

PROPERTY RIGHTS MONITOR

The OSCE Mission in Kosovo (OSCE) works with Kosovo institutions to support the implementation of the policy and legal framework for the protection of property and housing rights of members of vulnerable communities. To assist in these efforts, the OSCE regularly monitors and reports on developments, and advises institutions on adherence to relevant legislation, international standards, and best practices. This publication aims to provide an overview of the situation in the field of property and housing rights of non-majority communities' members, displaced persons (DPs) and majority community living in areas where they are in a numerical minority. It aims to assist responsible institutions in addressing issues of concern in terms of implementation of legislation and enforcement of decisions, and acts as a mechanism to track progress achieved as well as to close any identified gaps. The information presented below is collected by the OSCE field teams and covers only cases where the field teams had access to information in the period from January 2022 to June 2022.
