Supply Chains
Preventing Trafficking For Labour Exploitation In Supply Chains

1. Tell a story about the product or service - how does it start and end?
   - Draw a map of key suppliers and their suppliers
   - Identify the transport, the warehousing etc.
   - Identify where the risks might lie

2. Address identified risks in supply chains
   - Collaborate with suppliers to develop specific prevention measures
   - Apply transparency regulations to companies over a certain threshold
   - Define award criteria and contract performance clauses
   - Change supply chain practices

3. Keep a record of progress and monitor how the processes are working together.
   - Buyer-supplier communication
   - Contract performance reviews
   - High level of engagement
   - Clearly define roles and responsibilities for enforcement
   - Working together to establish a response

For more information on the Recommendations and their Operational Guidance, please see the OSR/CTHB publication Model Guidelines On Government Measures To Prevent Trafficking For Labour Exploitation In Supply Chains.
