MIS-OSCE/UN-VIE 204-6-05-4-216-2/17

NOTE VERBALE

The Permanent Mission of Bosnia and Herzegovina to the OSCE, United Nations and other International Organizations in Vienna presents its compliments to all Delegations and Permanent Missions of the OSCE participating States and has honor to enclose the replay to the Questionnaire on Anti-Personnel Mines and Explosive Remnants of War for the year 2016.

The Permanent Mission of Bosnia and Herzegovina to the OSCE, United Nations and other International Organizations in Vienna avails itself of this opportunity to renew to the Permanent Missions and Delegations of all OSCE participating States and Conflict Prevention Centre of the OSCE the assurances of its highest consideration.

Vienna, 29 May 2017

To:

OSCE Conflict Prevention Centre (CPC)
All Delegations/Permanent Missions to the OSCE

VIENNA

OSCE QUESTIONNAIRE ON ANTI-PERSONNEL MINES To be submitted no later than 31 May of each year (starting in May 2005)

Part I

1. Is your country a State Party to the 1996 Amended Protocol II on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices annexed to the 1980 Convention on Conventional Weapons (CCW)?

YES. Bosnia and Herzegovina is a State Party since 07th September 2000.

If yes:

2. Please attach the most recent annual report submitted by your country in accordance with Article 13 of the Amended Protocol or give the appropriate electronic address for the report.

Please find attached annual report for 2016 submitted in accordance with Article 13 of the Amended Protocol with all relevant information on questions related to the Amended Protocol II on prohibitions or restrictions on the Use of Mines, Booby - Traps and Other devices.

If no:

- 3. Is your country considering ratification/accession to the Amended Protocol II?
- 4. What measures have been taken to prevent the indiscriminate use of mines, booby-traps and other devices?
- 5. Would your country be interested in receiving assistance related to the implementation of this Protocol? If so, please describe.
- 6. Does your country have the capacity to assist others related to this Protocol? If so, please describe.

Part II

- 7. Has your country ratified or acceded to the 1997 Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction?
- YES. Bosnia and Herzegovina is a State Party since 08th September 1998.
- 8.(a) If yes, please attach the most recent report submitted by your country in accordance with Article 7 of the Convention or give the appropriate electronic address for the report.

Please find attached annual report for 2016 submitted in accordance with Article 7 of the Convention with all relevant information on questions related to the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction.

(b) If no, is your country considering ratification/accession to the Convention?

(c) Has your country adopted legislation to address the humanitarian objectives of the convention, or taken any specific measures regarding the use, production, storage, transfer and destruction of anti-personnel landmines? In case a moratorium has been introduced, what is its scope and duration and when was it introduced?

Bosnia and Herzegovina hasn't passed the Law about implementation on the Conventions. In Bosnia and Herzegovina Conventions and Protocols from the area of Mine Action are ratified by Presidency of Bosnia and Herzegovina and published in Official Gazette of Bosnia and Herzegovina. Bosnia and Herzegovina Criminal Law has been annexed to accommodate ban of all the activities prohibited under the Convention. Criminal Law of Bosnia and Herzegovina enter into force on 1st March 2003. Chapter XVI: Criminal acts against integrity of Bosnia and Herzegovina – Article 165; Chapter XVII: Criminal acts against humanity and values protected under international law – Articles 193 and 193 a.

9. Does your country have any specific measures in place to provide assistance to victims?

Bosnia and Herzegovina has a very developed system of health care with clinics, clinical centres, specialised semi-clinics, hospitals and rehabilitation centres. In order to increase the availability of services in local communities, there are additionally opened Rehabilitation Centres (CBR) as well as Centres for Mental Health (CMZ) at more than 60 separate location within Bosnia and Herzegovina. Additionally, as for the resolving problems of mine victims, i.e. reduction of so called "phantom pain there are centres for pain relief and medical personnel specifically trained for assisting in these centres. Equipping mine victims with prosthetics' in on a high level. The country partially of fully pays for the prosthetics costs. Achievements of Bosnia and Herzegovina in health care is visible through the fact that mine victims point out th social aspect of the problem rather than the medical one. Apart from all efforts, there is a necessity for personnel improvement in health system as well as widening of the health services offered. Law and regulations which reflect on mine victims are under the authority of Entities and Brcko District, and they are more and more in accordance with approaches to disabled persons in the countries of EU. Bosnia and Herzegovina within its constitutional frames provides protections for persons who need it, primarily disabled persons, between them civilian war victims, i.e. mine victims. In both Entities, there are Funds for Professional Rehabilitation and Employment for disabled. Based on the health care regulations, conditions were secured and defined through these funds for the realisation of rights and benefits, with the aim to improve professional rehabilitation and employment of disabled persons, regardless of the cause of their disability. There are various projects supported by the Government sector but also by activities of the NGO's which work on projects of economical re-socialisation and mine victims reintegration, along with their families. We must point out that general decrease in international financial aid reflects to the decrease in mine victims assistance and reduction of NGO sector activities in Bosnia and Herzegovina related to mine victims.

10. Does your country require assistance in mine clearance, stockpile destruction, mine awareness and/or victim assistance? If so, please describe.

In 2016, suspect hazardous area released for 58,67 km2. Through non/technical survey were cancelled 46,95 km2, through technical survey were reduced 10,39 km2 and through clearance operations were cleared 1,33 km2. 1 313 anti-personnel mines, 63 anti-tank mines and 1192 pieces of ERW were found and destroyed during the stated operations. The average number of mines per hectare is 10,3/ha.

According to available information of Mine Action Centre in BiH, in 2016 financial means spent on mine action in BiH are 33.735.776 BAM. Out of that number, national resources allocated 18.971.419 BAM, 56%, while international (donor) sources allocated 14.764.357 BAM or 44%.

There are 26 currently accredited mine action organisations in BiH: 5 government (BH Armed forces, Civilian protections of Federation, Republic of Srpska, District Brcko, Red Cross)), 9 commercial (8 national and 1 international) and 12 non-government (10 national and 2 international). There are 1.200 persons engaged in accredited organizations who are licensed to conduct mine action activities, i.e. 900 deminers and 300 persons authorised for working at managerial and supervising activities in mine action (team leaders, operational officers, quality assurance officers, EDD team's trainers, dog handlers, operators etc.).

Bosnia and Herzegovina has necessary human and technical resources for the conduct of humanitarian demining operations and other mine action, but it requires aid in securing the firm and continuous financing for the conduct of stated operations.

11. Does your country have the capacity to assist others in mine action? If so, please describe.

YES. To the international community involved with mine action BHMAC can offer the following:

- Assistance during the organization of national mine action centres,
- Laws, by-laws and normative regulations,
- Establishment of mine information system and geoinformation system, digitalisation of maps,
- Planning system preparation of national programmes and operative plans,
- Definition of suspected hazardous area and marking.
- Quality assurance and quality control over humanitarian demining operations,
- Education of humanitarian demining executors (deminers, auxiliary workers and management),
- Mine risk education, primarily local population and children,
- Mine victims assistance.

OSCE QUESTIONNAIRE ON EXPLOSIVE REMNANTS OF WAR To be submitted on a voluntary basis along with the OSCE Questionnaire on Anti-personnel Mines no later than 31 May each year.

1. Has your country notified the Depositary of its consent to be bound by the 2003 CCW Protocol V on Explosive Remnants of War (ERW) once it enters into force? Is your country considering doing so?

Yes

2. If yes, at what stage is the process?

Please find attached Annual report for 2016 with all relevant information on questions related to the CCW Protocol V on Explosive Remnants of War (ERW).

3. Would your country be interested in receiving assistance in clearing or otherwise minimizing the risks and effects of ERW? If so, please describe.

No

4. Does your country have the capacity to assist others in clearing and minimizing the risks and effects of ERW? If so, please describe.

Accredited organizations for EOD operations in Bosnia and Herzegovina as part of the Mine Action system already have significant role in various international projects and forms of cooperation, especially throughout the region of SE Europe. Bosnia and Herzegovina can offer experience know-how in various aspects of Mine Action.

PROTOCOL ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF MINES, BOOBY-TRAPS AND OTHER DEVICES, AS AMENDED ON 3 MAY 1996, ANNEXED TO THE CONVENTION ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF CERTAIN CONVENTIONAL WEAPONS WHICH MAY BE DEEMED TO BE EXCESSIVELY INJURIOUS OR TO HAVE INDISCRIMINATE EFFECTS (Protocol II as amended on 3 May 1996)

INFORMATION TO THE ARMED FORCES:

BH Armed Forces have been aware of Amended Protocol II of the CCW. Members of the BH Armed Forces through the individual and collective training given basic knowledge of international humanitarian law and the law of armed conflict, including international agreements ratified by B&H.

Representatives of the Armed Forces at the proposal of the Ministry of Defense of BiH participate in the work of expert teams dealing with solving UXO and demining of minefields.

INFORMATION TO THE CIVILIAN POPULATION:

Bosnia and Herzegovina ratified Amended Protocol II and it is published on all mine action related internet sites, containing BH reports and is therefore, in the public domain. Also MRE activities include information to the civilian population.

MRE is conducted through public information, education of population and connect with the impact communities by BHMAC and accredited organizations for mine risk education. For school-age children information about mine danger spread through the implementation of the curriculum.

In order to warn the population on mine danger BHMAC continuously performs put or renovation mine warning signs.

The action of the BH Armed Forces of Bosnia and Herzegovina on the dissemination of information among the civilian population takes place over a demining battalion of the BH Armed Forces of Bosnia and Herzegovina through the activities of MRE why the BH Armed Forces are accredited.

MINE CLEARANCE PROGRAMMES:

Mine Action programme exists in Bosnia and Herzegovina since 1996. Mine clereance per year in square metres depends mostly on funds and resources available.

Threat is widespread mostly along the confrontation lines of former warring sides. Mine Action represent the re- establishment of safe environment in areas contaminated with mines and UXO, aiming to ensure safe environment and the economic development.

Mine Action is a activities with mines five main components:

- 1. Mine risk education
- 2. Humanitarian demining operations that include clearance of mines and UXO, all levels of survey, Quality Assurance and mapping
- 3. Landmine Victim Assistance
- 4. AP mines stockpiles destruction
- 5. Advocacy

BHMAC is conducting Quality Assurance in demining testing of metal detectors, MDD teams and ground preparation machines for clearance and technical survey, Risk Area Permanent Marking and all levels of survey.

Various training courses of demining structure are conducted regularly, as well as mine risk education activities coordinated by the BHMAC.

In 2016, operations of technical survey and mine clearance were conducted at 269 tasks (out of which 14 mine suspect areas) where the tasked area was 15.981.114 m2. Out of that, 202 tasks were completed (6 mine suspect areas) with reduced and cleared area of 11.726.181 m2, 1 313 antipersonnel mines, 63 anti-tank mines and 1 192 pieces of ERW were found and destroyed during the stated operations. The average number of mines per hectare is 10/ha.

LMVA

In 2016, Demining Commission in BiH has adopted the Decision on Forming the Coordination Group for mine/ERW/cluster munition victims' assistance, and the process of formalization of documents commenced accordingly on the level of BiH, through standing ministerial bodies. In this reporting period, a preliminary preliminary coordination meeting of this working group for mine victims' assistance was held, and in order to improve situation in the area of mine action segment of mine/ERW/cluster mines victims' assistance. BHMAIS database has been updated with 17 mine victims in relation to location, victims' identity and assistance provided in the previous period. BHMAIS database provided information on mine victims per official requests for 20 victims, 5 participants in mine victims' assistance process and 4 international organizations, all in accordance with the Law on the protection of Personal Data in B&H.

MRE

In 2016, there have been continuous activities on Mine Risk Education on mines/ERW/cluster munitions through informing of the public, education of the affected groups of population and liaising of mine actions with the impacted community/municipality. The focus of mines/ERW/cluster munition MRE was the conduct of activities within impacted communities/municipalities with large suspect area of III category priority, i.e. education towards the most impacted groups of population. With the technical and financial EUFOR support as well as technical supervision from Mine Action Centre BiH, NGO "Stop Mines" organized 1 training for "Mine Awareness Instructors", where 24 attendees passed it with success. In this reporting period, there were 14 realized projects of MRE education with 22888 persons educated on mine threat.

INTERNATIONAL TECHNICAL INFORMATION EXCHANGE:

In cooperation with international and national organizations, Bosnia and Herzegovina is participating in exchange of experiences and technologies, training capacities as well as development of better and advanced methods of mine clearance and other mine action, performing tests and evaluations.

INTERNATIONAL COOPERATION ON MINE CLEARANCE:

Bosnia and Herzegovina is continuously developing the cooperation at international, regional and bilateral level aiming to develop demining capacities, as well as the exchange of knowledge, experiences and personnel. Bosnia and Herzegovina Mine Action Centre is developing the cooperation with MAC centers in the region of SE Europe as well as other associations and through the exchange of experiences further contribute to demining process.

During 2016, representatives of Mine Action Centre in BiH actively participated at the 19th International Meeting of Mine Action National Programme Directors and UN advisors, 26th SEEMAC meeting held within the 13th International Symposium on Humanitarian Demining.

TECHNICAL COOPERATION AND ASSISTANCE:

Specific cooperation during 2016 Mine Action Centre realized with the following: EUFOR HQ, Ministry for Foreign Affairs Japan, Ministry of National Defense of Turkey, US State Department-a, Zimbabwe Mine Action Centre, embassies of donor countries in Bosnia and Herzegovina and Slovenia, GICHD-a and James Madison University.

In 2016 the AF B&H activities continued in the framework of cooperation with: NPA in the framework of the Memorandum of Understanding concerning the implementation of the Plan to strengthen the capacity of demining battalion and EUFOR in the framework of implementation of mine risk education.

MEANS AND TECHNOLOGIES OF MINE CLEARANCE:

Mine clearance capacities included a complete equipment of 26 demining companies. They also need to have accreditation from BHMAC to perform such actions. All the employees that work in mine clearance are wearing protective equipment that consists of flack jacket with protection for groins and helmets with visors. For special cases of UXO demolition, companies use ballistic suits. Following equipment is in usage for humanitarian demining activities: 1265 metal detectors, 37 demining machines including all types (medium, light and heavy), excavators, machines for vegetation clearing and 61 mine detection dogs. In Bosnia, mine clearance actions are mostly performed as a combination of mechanical demining, manual detection and mine-searching dogs. BHMAC Standard operating procedures also prescribe the entire methodology of humanitarian demining activities. Frequent use of demining machines puts Croatia among the leading states with industrial mine clearance.

LISTS OF EXPERTS AND EXPERT AGENCIES:

FORMA: Steps taken to implement Article 3 of the Protocol:Clearance, removal or destruction of explosive remnants of war

High Contracting Party:	Bosnia and Herzegovina			
Reporting for time period		to	December 2016	
	[dd/mm/yyyy]		[dd/mm/yyyy]	

Steps taken to implement the provisions of Article 3:

Current size of mine suspected area is 1.091 km2, which is 2,2% compared to total area of Bosnia and Herzegovina. Through systematic survey operations it was defined 8796 mine suspected micro locations with approximately 79.000 mines/UXOs.

Mine suspected hazardous area in Bosnia and Herzegovina was released for 58,67 km2.

Humanitarian demining operations reduced and clearance 11,72 km2 of mine risk area.

The coordinative role in the process of humanitarian demining that includes survey of suspected hazardous areas, preparation of projects and technical inspection has been assigned to Bosnia and Herzegovina Mine Action Centre as technical body of Bosnia and Herzegovina Demining Commission and part of Bosnia and Herzegovina Ministry of Civil Affairs.

Organizations of Civil Protection in Bosnia and Herzegovina are specialized for removal of explosive remnants of war.

The contamination of Bosnia and Herzegovina occurred during the conflict in period 1992-1995. Explosive remnants of war are spread throughout the country, primarily in the area of former confrontation lines.

Presence of explosive remnants of war adversely affects the security of all citizens as well as socio-economic development of the country. Based on the last General Assessment of mine situation in Bosnia and Herzegovina and the scope of the mine problem in the country in 2015, it was identified 1.398 impacted communities. Estimation shows that mines/UXO contaminated locations directly impact safety about of 545,000 persons.

Besides all types of antipersonnel mines, Bosnia and Herzegovina is contaminated by following types of explosive remnants of war: grenades, rifle mines, mortar mines, rockets, artillery shells and missiles, antiaircraft summunition, air bombs, initiators (blasting caps), fuses and cluster submunition.

Removal of explosive remnants of war (ERW) in Bosnia and Herzegovina started in 1996 and since then it has been ongoing activity. Besides governmental organizations, in this complicated process are involved national and international non-governmental organization and commercial companies. In Bosnia and Herzegovina removal of ERW is divided into two levels, precisely it is responsibility of demining teams and teams for removal of explosive remnants of war. Removal of ERW by demining teams is prescribed by the evidence that is submitted together with final documentation of demining task. Removal of ERW under competence EOD teams is prescribed by specific evidence (Combined Report on issued tasks, survey and removal of ERW - Chapter VI of BiH Mine Action Standard (paragraph 4 under d) for each reported UXO (or more of them on single location).

Bosnia and Herzegovina Mine Action Standards divide responsibility for removal of mines and ERW as follows:

• Demining teams:

AP and AT mines, hand-grenades, rifle grenades, artillery shell – bullets and mortar grenades caliber below 82 mm;

• EOD teams:

All types of artillery shells, aerial bombs and mortar grenades caliber above 82 mm, all type of rockets, all types of ammunition, including cluster bombs KB-1 and KB-2, any composite designed and unrecognisable UXO (with chemical, biological, flare, smoke or other charge) or booby-traps, as well as any other UXO suspected to have piezoelectric fuse.

Destruction of ERW in Bosnia and Herzegovina is conducted exclusively by detonations. All ERW is destroyed on-site where it was found, except if jeopardizes people or in a case of unacceptable material damage that could not be prevented applying adequate protection measures.

At the end of 2016, there were 26 accredited organisations for mine action in Bosnia and Herzegovina. Out of this number, there are 5 government organisations (Armed Forces, Civil Protections from Federation and Republic of Srpska and Brcko District, along with the Red Cross Association for Bosnia and Herzegovina) 9 commercial organisations and 12 NGO's. Within accredited organisations, there are currently 1.200 persons engaged, all possessing accreditation for mine action and licence for work. Out of the total number, 900 trained deminers and 300 persons authorised for managerial and monitoring activities within mine action are engaged at the moment.

Accredited organisations currently dispose of following material and technical assets for humanitarian demining:

ERW

37 machines;
61 MDD teams for mine – explosive search;
1.265 metal detectors of various types for usage in humanitarian demining operations

Any other relevant information:

Furthermore, Mine Action Strategy of BiH Armed Forces was developed for the period 2009-2019, defining vision, mission and goals of BiH Armed Forces in the field of mine action.

Armed Forces of Bosnia and Herzegovina carry out operations of ERW removal with app. 25% of cities engaged in Bosnia and Herzegovina. They have following resources: 31 manual demining teams, 6 squads for mechanical soil preparation, 4 squads with dogs for detection of explosive 1 general reconnaissance team.

FORMB: Steps taken to implement Article 4 of the Protocol: Recording, retaining and transmission of information

High Contracting Party: Bosnia and Herzegovina

Reporting for time period from: January to December 2016

[dd/mm/yyyy] [dd/mm/yyyy]

Steps taken to implement the provisions of Article 4 and the Technical Annex:

Last general assesment study on mine situation in Bosnia and Herzegovina, completed in 2015 has identified 1 398 comunities impaceted by mine/ERW. According to estimation locations contaminated by mines/ERW directly affect safety about of 545,000 persons.

The Law on Demining in Bosnia and Herzegovina ("Official Gazette BiH" ed.5/02) prescribes organisational structure for survey, clearance and removal of mines and explosive remnants of war on teritory of Bosnia and Herzegovina, authorities responsible for mine action, rights and obligations of persons engaged in demining, as well as monitoring of the law implementation. At the state level, Bosnia and Herzegovina Demining Law regulates Demining Commission as a central body responsible for the longterm conduction of mine action activities and removal of mine danger in Bosnia and Herzegovina. Commission is a part of BH Ministry of Civil Affairs and consists of three members (three nationalities). BHMAC is its technical body, established by the Ministry Council decision in 2002.

BHMAC main responsibilities are location of suspected hazardous areas and its declaration as confirmed or no obvious hazardous areas. Areas declared as CHA are further processed by BHMAC and mine action projects are made for those areas. BHMAC has its central and two main offices (Sarajevo and Banja Luka) and 8 Regional Offices established across the country (Sarajevo, Banja Luka, Pale, Tuzla, Brčko, Mostar, Travnik and Bihać) allowing operational activities to be carried out locally. Their main tasks are location and marking of suspect areas and database daily inputs. Bosnia and Herzegovina Mine Action Centre manage and maintain database on mines/explosive remnants of war removed throught operations of humanitarina demining in Bosnia and Herzegovina. Organisations of Civil Protections (CP of Federation BiH, CP of Republic of Srpska and CP of District Brcko) manage and maintain database on explosive remnants of war removed throught activities of EOD teams. BHMAC began process for establisment of database that will unify all data on removed explosive remnants of war. Precisly, in this ongoing process organisations of Civil Protections in Bosnia and Herzegovina provide data on removed ERW, out of the evidence (Combined Report defined by paragraph 4 under d) of Chapter VI, BiH Mine Action Standards) on conducted tasks to BHMAC in electronic form every six monhts. Combined Report on issued tasks, survey and removal of explosive remnants of war (enclosure A, chapter VI of Bosnia and Herzegovina Mine Action Standard).

Any other relevant information:

BOSNIA AND HERZEGOVINA MINE ACTION STRATEGY (2009-2019) is adopted by Council of Ministers during its 45th session, held on April 24, 2008 in Sarajevo. Bosnia and Herzegovina Mine Action Operational Plan in accordance to Article 17, Item 3 of Law Demining in Bosnia and Herzegovina ("Official Gazette BiH", ed. 5/02) has been approved by De demining Commission in Bosnia and Herzegovina.

FORMC: Steps taken to implement Article 5 of the Protocol: Other precautions for the protection of the civilian population, individual civilians and civilian objects from the risks and effects of explosive remnants of war

High Contracting Party: Bosnia and Herzegovina

Reporting for time period from: January to December 2016

[dd/mm/yyyy] [dd/mm/yyyy]

Steps taken to implement the provisions of Article 5 and the Technical Annex:

Mine Risk Education in Bosnia and Herzegovina refers to mine action component with the final aim to reduce number of victims and to indicate long term danger by persistent education, media presentation and by raising population awareness. BHMAC organizes trainings for instructors of mine risk education. Integration of mine risk education program within regular education system for primary and secondary schools in Bosnia and Herzegovina, as well as distribution of brochures for pupils and teachers are intended to raise awareness and develop their skills so they could become active participants within their communities in reduction of mine/ERW risk.

In 2016, 4921 mine marking signs for mine/ERW/cluster munition were placed or renewed. Within the operations of systematic and general/technical survey, Mine Action Centre BiH survey teams placed 4547 mine marking signs for mines/ERW/cluster munition. Out of that number, 90 signs concern the marking of the hazardous area suspect of cluster munition. Non-government sector, i.e. "NVO Posavina bez mina" placed 374 mine/ERW/cluster munition mine warning signs. Within the project of Mine Risk Education in the local communities of Boderište, Ulice, Bukovac in the area of Brčko District, "NVO Posavina bez mina" placed 3 billboards – informers on the mine situation. In 2016, 34 project of permanent marking were realized, with marked suspect hazardous area of 2,97 km2 and 386 individual signs placed.

Urgent marking of risk areas do not imply marking of risk area borders, but placement of mine sign access places to risk areas as warning of present mine and/or UXO danger. Law on Defence in B&H (Official Gazzete BiH ed. 88/05), defines in Chapter V natural and other disasters and accidents. Law on Protection and Rescue of Persons and Material Goods from Natural and Oth er Disasters in B&H was adopted in 2008. Law on Protection and Recue of Persons and Material Goods from Natural and Other Disasters (Official Gazette of Federation BiH ed. 39/03 and 22/06) is applicable in Federation of Bosnia and Herzegovina, and Chapter IX of this Law defines protaction from unexploded ordnance (Articles 86 to 89).

Any other relevant information:

In 2016, there were continuous coordination meetings of BH MAC representatives and those from mine awareness accredited organisations. Meetings were under technical inspection within mine awareness task realisation. 14 mine awareness projects were realised with 22 888 persons educated about mine hazards.

With the technical and financial support of EUFOR and BH MAC supervision, NGO "Stop Mines" organised one training for mine awareness instructors. 24 attendees successfully finished the training.

In 2016, there were 7 mines accidents registered. There were 12 victims, amongst them 6 fatalities. 8 379 persons were victims of mine/UXO since 1992.

FORMD:	Steps taken to implement Article 6 of the Protocol: Provisions for the
protection of	of humanitarian missions and organizations from the effects of explosive
remnants of	war

High Contracting Party: Bosnia and Herzegovina

Reporting for time period from: January to December 2016

[dd/mm/yyyy] [dd/mm/yyyy]

Steps taken to implement the provisions of Article 6:

Every humanitarian missions and organizations which come to Bosnia and Herzegovina, could ask for all relevant information on mine situation in BiH from BHMAC. Basic activities of BHMAC are as following:

- 1. Central database maintenance;
- 2. General survey and urgent marking;
- 3. Planning and preparation of mine action projects and supporting technical documentation;
- 4. Prioritization of mine action tasks;
- 5. Short and long term Plans and Reports;
- 6. Coordination and monitoring of the implementation OF National Mine Action Strategy and Mine Action Plan;
- 7. Definition of technical and safety standards;
- 8. Testing and accreditation;
- 9. Quality assurance;
- 10. Certification of cleared areas.

FORME: Steps taken to implement Article 7 and Article 8 of the Protocol: Assistance with respect to existing explosive remnants of war and cooperation and assistance

High Contracting Party: Bosnia and Herzegovina

Reporting for time period from: January to December 2016

[dd/mm/yyyy] [dd/mm/yyyy]

Steps taken to implement the provisions of Article 7 and Article 8:

In 1996, Mine Action Centre was established by United Nations (UNMAC) in order to build a local management structure and operational mine action capacity. In the mid 1998, local structure was established, comprising of the Entity Centers and one central Mine Action Centre (BHMAC). In the first phase, number of humanitarian demining organizations was increased, first national mine action standards were issued, and financial resources were improved, as well as professional training. The adoption of the Law on Demining in 2002, established a central structure, BHMAC at the state level, immediately under the Ministry of Civil Affairs.

Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction was signed on December 3, 1997, ratified on September 8, 1998 and put into force on March 1, 1999.

BiH has, together with another 14 countries, successfully presented the Request for the extension of Article 5 deadline at the 9th Meeting of the State Parties held in Geneva from November 24-28, 2008. Deadline extension was granted to BiH until year of 2019.

Bosnia and Herzegovina has ratified the Convention on Conventional Weapons (CCW) on September 1st, 1993.

Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices as amended on 3 May 1996 (Protocol II to the 1980 Convention as amended on 3 May 1996) was ratified on September 7, 2000.

Convention on Cluster Munitions was signed on December 3, 2008 and ratified on September 7, 2010.

During 2016, representatives of Mine Action Centre in BiH actively participated at the 19th International Meeting of Mine Action National Programme Directors and UN advisors, 26th SEEMAC meeting held within the 13th International Symposium on Humanitarian Demining.

Any other relevant information:

Co-operation on the level of foreign governments and embassies in BiH,

FORM F: Steps taken to implement Article 9 of the Protocol:Generic preventive measures

High Contracting Party: Bosnia and Herzegovina

Reporting for time period from: January to December 2016

[dd/mm/yyyy] [dd/mm/yyyy]

Steps taken to implement the provisions of Article 9 and the Technical Annex:

a. Munitions manufacturing management

We do not have information at our disposal.

b. Munitions management

Stockpiling and ammunition transport is done in accordance with Guidelines on Stockpiling and ammunition transport, prescribing conditions and measures for safe stockpiling and transport of explosive ordnances. Stockpiling and ammunition transport between military locations is under control of Armed forces. Armed forces do not carry out testing shootings because they do not have the permission for this purpose by NATO HQ and EUFOR. Laboratory research of stockpiled explosive ordnances is not done because BiH Armed Forces do not possess necessary equipment. Therefore, possibility of laboratory research in neighboring countries is being considered.

We do not have at our disposal information on periodical test shootings or laboratory tests of stored explosive ordnances.

c. Training

Personnel involved in handling, transportation and use of explosive devices is trained and certificated.

In 2016, 1122 members of operational staff from 14 accredited organization within 14 courses successfully completed training in the field of mine action.

d. Transfer

In the last 6 years there has not been any transfer of arms and ammunition with military stockpiles.

e. Future production

We do not have at our disposal information on experiments for improvement of trustworthiness of explosive ordnances for further production.

Any other relevant information:

In 2016 the AF B&H activities continued in the framework of cooperation with:

NPA in the framework of the Memorandum of Understanding concerning the implementation of the Plan to strengthen the capacity of demining battalion and

EUFOR in the framework of implementation of mine risk education.

FORMG: Steps taken to implement Article 11 of the Protocol: Compliance

High Contracting Party: Bosnia and Herzegovina

Reporting for time period from: January to December 2016

[dd/mm/yyyy] [dd/mm/yyyy]

Steps taken to implement the provisions of Article 11:

Standard for mine/UXO clearance and standard for mine risk education as well as standard operational procedures for humanitarian demining and mine risk education in Bosnia and Herzegovina have been developed on the basis of the international mine action standards (IMAS). Chapter VI of Bosnia and Herzegovina Mine Action Standard (drafted on the basic of IMAS) defines removal of ERW in Bosnia and Herzegovina.

There were also established a draft of chapter XVI of Bosnia and Herzegovina Standard for mine/UXOs clearance referring to clearance and technical survey of cluster munitions, a draft of SOP for general survey and new draft of Regulations on issurance of editionals to BIH mine action organizations.

Any other relevant information:

Bosnia and Herzegovina Ministry of Defense is willing, in law framework, and if necessary, to request through competent BH institution issuance of adequate instructions and operative procedures to improve expertise of employees in Ministry of Defense i.e. BH Armed Forces who attended training in accordance to provisions of this Protocol.

In the same time, in frame of our law competence, we confirm that we are ready for cooperation consulting with other parties in order to solve any problem that may arise in interpretation and appl method of this Protocol provisions.

Form I Measures to provide warning to the population

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

i) The measures taken to provide an immediate and effective warning to the population in relation to all areas identified under paragraph 2 of Article 5."

Remark: In accordance with Article 5, para.2: "Each State Party shall make every effort to identify all areas under its jurisdiction or control in which antipersonnel mines are known or suspected to be emplaced and shall ensure as soon as possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all antipersonnel mines contained therein have been destroyed. The marking shall at least be to the standards set out in the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects".

State [Party]:	Bosnia and Herzegovina	reporting for time period from	January 2016	to	December 2016
[Narrative:]					

In 2016, there have been continuous activities on Mine Risk Education through informing of the public, education of the affected groups of population and liaising of mine actions with the impacted community/municipality. The focus of MRE was the conduct of activities within impacted communities/municipalities with large suspect area of III category priority, i.e. education towards the most impacted groups of population. With the technical and financial EUFOR support as well as technical supervision from Mine Action Centre BiH, NGO "Stop Mines" organized 1 training for "Mine Awareness Instructors", where 24 attendees passed it with success. In 2016 there were 14 realized projects of MRE education with 22888 persons educated on mine threat.

In 2016, 4921 mine marking signs were placed or renewed. Within the project of Mine Risk Education in the local communities of Boderište, Ulice, Bukovac in the area of Brčko District, "NVO Posavina bez mina" placed 3 billboards – informers on the mine situation.

In 2016, 34 project of permanent marking were realized, with marked suspect hazardous area of 2,97 km² and 386 individual signs placed.

Form J Other relevant matters

Remark: States Parties may use this form to report voluntarily on other relevant matters, including matters pertaining to compliance and implementation not covered by the formal reporting requirements contained in Article 7. States Parties are encouraged to use this form to report on activities undertaken with respect to Article 6, and in particular to report on assistance provided for the care and rehabilitation, and social and economic reintegration, of mine victims.

State [Party]:	Bosnia and Herzegovina	reporting for time period from	January 2016	to	December 2016
_				_	

[Narrative / reference to other reports:]

Bosnia and Herzegovina is able to share expertise and experience in Mine Action. Bosnia and Herzegovina is not a position to provide financial assistance to other State Party.

Specific cooperation during 2016 Mine Action Centre realized with the following: EUFOR HQ, Ministry for Foreign Affairs Japan, Ministry of National Defense of Turkey, US State Department-a, Zimbabwe Mine Action Centre, embassies of donor countries in Bosnia and Herzegovina and Slovenia, GICHD-a and James Madison University.

MINE VICTIM ASSISTANCE

In 2016, Demining Commission in B&H has adopted the Decision on Forming the Coordination Group for mine victims assistance, and the process of formalization of documents commenced accordingly on the level of B&H, through standing ministerial bodies. In this reporting period, a preliminary preliminary coordination meeting of this working group for mine victims' assistance was held, and in order to improve situation in the area of mine action segment of mine victims' assistance. BHMAIS database has been updated with 17 mine victims in relation to location, victims' identity and assistance provided in the previous period. BHMAIS database provided information on mine victims per official requests for 20 victims, 5 participants in mine victims' assistance process and 4 international organizations, all in accordance with the Law on the protection of Personal Data in B&H. In 2016, four mine victims' assistance projects were realized for the victims of mines/ERW/cluster munitions, as shown in table below.

Project number	Organization	Number of users
Lump sum mine victims assistance	UDAS	33
Economic empowerment of amptutees	UDAS	5
Assistance in employment	UDAS	1
mine victims credit financing	NGO STOP MINES	5
