1.2 What national legislation has been adopted in your State to implement the above-mentioned agreements and arrangements?

Azerbaijan adopted a package of legislative measures aimed at bringing the relevant national legislation in line with international legal instruments in the field of preventing and suppressing acts of terrorism as well as the use of the financial-banking systems for financing such acts.

- On 18 June 1999, the Parliament adopted the Law on Combating Terrorism which serves as the legal and institutional groundwork for combating terrorism, coordinates the activities of the competent government agencies and sets out the rights and duties of such agencies and citizens;
- On 13 June 2017, the Parliament adopted amendments to the Law on Combating Terrorism with the aim of adapting definitions of "terrorist" and "terrorist organization" to international standards.

This law contains the definition of terrorism as "committing explosions, arson or other actions causing danger of mass extermination of people, damage to their health, or destruction (damaging) of their property or other serious consequences with the purpose of violating public security, frightening the population or influencing decision-making by state bodies or international organizations, as well as threat of committing the mentioned actions for the same purposes". The law also sets the definitions of "terrorist", "terrorist group", "terrorist organization", "fight against terrorism", "terrorist activity", "international terrorist activity" and "operations against terrorism".

The mentioned law determines such basic principles of combating terrorism as ensuring rule of law, inevitability of punishment, coordination of open and undercover methods of combating terrorism, complex application of legal, political, social and economic, organizational, and preventive measures, priority of protecting persons exposed to danger as a result of terrorist activity, independent management of forces involved in antiterrorist operations, avoiding publicity in announcing the names of personnel engaged in antiterrorist operations, including in logistics and tactical services.

It is also stipulated that the state bodies and local self-government, as well as organizations, public associations, officials and individuals must render assistance to the structures engaged in combating terrorism. This assistance includes transfer of information and data which can facilitate the detection or prevention of acts of terrorism, as well as minimizing the potential damage.

The Chapter 3 of the Law on Combating Terrorism sets the rules for providing compensation for the damage caused by acts of terrorism, as well as provision of legal and social protection of persons engaged in combating terrorism.

- On 1 September 2000 the Parliament adopted the new Criminal Code criminalizing terrorism (art.214) and attempts on life and acts against State or a public figure (art.277) and other types of crime linked to terrorism - hostage- taking (art. 215), hijacking an aircraft, sea vessel and railway train (art. 219), illegal manufacturing of weapons (art.229), misappropriation or extortion of weapons, ammunition, explosive substances or explosive devices (art. 232), establishment of military formations of groups that are not provided for in the legislation (art.279) etc.

Criminal responsibility for terrorism is determined in the Article 214 of the Criminal Code of the Republic of Azerbaijan. On the implementation of Council of Europe Convention on the Prevention of Terrorism to the criminal legislation of the Republic of Azerbaijan the new articles which provide criminal liability for "public provocation to commit a terrorist offence" and "training for terrorism" were added to the Criminal Code of the Republic of Azerbaijan by the Law of the Republic of Azerbaijan № 919-IVQD on 04 March 2014.

According to the article 214-2 of the Criminal Code of the Republic of Azerbaijan the crime of public provocation to commit a terrorist offence means to conduct public provocation for the acts of attack against internationally protected persons or organizations, training for terrorism, taking hostages, hijacking, seizing a ship or railway train, piracy, illegal handling with radioactive materials, plunder or extortion of radioactive materials, attempt on life of the state or public authority, creation of armed formations or groups which are not provided by the legislation, diversion and also to distribute materials with these content. The crime of public provocation to commit a terrorist offence is punished by imprisonment up to 5 years.

Article 214-3 of the Criminal Code of The Republic of Azerbaijan provides criminal liability for the persons who organize or conduct these trainings as well as the persons obtained such trainings. Training for terrorism covers the preparation on the use of firearms, explosives or other weapons, toxic substances or other hazardous methods or techniques for the purpose of commission of above mentioned acts. According to the notice part of this article the person who committed the act of training for terrorism is released from criminal liability in case if that person informs state authorities in time or by other ways helps to prevent the crime and to expose participants, organizers and backers of such trainings if the person has not been accused of other crime.

According to the classification determined by the article 15 of the Criminal Code of The Republic of Azerbaijan the acts mentioned in the articles 214-2 and 214-3 of the Code are included to serious and especially serious crimes category for their character and degree of public danger.

Under the Criminal Code, any mentally sound individual, who reached the age of 14 years at the moment of committing the crime, is qualified as perpetrator of that crime. It is noteworthy that the legislation of Azerbaijan not only sets the criminal liability for terrorist activities but also provides for universal jurisdiction with respect to terrorism. The Criminal Code stipulates that a foreign citizen or a person without citizenship committing crimes against peace and humanity, acts of terrorism, hijacking, taking hostages, assault on persons and/or organizations, as well as other crimes punishable under international agreements to which the Republic of Azerbaijan is a party, shall be

subject to criminal liability irrespective of the place of committing the crime. However, the Criminal Code also stipulates that a person who took part in organizing an act of terror shall be released from criminal responsibility if he, either by having timely informed the authorities or in any other way, has facilitated the prevention of that act and if there wasn't another *corpus delicti* in the actions of that person.

The following important national legislative acts were adopted in the Republic of Azerbaijan:

- Law of the Azerbaijan Republic on Ratification of International Convention against Nuclear Terrorism № 725-IIIQ of 2 December 2008;

Azerbaijan indicated its strong willingness to counter the Islamic State of Iraq and the Levant (ISIL) by sharing information, working to disrupt the Flow of foreign terrorist fighters to Iraq and Syria, and countering illicit funding of terrorist groups there. Senior leaders, including the heads of the Caucasus Muslim Board and the State Committee for Work with Religious Associations, took steps to counter ISIL and Al-Qaeda ideology publicly.

The Azerbaijani government has effectively demonstrated the ability to detect and deter terrorist activities, as well as prosecute foreign terrorist fighters returning to Azerbaijan. Authorities effectively use terrorist and criminal watch lists and biographic/biometric information to screen travelers at ports of entry. Information sharing within the host government and with other countries was strong. Collection of Advance Passenger Information and Passenger Name Records on commercial flights occurred on some flights.

On December 4, 2015 the Parliament adopted a Law on Fighting Religious Extremism. The 15-provision law clarifies the legal bases for identifying and prosecuting cases of religious extremism and fanaticism that lead to terrorism, and links criminal, administrative, and civil responsibilities for violations. At the same time, a new amendment to the Criminal Code was introduced, which triggered harsher punishments for violating procedures for Islamic religious ceremonies, particularly by citizens who received religious education abroad, with up to one year imprisonment or fines from US \$600 up to US \$3,000. In cases of "religious propaganda" by foreigners and stateless persons, the punishment was newly set at one to two years in prison.

On December 5, 2015 the president signed into law new amendments to the Law on Religious Freedom. The new amendments expanded restrictions on the use of religious symbols and slogans, which may only be used inside places of worship.

A new amendment introduced on December 5, 2015, to the Law on Citizenship, first adopted in 1998, specifies new grounds of losing citizenships, including: participating in terrorist actions, participating in religious extremist actions or military trainings abroad under the guise of receiving religious education, proselytizing religious doctrines on grounds of animosity, and participating in religious conflicts in a foreign country under the guise of religious rituals.

1.3. What are the roles and missions of military, paramilitary and security forces and the police in preventing and combating terrorism in your State?

According to the Law of the Republic of Azerbaijan on Combating Terrorism, fight against terrorism is supervised directly by the President and carried out by the Ministry of Internal Affairs, the Ministry of Defense, the State Security Service, the State Border Service and the Special State Protection Service within their responsibilities.

According to the Article 7 of abovementioned Law, with a view to ensure the direct and unified command over counter-terrorism operations, when necessary and depending on the nature of operations an operational headquarter is being set up and, a chief of staff is appointed by decision of the President of the Republic of Azerbaijan on a temporary basis (for the duration of anti-terrorism operation). Working procedures of the operational headquarter are set forth in the Regulation 626 approved by the President on 17.09.2007.

Chief of staff identifies area of operation, types and distinctive elements of operation and required forces and assets. In accordance with the current law local executive powers and municipalities, public or private organizations have to support counter-terrorism operations. Instructions of the chief of staff must be implemented by each official and citizen in the operational zone.

The preliminary investigation of criminal cases of acts of terrorism is conducted by the national security and internal affairs bodies while the Prosecutor's Office supervises the general course of investigation.

According to the legislation of the Republic of Azerbaijan and Regulation of the State Border Service (SBS), alongside with other responsibilities, takes necessary actions to prevent smuggling of explosive materials and devices, military equipment, firearms and ammunition, materials and equipment that could be used in production of nuclear, chemical, bacterial and other weapons of mass destruction, as well as illegal crossing of the state borders of Azerbaijan Republic by individuals and vehicles and movement of terrorists, terror groups, and illegal migrants.

1.4. Provide information on national efforts to prevent and combat terrorism not mentioned above, e.g., those pertaining *inter alia* to:

Financing terrorism:

Following the adoption on 17 May 2002 of the Act on the introduction of changes and additions to certain legislative acts of the Republic of Azerbaijan in connection with the application of the Act on the accession of the Republic of Azerbaijan to the International Convention for the Suppression of the Financing of Terrorism, changes were made in the Counter-Terrorism Act and in the Criminal Code.

In order to implement article 2, paragraph 4, of the Convention, the necessary changes were introduced in articles 27.2 and 27.3 of the Criminal Code of Azerbaijan so that an attempt to commit a crime, being considered equivalent to incomplete offence, is punishable under the procedure providing for liability for the commission of crimes under the relevant articles of the Criminal Code. In order to implement article 2, paragraph 5, of the Convention, changes were introduced in articles 32 and 33 of the Criminal Code so that organizers, instigators and accessories subject to criminal liability under the relevant article of the Criminal Code are considered as accomplices in an offence, together with the perpetrators.

Provisions were added to articles 214 and 214-1-c of the Criminal Code on liability for the financing of terrorism. Such acts are classified as serious and particularly serious offences and are punished by deprivation of liberty for 8 to 15 years or by life imprisonment. In accordance with articles 3 to 6 of the Presidential Decree of 25 August 2000 on the enforcement of the Act on the confirmation and entry into force of the Code of Criminal Procedure, investigations under articles 214 (Terrorism), 214-1 (Financing of terrorism) and 216 (Provision of false information concerning a terrorist act) of the Criminal Code are conducted by the State Security Service and the Ministry of Internal Affairs of Azerbaijan. Supervision of compliance with the law in this area is provided within the framework of the relevant powers by the Prosecutor and the judicial organs.

According to the article 214-1 of the Criminal Code of Azerbaijan, deliberate full or partial, direct or indirect transfer of money resources or other property for commitment of terrorism or accumulation of money resources or other means/ property with the same purposes is punished by imprisonment for a term from 8 up to 12 years with confiscation of property.

A new Chapter 15-1 on Special Confiscation was added to the Section VI of the Criminal Code of the Republic of Azerbaijan by the law "On changes to the Criminal Code of the Republic of Azerbaijan" (No 314-IVQD, 07 March, 2012). According to the Article 99- 1.1.4 of the Criminal Code of the Republic of Azerbaijan, the property used and intended to be used for financing of terrorism, illegal armed units or groups, organized groups or criminal units (criminal organizations) is compulsorily and gratuitously confiscated and passed to the property of the state.

Provisions were added to the article 348 of the Code of the Administrative Offences of the Republic of Azerbaijan on liability of submitting proper information on legalization of funds or other property by the DNFBP. Violation of the provisions of this article is punishable with a fine of 800 to 1500 AZN for the individual and 8000 to 15000 AZN for the legal entities.

The Government of Azerbaijan has achieved substantial progress in aligning the AML/CFT framework with FATF Recommendations and in establishing a solid system to combat money laundering and financing terrorism in Azerbaijan. In order to align national legislative framework with international AML/CFT standards and requirements, significant number of legislative acts, specifically the Law of the Republic of Azerbaijan No.767-IIIQ "On the Prevention of the Legalization of Criminally Obtained Funds or Other Property and the Financing of Terrorism" of 10

February 2009 was adopted and according to this Law 4 codes, 15 laws and 6 presidential decrees, in total covering more than 100 articles were amended in July 2009. At the same time, in order to bring the definition of terrorist financing in line with the UN Convention for the Suppression of the Financing of Terrorism and FATF Special Recommendations (SR) II the Criminal Code, Law "On Suppression of Terrorism" and AML/CFT Law were appropriately amended by the Law "On amendments to individual legislative acts of the Republic of Azerbaijan to enhance the prevention of the legalization of criminally obtained funds or other property and the financing of terrorism" which has been adopted on March 5, 2010 and promulgated by the President of the Republic of Azerbaijan on March 17, 2010.

At the end of 2009, Azerbaijan demonstrated an increasing level of seriousness and urgency in taking steps to combat terrorist financing, and in proceeding with efforts to implement its law on anti-money laundering and counterterrorist financing (AML/CTF) established a Financial Investigative Unit (FIU) within the Central Bank. This Unit prepared an action plan in October 2009 to bring Azerbaijan's AML/FIU into conformity with the standards of the United Nations, the Financial Action Task Force (FATF), and other international organizations and conventions, and submitted the plan to MONEYVAL, the FATF-Style Regional Body (FSRB) hosted by the Council of Europe. That institution, in turn, reviewed Azerbaijan's proposals in December and agreed to withdraw its advisory (on non-compliance) on Azerbaijan. Azerbaijan continued to identify possible terrorism-related funding by distributing lists of suspected terrorist groups and individuals to local banks.

"The list of countries (territories) that are suspected in either legalization of criminally obtained funds or other property, financing of terrorism, support of the dangerous trends of transnational organized crime, armed separatism, extremism and mercenary, participation in illegal trafficking of drug and other psychotropic substances, or the countries (territories) that don't require disclosing identification information when conducting financial transactions" was approved by the Order of the Director of the Financial Monitoring Service under the Central Bank of the Republic of Azerbaijan № F- 006 on 14 February 2014.

There are other national legislative acts concerning the financing of terrorism:

- On 1 October 2001 the Parliament adopted the Law on Accession to the International Convention for the Suppression of the Financing of Terrorism and on the 11 October 2001 the President signed a Decree on Adoption of the Act on Accession to the International Convention for the Suppression of the Financing of Terrorism;

Border controls, Travel document security:

Necessary measures are taken to strengthen protection of land and maritime borders and to improve technical equipment of all checkpoints at state borders in order to prevent smuggling of WMD, its components and radioactive materials across state borders.

Additionally, border control at checkpoints is strengthened and investigations are conducted in order to prevent members of terrorist groups and organizations, as well as individuals suspected of affiliation with them from passing through the territory of Azerbaijan.

In 2017, five Azerbaijani citizens, who fought in conflict zones abroad as mercenaries, were detained and necessary actions were taken against them. Interagency Automated Information Search System installed at state border checkpoints helps to identify individuals from the above-mentioned category.

As a result of activities undertaken to prevent illegal migration from the territory of Azerbaijan to Europe, 384 individuals were identified with fake documents in 2017.

In 2017, five groups conducting illegal migration and eight organized criminal groups smuggling drugs were rendered harmless.

Azerbaijan State Border Service (SBS) closely cooperates with relevant agencies of the United States (in the framework of Export Control and Related Border Security program and Second Line of Defense program), United Kingdom, France, Switzerland, Lithuania, Latvia, Belarus, Netherlands, Hungary, Poland, Saudi Arabia, Pakistan, Afghanistan, Egypt, United Arab Emirates on combating international terrorism, organized crime and trans-border criminal groups, as well as

on preventing smuggling of arms, ammunition, explosive and radioactive materials. State Border Service regularly participates at counter-terrorism events organized by international organizations, such as the UN, the UNDP, the IOM, the European Union, the NATO, the OSCE, the GUAM and the FRONTEX.

SBS also pays special attention to regional cooperation. Hence, for achieving greater efficiency in border security, meetings at different levels and information exchange take place with representatives of border agencies of all neighboring countries (except for Armenia).

There is a computerized passport system in Azerbaijan providing a strict control over the issuance and registration of passports. The measures to protect passports from counterfeiting meet international technological and security standards. All information on national passports and also on persons entering the country and their identification papers and passports is gathered in a single database. The Ministry of Internal Affairs, the State Security Service, the Ministry of Foreign Affairs, State Migration Committee and the State Border Service cooperate closely in this area.

In accordance with the Decree 186 of the President of the Republic of Azerbaijan of January 28, 2005 "On determining the powers of the subjects of intelligence and counterintelligence activity, the power and rights of division, intelligence and counterintelligence" State Security Service within the scope of its authority, is responsible for operational security of the state border.

Container and Supply chain security:

The Republic of Azerbaijan is a member of the World Customs Organization (WCO) and implements the relevant standards adopted by WCO.

As a member of the Customs Enforcement Network established by WCO, Azerbaijan exchanges information on offences through the Regional Intelligence Liaison Office (RILO). Electronic registration, monitoring and accounting systems are now widely used. The exchange of information between customs posts takes place through an electronic reporting network. The customs and border services of Azerbaijan have a unified online information communication system. Customs posts provide daily information electronically to the State Customs Committee on import and export operations. Goods are checked at the borders by various agencies, depending on the type of merchandise. Monitoring of weapons, ammunition and explosives is carried out by the customs agencies, together with the border service. There is a computerized information retrieval system along the entire border of Azerbaijan to monitor immigration.

The Aviation Safety Administration works with the State-owned Azerbaijan Airlines (AZAL) to deal with all issues relating to civil aviation safety. In its work, the Administration is guided by the standards and recommendations of the International Civil Aviation Organization (ICAO) and also the national Guidelines on the prevention of acts of unlawful interference in civil aviation activities. Several other instruments have also been drafted to ensure civil aviation security, particularly the Instructions on verification of civil aviation, passengers, flight crew, service personnel, carry-on luggage, cargo, mail and on-board equipment.

After the terrorist acts of 11 September 2001 in the United States, Azerbaijan introduced several measures on the recommendation of ICAO to strengthen civil aviation security. For example, a special electronic alarm system has been installed along the entire perimeter of the Haydar Aliyev International Airport, as well as other surveillance equipment at the airport entrance.

A State program on the prevention of acts of unlawful interference in civil aviation activities was adopted by the Cabinet of Ministers on 19 April 2004. According to article 10 of the Customs Code, one of the duties of the customs agencies is to assist national agencies in combating international

terrorism and preventing unlawful interference in civil aviation at airports of the Republic of Azerbaijan.

Security of radioactive sources:

Sharing the common concern within international community over growing threat being posed by malicious acts involving nuclear materials, Azerbaijan attaches great importance to nuclear security since the first days of its independence. Achieving goals and objectives of non-proliferation and nuclear security is an unalterable and permanent priority of foreign and security policy of the Republic of Azerbaijan.

As a sign of its determination, Azerbaijan became a party to key international treaties governing nuclear security, including International Convention for the Suppression of Acts of Nuclear Terrorism, Convention on Physical Protection of Nuclear Material (CPPNM) and Amendment to the CPPNM.

Azerbaijan's endorsement of the IAEA Code of Conduct on the Safety and Security of Radioactive Sources and the Guidance on the Import and Export of Radioactive Sources in August 2014 will help national authorities to further strengthen radiation safety and security regime.

As a further step of the contribution to international efforts on the nuclear security, on March 2012 Azerbaijan joined the Global Initiative to Combat Nuclear Terrorism (GICNT) in capacity of a partner country.

Azerbaijan participates in international information sharing on illicit trafficking issues through contribution to the IAEA Incident and Trafficking Database, where the State Security Service is the coordinating agency.

Azerbaijan also supports the efforts of the United Nations for strengthening nuclear security. Azerbaijan submits updated reports to the United Nations on further measures taken by Azerbaijan on the implementation of Security Council Resolution 1540 adopted in 2004 to prevent the proliferation of nuclear, chemical and biological weapons, as well as their means of delivery. The report includes further national measures on improving legislation, national practices and their implementation and strengthening international cooperation.

In spite of the fact that there are no nuclear installations or facilities in the country, except for few applications of ionizing radiation sources for civilian purposes, Azerbaijan has put in place a robust safety and security system.

On April 2008 the President of the Republic of Azerbaijan signed a decree on establishment of the State Agency on the Regulation of Nuclear and Radiological Activities (thereafter the "Agency" in this subsection), as a single regulatory body under the Ministry of Emergency Situations.

The Agency established a complete centralized inventory of radioactive sources. This inventory is kept updated and regularly verified by the International Atomic Energy Agency (IAEA) through inspections. The Ministry of Emergency Situations is entitled to issue special permissions for scientific-research and practical-construction activities related to utilization of ionizing radiation sources; for production, manufacture, processing, transportation and exploitation of radioactive materials; for installations, points and storages of ionizing radiation sources and designing and preparation of radiation safety means; for activities related to installations of ionizing radiation sources, designing, preparation, disposal, construction, putting into operation and withdrawal of radioactive wastes.

The state agency of the Republic of Azerbaijan responsible for radioactive waste management and radioactive materials transport is the Baku Radioactive Waste Facility "ISOTOP" of the Ministry of Emergency Situations. This agency monitors the use, storage and protection of radioactive

materials and equipment. "ISOTOP" is currently equipped with state-of-art devices and technologies which enable it to exercise the functions in line with international practice.

Acknowledging potential threat derived from both orphan sources and the possibility of malicious acts involving radioactive sources, state agencies of the Republic of Azerbaijan take all necessary measures to ensure proper control of radioactive sources during their life cycle through the registration, licensing, inspection, and export control.

The malicious acts involving radioactive sources bring criminal, civil or administrative liability in accordance with the national legislation of the Republic of Azerbaijan.

Articles 206.2-206.4 of the Criminal Code of Azerbaijan envisage criminal penalties from 3 to 12 years imprisonment for violating customs regulations and for the smuggling of radioactive and explosive substances and equipment, weapons, military hardware, nuclear, chemical, biological and other types of weapons of mass destruction, as well as materials and equipment used in the manufacture of such weapons.

Article 226 of the Criminal Code envisages penalties for illegal handling of radioactive materials, their acquisition, storage, use, sale and transfer. Article 227 covers the theft or extortion of radioactive materials.

Administrative Offences Code of the Republic of Azerbaijan envisages administrative responsibility for "violating of ecological requirements during engagement in radioactive materials" (article 77), "non fulfillment or violating requirements of ensuring sanitary and hygiene rules of radiation security" (article 107), "infringe legislation on ecological security" (article 113.0.10) activities.

According to the article 4.6 of the law of the Republic of Azerbaijan on Border Forces and paragraph 9.7 of the Charter on State Border Service of the Republic of Azerbaijan within its competences the State Border Service of the Republic of Azerbaijan ensures the prevention of the transferring of WMD and their components and radioactive substances through state border.

The Customs Code of the Republic of Azerbaijan also set out a number of enforceable measures for the prevention of illegal circulation of nuclear, chemical and biological weapons and related materials. With the purposes to enhance radiation security State Customs Committee adopted the Rules on Implementing Customs Inspection on Radioactive Materials in line with the international instruments, as well as international radiation security norms and rules on safe transfer of radioactive materials.

Use of Internet and other information networks for terrorist purposes:

The society of Azerbaijan is increasingly relying on information and communication technologies and thus becoming increasingly vulnerable to threats such as attacks against the confidentiality, integrity and availability of computer data, hate speech, use of internet for terrorist incitement, recruitment, financing and etc.

Current criminal legislation requires some changes, as well as some procedural provisions. Efficient measures for law enforcement need to be created and the question of cooperation with internet service providers needs to be regulated. Currently there is very limited knowledge of high tech crime in the national institutions, as is the case with the judiciary. The use of electronic evidence is a new development which requires relevant trainings and assistance.

Azerbaijan came forward with an initiative of accession to the Council of Europe Convention on Cyber crime in 2005, and on 30 September 2009 the President approved the country's accession

to the Convention. Azerbaijan ratified the Convention on Cyber crime on 1 July 2010 (with reservations to the articles 6, 24, 27, 29, 35, 38 and 42) and on its basis undertook improvement of legislation in this area and close cooperation with Internet Providers.

In order to enhance the protection of national cyber space the Ministry of Transportation, Communications and High Technologies has set up Information Security Department (ISD), which is analog of worldwide applied computer emergency response (CERT).

The roles of ISD are:

- Creation of the Operational Staff responding to computer threats;
- Protection of the national information systems and national cyber space;
- Provision of relevant information to the governmental bodies and private sectors;
- Coordination of work between public and private sectors (internet providers, telecommunication societies);
- On time reveal of the threats to national cyber space;
- Provision of technical, methodical and informational assistance;
- International cooperation.

In accordance with the article 3 of the Presidential Decree of August 25, 2000 on the enforcement of the Act on the confirmation and entry into force of the Code of Criminal Procedure, investigations over issues related to cyber-crime lies with the State Security Service and Ministry of Internal Affairs.

Cyber threats and attacks due to its frequency, as well as sophisticated and damaging nature make it crucial to ensure an advanced and comprehensive cyber defense and cyber security. NATO through its Science for Peace and Security Programme is planning to hold an advanced cyber defense training course for Azerbaijan on 3-14 September this year in Baku. The primary objective of this course is to provide employees of Azerbaijan which hold key roles in cyber security with an advanced training about operational cyber security and cyber security technology contents for ensuring cyber resilience in Azerbaijan. This course will provide a means for the global exchange of advanced cyber security concepts, best practices and experiences at the international level.

Legal cooperation including extradition:

The law enforcement agencies of Azerbaijan are actively cooperating with their foreign counterparts on all aspects of countering terrorism.

Requests from foreign States are considered expeditiously and in accordance with international treaties to which the Republic of Azerbaijan is a party. The Act on investigative activities of 28 October 1999 stipulates that in order to protect life, health, human rights and freedoms, the legitimate interests of legal entities, State and military secrets and also national security from criminal infringement, investigative agencies must respond to requests from law enforcement agencies of foreign States and relevant international organizations. Decisions, written instructions or official requests to conduct investigations may be issued only by persons who have such authority on the basis of the laws of the Republic of Azerbaijan.

In accordance with the Act on legal assistance in criminal matters of 29 June 2001, the Ministry of Justice or other competent authority of the Republic of Azerbaijan must submit official materials, documents and information not banned from transfer under Azerbaijani law to the competent authority of the foreign State.

Persons under arrest or sentenced to a term of imprisonment in the Republic of Azerbaijan may, with their consent, be handed over to a foreign State if permitted under Azerbaijani law for the purpose of establishing identity, giving evidence or providing other legal assistance in criminal cases which are either under investigation or being tried.

Pursuant to the Law on Extradition of the Republic of Azerbaijan, extradition shall be granted in respect of offences punishable under the laws of the requesting country and of its own by deprivation of liberty or under a detention order for a maximum period of at least one year or by a more severe penalty (Article 2.1).

According to the Law on Extradition of the Republic of Azerbaijan, adopted on 15 May 2001, extradition shall not be granted when the person claimed has, according to the law of either the requesting state or the Republic of Azerbaijan, become immune by reason of lapse of time from prosecution or punishment (Article 3.1.6). Also according to this Law, extradition shall not be granted if the offence in respect of which it is requested is regarded by the Republic of Azerbaijan as a political offence or as an offence connected with a political offence (Article 3.1.3). Also according to this Law, extradition shall not be granted if the offence in respect of which it is requested is an offence under military law which is not an offence under ordinary criminal law (Article 3.1.7).

Azerbaijan has signed bilateral agreements on extradition with Bulgaria, Iran, Kazakhstan, Moldova, Kyrgyzstan, Lithuania, Russia, Uzbekistan, Ukraine, UAE, China, Kingdom of Jordan and India.

Safe Havens and shelter to terrorists and terrorist organizations:

The Nagorno-Karabakh region of the Republic of Azerbaijan and seven districts surrounding this region are currently occupied by the military forces of the Republic of Armenia. As a result, the occupied regions are out of control of the legitimately established constitutional authorities of Azerbaijan.

Given these, occupied regions of Azerbaijan are grey zone and thus, there are favorable conditions for terrorist organizations to use these territories for illegal actions, such as arms smuggling, drugs trafficking and money laundering.

2. Stationing of armed forces on foreign territory.

2.1. Provide information on stationing of your States armed forces on the territory of other participating States in accordance with freely negotiated agreements as well as in accordance with international law.

The "Law on Participation of the Republic of Azerbaijan in Peacekeeping Operations" (adopted in 2010) determines the basis, forms and rules of participation of the Republic of Azerbaijan in peacekeeping operations concerning the prevention, regulation and resolution of local and regional conflicts. The provisions of this Law, in accordance with the Article 51 of the Charter of the United Nations (UN), do not confine the inherent right of the Republic of Azerbaijan for individual or collective self-defense to repel an armed aggression, as well as military cooperation right with other states and international organizations to ensure international and regional security. The Republic of Azerbaijan defines independently expedience, scope and level of participation in peacekeeping operations. According to the Law Azerbaijan may appeal to other countries and international organizations to conduct peacekeeping operations in its own territory.

In accordance with Article 1 of the aforesaid law, the legislation on participation of the Republic of Azerbaijan in peacekeeping operations also comprises the Constitution of the Republic of Azerbaijan and other legal acts and international treaties to which Azerbaijan is a party.

The Republic of Azerbaijan, while conducting peacekeeping operations or participating in a collective peacekeeping operations, is guided with the UN Charter, decisions of the UN Security Council or other international and regional organizations, which has powers considered by the LIN as appropriate to the provisions of the Chapter VIII of its Charter, made in relation with issues concerning maintenance or restoration of international peace and security, elimination of a threat to peace or a breach of peace or prevention of an act of aggression.

The personnel of the Armed Forces of the Republic of Azerbaijan currently participate in peacekeeping operations conducted in Afghanistan, in accordance with relevant laws of the Republic of Azerbaijan, international law and mutual agreements.

Based on the decision of the Parliament of the Republic of Azerbaijan № 378-IIQR dated 15 November 2002, two platoons of the Armed Forces of the Republic of Azerbaijan were deployed to Afghanistan within the battalion of the Turkish Armed Forces and under the general command of NATO structures and are participating in corresponding operations. According to the amendment to the aforementioned decision made by the Parliament of the Republic of Azerbaijan № 673-IIIQR dated 2 October 2008, the number of platoons was increased from two up to four. On 29 December 2017 the Parliament of the Republic of Azerbaijan through its Decision № 954-VQR increased the number of servicemen in Afghanistan. Currently 120 members of the Azerbaijan Army are deployed in Afghanistan.

Nagorno-Karabakh and other surrounding regions of Azerbaijan are under the military occupation of the Republic of Armenia for 26 years now. There are irrefutable facts proving that Armenia, while grossly breaching all norms and principles of international law as an aggressor, is continuing to move accounted and registered military equipment to the occupied territories of Azerbaijan.

3. Implementation of other international commitments related to the Code of Conduct

3.1. Provide information on how your State ensures that commitments in the fields of arms control, disarmament and confidence-and security-building as an element of invisible security are implemented in good faith.

3.2 Provide information on how your State pursues arms control, disarmament and confidence-and security-building measures with a view to enhancing security and stability in the OSCE area.

The Republic of Azerbaijan attaches great importance to arms control and disarmament issues as the important elements of its foreign and security policy. Sound international security environment is conducive to the process of arms control and disarmament, while progress in this field can help lay more solid foundation for the preservation of international security and stability.

Being seriously concerned with challenges caused by proliferation of Weapons of Mass Destruction (WMD) and related materials Azerbaijan became a party to the Treaty on Non-Proliferation of Nuclear Weapons in 1992 and to the Comprehensive Nuclear Test Ban Treaty in 1999. Moreover, Azerbaijan is also a party to the Chemical Weapons Convention and the Biological Weapons Convention.

The Republic of Azerbaijan is a party to several relevant arms control treaties and agreements. Azerbaijan joined to the Treaty on Conventional Armed Forces in Europe, as well as to the Vienna document on CSBMs. The Republic of Azerbaijan participates in the comprehensive exchange of information on its Armed Forces, receives inspections from the participating states within CFE and VD.

Moreover, the Republic of Azerbaijan provides relevant information on the transfer of conventional weapons to the UN Register of Conventional Arms.

Azerbaijan also remains concerned about illicit transfer of Small Arms and Light Weapons (SALW), which constitutes a grave threat to overall security and stability. Easy availability of SALW coupled with their damaging capacity makes them a serious threat that the international community has to face in the new millennium.

Azerbaijan supported the adoption of the OSCE Document on SALW in 2000 and UN Program of Action on SALW in 2001, and considers them as significant achievements in combating illicit trafficking and transfer of SALW. Azerbaijan fulfils all its obligations, as well as participates in information exchange under these documents on a one-off and annual basis as appropriate.

Azerbaijan has always been supportive of the documents and resolutions related to arms control, non-proliferation and disarmament adopted by the UNSC and UNGA, other international organizations to this end.

International cooperation has always been a cornerstone of our efforts in the arms control. Azerbaijan actively cooperates with IAEA, CTBTO, OPCW, and other international organizations and arrangements in related areas.

However, The Republic of Azerbaijan remains concerned that all related arms control provisions cannot be fully applied within the territories of the Republic of Azerbaijan occupied by the Armed Forces of Armenia. A great number of equipment and armaments deployed in these territories is out of control, and poses a serious threat to peace and security in the region. The Republic of Azerbaijan continues to call international community to provide efforts towards the withdrawal of these forces from those territories and the appropriate removal of the related equipment and armaments.

Unfortunately, due to the continued occupation of its territories by neighboring Armenia, Azerbaijan is unable to provide proper border control along a 132 km-long section of its borders with Iran and a substantial part of its border with Armenia. Azerbaijan stresses that the efficient arms control regime in the South Caucasus could be possible only when all countries in the region will respect norms and principles of the international law and renounce territorial claims to their neighbors.

SECTION II: Intra-State elements

1. National Planning and decision making process

1.1. What is the national planning and decision-making process in determining/approving military posture and defense expenditures in your state?

According to paragraph 5 of Article 95 of the Constitution of the Republic of Azerbaijan, upon submission by the President the Milli Majlis (Parliament) considers and approves the state budget including the budget amount allocated for defense in accordance with Article 4 of the "Law on Defense" of the Republic of Azerbaijan.

1.2 How does your State ensure that its military capabilities take into account the legitimate security concerns of other States as well as the need to contribute to international security and stability?

One of the intentions declared in the Preamble of the Constitution of the Republic of Azerbaijan is, while being committed to universal values, to live in friendship, peace and tranquility with all nations of the world and to interact with this purpose.

Moreover, in accordance with Article 10 of the Constitution, the Republic of Azerbaijan establishes its relations with other states based on principles envisaged in universally recognized international legal norms.

According to the Article 9 of the Constitution of Azerbaijan, the Republic of Azerbaijan established the Armed Forces to ensure its security and protection. The Armed Forces are composed of the Azerbaijani army and other armed formations. The Republic of Azerbaijan denies war as the means of infringement of independence of other states and as a way of settlement of international conflicts.

2. Existing structure and processes

2.1. What are the constitutionally established procedures for ensuring democratic political control of military, paramilitary and internal security forces, intelligence services and the police?

According to the Constitution, state power in the Republic of Azerbaijan is based on the principle of division of powers: the Parliament [Milli Majlis] exercises legislative power; executive power belongs to the President and courts exercise judicial power. Constitution also determines that legislative, executive and judicial power interact and are independent within the limits of their authority.

The President of the Republic of Azerbaijan is the Supreme commander-in-chief of the Armed Forces of the Republic of Azerbaijan.

Although executive power is independent within the limits of its authority, the executive power, including the State Security Service and Ministry of Defense cooperates with the Parliament during the relevant legislation process. Upon invitation by the Parliament, Ministry of Defense and other relevant bodies provide the Parliament with appropriate reports and designate its high level representatives to the meetings of the Parliament's respective Commission.

The Article 22 of the law "On Intelligence and counter-intelligence activities" of the Republic of Azerbaijan regulates controlling and reporting issues of intelligence and counter-intelligence activity in the state.

According to Article 94 of the Constitution military regime, generic rules on defense and military service are determined by the Parliament of the Republic of Azerbaijan.

According to Article 95 of the Constitution, the Parliament of the Republic of Azerbaijan, upon recommendation from the President of the Republic of Azerbaijan, settles the issues related to the involvement of Armed Forces of the Republic of Azerbaijan in implementation of the tasks other than their normal duties.

According to Article 109 of the Constitution, the President of the Republic of Azerbaijan is authorized to appoint and dismiss supreme command personnel, as well as to submit

recommendations to the Parliament of the Republic of Azerbaijan on consent for the use of Armed Forces of the Republic of Azerbaijan in implementation of the tasks other than their normal duties.

The law of the Republic of Azerbaijan on "Intelligence and counter-intelligence activities" of June 29, 2004 set forth the inter-departmental and out-departmental monitoring to ensure the full compliance with the national legislation. The internal oversight is done by the subjects of these activities as determined by the legislation. The external one is conducted by the President of the Republic of Azerbaijan.

The main mission of the State Border Service is to ensure protection and inviolability of state borders of the Republic of Azerbaijan. The SBS is directly subordinate to the President of the Republic of Azerbaijan.

2.2. How is the fulfillment of these procedures ensured, and which constitutionally established authorities/institutions are responsible for exercising these procedures?

The National Security Concept of Azerbaijan of 2007 and the Military Doctrine of Azerbaijan approved in 2010 by the Parliament identifies democratic control over the Armed Forces among the principles of the national defense policy.

In pursuit of making transparent its security and defense policy Azerbaijan publicly declared its security and defense posture through disclosing the threat assessment, national interests in foreign, security and defense policy that are reflected in the above- mentioned policy documents.

Democratic control over Armed Forces is exerted using different tools, including approval of defense budget by the Parliament, realization of procurements according to legislation, the control over situation with respect for human rights in the Armed Forces by Ombudsman, Members of Parliament, civil communities, institutions and independent media.

Oversight over the defense sector is also carried out through the scrutiny by the Chamber of Accounts, which is tasked to evaluate the activities and public expenditures of the Government agencies, including the Ministry of Defense and the military units and to report to the Parliament its findings.

Besides, according to the Article 12 of the law "On the Armed Forces of the Republic of Azerbaijan", the control over the implementation of the laws, legal and social protection of military servants, their family members and civilians is conducted within the legislation of the Republic of Azerbaijan.

According to the Article 12 of Law "On Prosecutor service" Military Prosecutor Service exercises control over observance of laws and military charters in military facilities during the execution of punishments, as well as over laws during their implementation in detention facilities where detained and arrested military servicemen are kept.

Cases on decisions and actions (inactions) of military officials and military authorities are being considered in accordance with the Code of Civil Procedure.

2.3. What are the roles and missions of military, paramilitary and security forces, and how does your State control that such forces act solely within the constitutional framework?

To ensure its security and defense the Republic of Azerbaijan sets up the Armed Forces in accordance with the Article 9 of the Constitution. According to the Law, Armed Forces are tasked

with the protection of the sovereignty, territorial integrity, protection of borders and prevention of armed attack and aggression. Armed Forces of the Republic of Azerbaijan have been established and are acting on the basis of legality, centralized and unified command. The main duties of the Armed Forces of the Republic of Azerbaijan are described in the "Military Doctrine of the Republic of Azerbaijan" approved by the Decision of the Parliament of the Republic of Azerbaijan 1029-IIIQR dated 8 June 2010. Article 34 of the Doctrine set forth duties of the Armed Forces and other armed formations that are defined on the basis of three security conditions, such as "peace time", "real threat time" and "war time".

The main mission of the State Border Service is to ensure the protection and inviolability of state borders of the Republic of Azerbaijan. SBS reports directly to the President of the Republic Azerbaijan.

In accordance with the Decree 186 of the President of the Republic of Azerbaijan of January 28, 2005 "On determining the power of the subjects of intelligence and counterintelligence activity, the powers and rights of division, intelligence and counterintelligence" State Security Service organizes and conducts counter-intelligence and operational-search activities, conducts investigation and initial investigation on criminal cases under its competence.

According to the Article 3 of the Law of Azerbaijan on Police dated October 28, 1999, the main duty of the police in Azerbaijan is to protect lives, health, rights and freedoms of people, legal interests and property of the state, natural and legal persons from illegal offences. Article 12 of the same Law defines internal (in-department) and external (out- of-department) monitoring of police activities. While internal monitoring is conducted by the Ministry of Interior of the Republic of Azerbaijan, external one is done by the President of the Azerbaijan Republic within the legislation of the Republic of Azerbaijan. Implementation of laws by the police authorities is monitored by courts or prosecutor offices within the authorities defined by the legislation.

Article 4 of the law of Azerbaijan on the Status of Internal Troops defines the major duties of Internal Troops as follows:

- a) protection of major state objects, communication facilities and transportation of special consignments;
- b) participation in elimination of the consequences of incidents, fires, natural disasters and other similar situations in protected objects and facilities;
- c) participation in search and apprehension of persons intruding upon protected areas;
- d) assistance to prevent mass riots at the penitentiaries,
- e) participation in search and apprehension of fugitive convicts and detainees;
- f) protection of storehouses and military facilities of the Material and Technical, as well as Military Supplies Departments at the Ministry of Internal Affairs of the Republic of Azerbaijan;
- g) participation in providing public order along with other Internal Affairs Bodies in cities and residential areas through joint patrolling, as well as public safety during mass events;
- h) assistance to other Internal Affairs Bodies in rescue operations, protection of property and safeguarding of public order in during accidents, fires, natural disasters and other emergency situations, as well as in providing legal measure in emergency situations;
- i) participation in preventing of mass riots in residential areas;
- j) when necessary participation in protection of the territories of the Republic of Azerbaijan.

3. Procedures related to different forces personnel

3.1. What kind of procedures for recruitment and call-up of personnel for service in your military, paramilitary and internal security forces does your State have?

According to the part 1 of the Article 76 of the Constitution of Azerbaijan, defense of the Homeland is the duty of every citizen. Citizens are being admitted to the military service on the basis of the Law "On military duties and military service" of December 23, 2011 and "Regulations on military service" approved by the Law of October 3, 1997. These two acts also regulate the military service.

According to paragraph 26 of the Article 109 of the Constitution, the President of the Republic of Azerbaijan issues decrees on the conscription of the citizens Azerbaijan for a fixed period of time and on demobilization of those who are in service for a fixed period.

According to the Article 3.2 of the law on "Military duty and military service" of the Republic of Azerbaijan, all male citizens (who do not have exemption right from military service) of the Republic of Azerbaijan who has reached the age of 18 years old and fit for military service must do their active service, as defined in this Law, in the Armed Forces of the Republic of Azerbaijan and other armed formations established in accordance with legislation of the Republic of Azerbaijan. At the same time the Law "On military duty and military service" determines the rules of volunteer recruitment.

The Ministry of Defense is recruiting also civilians. Those are the position dealing with science, international cooperation, medical, legal, finance, social benefits, public information, personnel management and education. Civilians employed for positions with equivalent responsibilities and ranks would receive same social benefits and salary as their military counterparts. Currently civilian personnel of the Ministry of Defense have been granted the status of a state servant and therefore their issues fall under the "Law of the State Service".

The personnel of the SBS consist of military servicemen (officers, warrant officers, contractors and conscripts) and civilians working with employment contract.
