Fundamental Freedoms I: (Continued) including:

-Freedom of peaceful assembly and association

Human Dimension Implementation Meeting

Warsaw, Poland, September 12, 2017 Working Session 2

Freedom of speech and of peaceful assembly is a fundamental right for citizens in the OSCE area. But this right is being seriously challenged in the United States. The confrontation in Charlottesville Virginia was labeled by UN officials as an example of “rising racism and xenophobia in the United States” and urged the government to “punish the perpetrators of hate crimes”.¹

However, there are facts that are coming to light: the organizer of the event, a Mr. Jason Kessler, was recently involved in the “occupy Wall Street movement”² funded by Mr. George Soros. It’s suspicious that an individual would change his political views from Radical Left to white supremacist in less than a year. Mr. Soros does have a record of funding these kinds of events, having funded Black Lives Matter³, the demonstrations in Ferguson MO⁴, the coup and bloodshed in the Ukraine⁵ and funding many other groups.⁶

In Charlottesville, witnesses saw Antifa demonstrators dressed in black, Black Lives Matter members, and individuals dressed in KKK T shirts, all getting off the same 6 busses⁷ before the confrontation. Does this not smell like a false flag operation? Does this not have Mr. Soros’ fingerprints all over it?

So rather than Charlottesville being an example of “rising racism and xenophobia in the United States” what we really have is a Soros False Flag operation using a handful of miserable marginalized “Nazis and White Supremacists” (most in the pay of Mr. Soros?) blown out of proportion by the Southern Poverty Law Center (SPLC).

The hypocrisy of UN and EU Officials jumps out when one compares the sanctimonious and selective outrage over Charlottesville with the deafening silence towards Muslim racism and xenophobia against the Jews.

While the President condemned the violence by all sides, the Left-Wing media gave the Left-wing groups a free pass and insisted that the President condemn only the “white nationalist racist” groups! Soon thereafter, the “Freedom Rally” in San Francisco was cancelled due to “safety concerns”⁸. The pattern is

clear: if you don't agree with the Left, you are a Nazi and you will be shut down with violence or the threat of violence! This is a serious abridgement of Constitutional rights!

It also means that Law Enforcement and City Officials are violating their Oath of Office to uphold and defend the Constitution of the United States. They are allowing the threat of violence to override the Constitutional rights of the demonstrators to free speech and freedom of assembly for the sake of keeping the peace. It means the threat of violence is being allowed to void the Constitution!

One Antifa poster is telling:

This poster demonizes and dehumanizes all 63 million Americans that voted for President Trump as Nazis! This poster is counter-factual! Many of the Americans who voted for the President are elderly veterans of the very war that brought down National Socialist Germany nearly two generations ago. To label such people "Nazis" is preposterous! Certainly, the fabric of our civil society cannot long survive such outrages! It also violates the OSCE participating States' commitment whereby "everyone will have the right of peaceful assembly and demonstration".⁹

The Sea Jay Foundation recommends that the OSCE participating States investigate and determine who is responsible for organizing and funding this violence that is taking place across the land and put a stop to it.

The Sea Jay Foundation also recommends that participating States grow some backbone in defending those who wish to exercise their Constitutional rights, but are being threatened and intimidated into silence!

The Sea Jay Foundation calls for the restoration of the right to freedom of speech and assembly to which citizens of the OSCE area are absolutely entitled by defending the exercise of such rights from violent groups.
