Working Session 6

With regards to the remarks by the US delegation:

Responsibility in democracy is very important, each opposition activists like each citizen of Azerbaijan should take into consideration transparency and responsibility for himself. Everybody is equal before the law. Azerbaijani state is not interested to apply travel ban on its citizen, but there is decision of court we have to respect as we do concerning some OSCE participation states. And I ask to follow the rules, to make statement on current topic as comments on opposition activists are not a subject of the session.
