

Local Elections, 6 October 2024

ODIHR Election Observation Mission, Media Monitoring

In the period from 6 September until 4 October 2024, the ODIHR Election Observation Mission (EOM) monitored seven TV channels, four online media outlets and three newspapers. In addition, EOM also followed other media outlets and media-related developments.

Monitored media outlets were as follows:

Television: *BHT-1* (state public channel), *FTV* (Federation-based public channel), *RTRS* (Republika Srpska-based public channel), private channels *BN*, *Hayat*, *Nova BH*, and *N1*

Online media: www.avaz.ba, www.klix.ba, www.nezavisne.com,
www.radiosarajevo.ba

Newspapers: *Glas Srpski*, *Oslobodjenje*, and *Večernji List*

The monitoring included both quantitative and qualitative analysis. The quantitative analysis measured the total amount of time or space allocated to each contesting party and other political subjects; and also evaluated the tone of the coverage in which these entities were portrayed – positive, neutral or negative. The qualitative analysis assessed the performance of selected media outlets against professional and ethical standards, such as balance, accuracy, timeliness, choice of issues, omission of information, advantage of incumbency, inflammatory language, etc.

Monitoring of three public television channels and four private TV channels focused on prime time (18:00-24:00) programmes, with a specific focus on main evening news programmes and election chronicles. Monitoring of online media focused on selected sections (elections and politics). Monitoring of newspapers encompassed whole publications.

The enclosed charts show coverage of contestants as well as other political subjects during the official campaign in the following manner – for the broadcast media in the news programmes (and in election chronicles, where applicable), for the online media in selected sections (except for advertisements indicated as such) and for the newspapers in whole publications (except for advertisements indicated as such). Subjects with at least 0.5 per cent are shown in the pie charts, while up to top 25 political contestants (outside of independent candidates) are shown in the bar charts.

Explanation of the charts

- The **pie chart** – shows the percentage of airtime/space allocated to contestants as well as to other relevant political subjects in the defined period.
- The **bar chart** – shows the total number of hours and minutes (cm, pixels) of positive (green), neutral (white) and negative (red) airtime/space devoted to contestants as well as to other relevant political subjects in the defined period.
