2018

To be submitted no later than 31 May of each year
(Starting in May 2005)

Part I

1. **Is your country a State Party to the 1996 Amended Protocol II on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and other Devices annexed to the 1980 Convention on Conventional Weapons (CCW)?**

YES

2. **Please attach the most recent annual report submitted by your country in accordance with Article 13 of the Amended Protocol or give the appropriate electronic address for the report.**

As Attachment I

3. **Is your country considering ratification/ accession to the Amended Protocol II?**

Not Applicable

4. **What measures have been taken to prevent the indiscriminate use of mines, booby-traps and other devices?**

The Republic of Cyprus has taken the following measures:

- a. Clearance of minefields located near inhabited areas in order to secure the safety of civilians.
- b. A specialized mine clearance team was set up in 1987 and has been operating since, being responsible for demining and minefield maintenance. This team is also on call to help civilians when such a need arises.
- c. A number of mines of various types, which had been deemed dangerous, have been destroyed.
- d. Plastic mines have been fitted with metal bases in order to be traced more easily by common metal mine detectors.
- e. The exact boundaries of all minefields which are under the control of the Republic of Cyprus have been marked, and relevant topographical plans have been drawn up. Also, all minefields which are under the control of the Republic have been fenced.

- f. In 2016, the Republic of Cyprus proceeded with the destruction of 60 anti-personnel mines retained under Article 3, thus reducing its current stockpile to 440 mines.
- g. In 2018, the Republic of Cyprus proceeded with the destruction of 5 anti-personnel mines retained under Article 3, thus reducing its current stockpile to 435 mines.

5. Would your country be interested in receiving assistance related to the implementation of this Protocol? If so, please describe.

Yes, our country is interested in receiving assistance related to the implementation of this Protocol, although there is an active minesweeping unit in the National Guard, with the mission of carrying out minesweeping, minefield re-laying and maintenance of existing National Guard minefields. Any cooperation with other parties (members) for the exchange of information and know-how is welcomed.

6. Does your country have the capacity to assist others related to this Protocol? If so, please describe.

Cyprus does not have the capacity to assist others related to this protocol.

Part II

7. Has your country ratified or acceded to the 1997 Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction?

Yes, the Republic of Cyprus deposited its instrument of ratification of the above Convention on the 1st of July 2003.

8. (a) If yes, please attach the most recent annual report submitted by your country in accordance with Article 7 of the Convention or give the appropriate electronic address for the report.

As Attachment II.

(b) If no, is your country considering ratification/accession to the Convention?

Not Applicable

(c) Has your country adopted legislation to address the humanitarian objectives of the convention, or taken any specific measures regarding the use, production, storage, transfer and destruction of anti-personnel

landmines? In case a moratorium has been introduced, what is its scope and duration and when was it introduced?

The Republic of Cyprus does not produce or transfer antipersonnel mines. The Republic has adopted legislatively, both the Ottawa Convention and the CCW II Revised Protocol. Regarding the storage, transfer and destruction of antipersonnel mines, specific and strict directives of the National Guard apply.

9. Does your country have any specific measures in place to provide assistance to victims?

Fortunately, there have not been any victims in recent years. The Republic of Cyprus has the capacity to provide immediate and comprehensive medical assistance when needed and maintains an active policy concerning the rehabilitation and welfare of handicapped individuals.

10. Does your country require assistance in mine clearance, stockpile destruction, mine awareness and/or victim assistance? If so, please describe.

Due to the ongoing occupation of territories of the Republic of Cyprus by Turkish troops and the consequent existence of a Buffer Zone, between the Turkish Occupation Troops and the Armed Forces of the Republic of Cyprus, the Republic, in a gesture of good will, concluded a unilateral agreement, in cooperation with the United Nations Force in Cyprus (UNFICYP), and has thus proceeded with the clearance of all minefields laid by the National Guard located in the Buffer Zone.

The demining program within the Buffer Zone was completed on the 20th of January 2011, despite the fact that the Turkish occupational forces have still not given authorization, for the clearance of one Turkish minefield in the vicinity of the village Deryneia.

11. Does your country have the capacity to assist others in mine action? If so, please describe.

As paragraph 6 above.

Mine clearance programmes

The Republic of Cyprus cleared all minefields in the area under its effective control, including within the buffer zone, by the 1st July 2013, deadline set by the Anti-personnel Mine Ban Convention (APMBC).

The only area in Cyprus where mined areas containing anti-personnel mines are known to exist is the part of its territory which remains under Turkish military occupation and which is not accessible to the authorities of the Republic of Cyprus. At least 20 minefields laid and maintained in the occupied areas by the Turkish forces are yet to be cleared of anti-personnel mines and one of them is situated within the buffer zone, in the vicinity of the village Deryneia.

The Republic of Cyprus, having taken concrete steps to ensure the destruction of anti-personnel mines in the areas occupied by Turkey, submitted to the United Nations Peacekeeping Force in Cyprus (UNFICYP) information on 28 known minefields, which were laid prior to the 1974 Turkish invasion. According to information released by UNFICYP, those 28 minefields were subjected to a non technical survey by United Nations Mines Action Service (UNMAS) and according to its assessment only 3 of them require further technical survey.

While the Republic of Cyprus maintains jurisdiction over the whole of the island, it does not have effective control over those areas under Turkish military occupation, and is thus unable to fulfil its obligations stemming from the Anti-personnel Mine Ban Convention (APMBC) due to the fact that Turkey, forcefully denies the agents of the Republic access to the occupied areas. As a result, Cyprus requested and was granted an extension of the deadline for completing the destruction of anti-personnel mines until July 1st, 2019.

Rehabilitation programmes

The Republic of Cyprus has already adopted the relevant legislation and laws, regarding the provisions required for the allocation of indemnities to mine victims.
