Working Session 3: Tolerance and non-discrimination OSCE Action Plan for Gender Equality

Egypt: Kidnapping and disappearance of Christian Coptic Girls

OSCE State Members: Same objectives using different “unnoticed” methods

- In the last 20 – 30 years, the OSCE state members brought *many immigrants* from Muslim countries. To implement Action Plans for protecting women, it is important for these states to *analyse and understand* their original habits, culture and mentality towards woman. Many Imams *preach* that the woman is *intellectually deficient*, is inferior to man, and only exists for the sexual satisfaction of man.
- *Egypt* is a good example because within the Islamic Arab nations it is the *only* country to have an important number of Christians with *around 15 million Copts* (out of a total of 90 millions). They still maintain some of the *Pharaonic civilization* through their everyday customs. Their *Coptic language* is the last version of the Pharaonic hieroglyphics.
- The Copts represent an *obstacle to the radical* Islamists who are dreaming to establish the Great Worldwide Islamic Caliphate Nation and have an *Islamic planet*. Therefore *Strategic plans* are set to get rid of them by different means in order to reach their target.
- One of their horrible means is the *Kidnapping* of Coptic women and minor girls. Women kidnapped, drugged, raped, converted by force to Islam, are then forced to marry a Moslem man she doesn't know and then *prevented forever* to see her family again. *Thousands* of these cases are known: isn't this slavery?
- These barbaric acts are executed according to a well elaborated methodology by people who are convinced to be *doing “Good” for Allah*, by bringing “Kafir infidel” women to Islam. The number of Christian Copts will therefore *decrease* and the number of Moslems will *increase* since, by law, the children follow the religion of the father. And as a reward the gang (organizers, kidnapers, the man to marry, and the accomplice police who cover up) can share money coming from the petro-dollars Golf countries: one girl could bring up to *50 000 €*.
- There is no problem with the good faithful Moslems, but many *extremist Islamists have been voluntarily brought* to occidental countries and OSCE states. They want to achieve the same objective but are using *different methods*, for example seduction or charming until the girl falls.

Recommendation to the Delegations, NGO, OSCE, ODIHR

OFEDH is recommending OSCE to define *actions to prevent* such barbaric acts from occurring in their state members.
