

# Chemical Safety and Security of Ukraine: Regulatory Framework, Border Control, Analytical Laboratory Capacities. Presentation

5 February 2021, 11:00 - 12:30 (Kyiv time, UTC+2)

Project beneficiaries and partners

## Project overview

- Laboratory Capacities
- Regulatory Framework
- Border Control

1 667 263 EUR 2017-2020

Strengthening of chemical safety and security in Ukraine in line with the implementation of United Nations Security Council Resolution 1540 (2004) on the non-proliferation of weapons of mass destruction and their means of delivery

РОЗВИТКУ ЕКОНОМІКИ, ТОРГІВЛІ

## Projects, beneficiaries, partners

Establishing Ukrainian National Reference Centre to Identify Controlled and Toxic Chemicals

Ministry of Health of Ukraine

Improving Ukraine's Regulatory System on Chemical Safety and Security

- Ministry for Development of Economy, Trade and Agriculture of Ukraine
- State Emergency Service of Ukraine
- Ministry of Environmental Protection and Natural Resources of Ukraine

Strengthening Controls over Cross-Boundary Movement of Controlled and Toxic Chemicals

- State Customs Service of Ukraine
- State Border Guard Service of Ukraine

Support in the Implementation of Projects on Chemical Safety and Security in Ukraine, Including Promotion of the Implementation of UNSCR 1540 (2004)

OSCE Conflict Prevention Centre

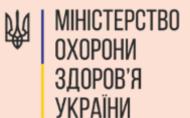

### The main achievements

Project "Establishing
Ukrainian National
Reference Centre to Identify
Controlled and Toxic
Chemicals"

## To increase the capacity of government agencies to identify and control the circulation of toxic chemicals and precursors:

#### Done

- ✓ Reference centre established.
- ✓ Purchased, transferred to the recipient and put into operation laboratory equipment.
- Trained laboratory staff.
- Interlaboratory tests confirmed staff qualifications.
- ✓ Developed documents on interagency co-operation.

#### **Needs attention**

- Approval of documents on inter-agency co-operation of reference centre with interested state bodies.
- Completion of the accreditation process.
- Development of interlaboratory co-operation at the national and international levels.

### The main achievements

Project "Improving
Ukraine's Regulatory
System on Chemical Safety
and Security"

МІНІСТЕРСТВО РОЗВИТКУ ЕКОНОМІКИ, ТОРГІВЛІ ТА СІЛЬСЬКОГО ГОСПОДАРСТВА УКРАЇНИ

Міністерство захисту довкілля та природних ресурсів України

Державна служба України з надзвичайних ситуацій

## To improve the legislative and regulatory framework of Ukraine in the field of chemical safety and security:

#### Done

- Developed key components of comprehensive national legislation on chemical safety:
  - ✓ draft Technical Regulations on:

"On Safety and Security of Chemical Products";

"On Hazard Classification, Precautionary Labelling and Packaging of Chemical Products".

- ✓ Draft Law "On Chemical Safety";
- √ 17 national standards to support the enforcement of new legislation;
- ✓ Revision of legislation on high-risk facilities.
- Provided assistance to include issues on safe management of chemicals to the EU-Ukraine Association Agreement.

#### **Needs attention**

- Review and approval of:
  - draft Technical Regulations;
  - draft Law "On Chemical Safety";
  - national standards on testing methods of chemicals;
  - legislation on high-risk facilities.
- Inclusion of issues on safe management of chemicals to the EU-Ukraine Association Agreement.

## The main achievements

Project "Strengthening Controls over Cross-Boundary Movement of Controlled and Toxic Chemicals"

Державна митна служба України

Департамент спеціалізованої підготовки та кінологічного забезпечення

Державна прикордонна служба України

## To strengthen controls over the cross-boundary movement of controlled and toxic chemicals:

#### Done

- ✓ Developed:
  - training programmes and materials to train staff of customs and border guard agencies;
  - pocket guide on actions in the detection of toxic chemicals;
  - ✓ thematic educational videos.
- ✓ Trained 48 employees were trained, including 23 trainers.
- ✓ 8 HQ representatives studied the experience of Slovakia.
- ✓ Supplied:
  - ✓ specialized training equipment;
  - √ 60 chemical control kits to detect chemicals, and with PPE items;
  - ✓ **laboratory equipment** for chemical research.
- ✓ Practices inter-agency co-operation of border authorities during joint field exercises (about 50 border staff participated).

(3:45 minutes)

## To strengthen controls over the cross-boundary movement of controlled and toxic chemicals:

#### **Needs attention**

- Continuation of training of border control staff on controls over transboundary movements of controlled and toxic chemicals.
- Replenishment of consumables for equipment and tools supplied under the project.
- Providing all checkpoints with the necessary means to control the movement of chemicals and respond to chemical threats.
- Review / update of regulations on interaction and inter-agency co-ordination of the Border Guard and Customs services.

- Inclusion of the issue of chemical safety to strategic documents on national security of Ukraine.
- 2. Development of **state strategy on chemical safety** and implementation of comprehensive actions for its realization.
- **3.** Appointment or establishment of responsible authorized body in the field of safe management of chemicals.

## Some suggestions for strengthening chemical safety in Ukraine

## Next steps

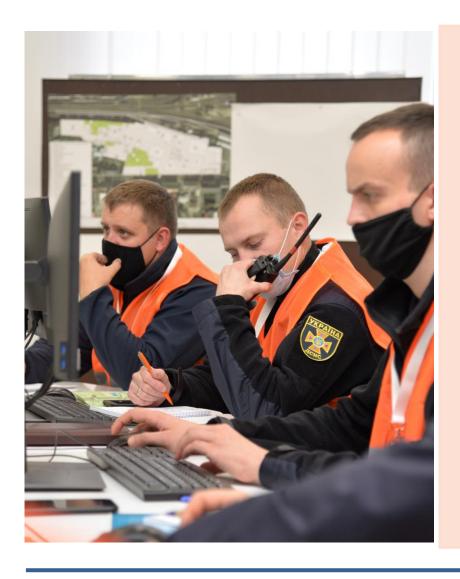

MIHICTEPCTBO

Project "Enhancing Ukraine's Chemical Emergency Response Capacity"

State Emergency Service of Ukraine

## OSCE Projects on Biological Safety and Security in Ukraine

In line with the UN Security Council Resolution 1540 (2004)

Funded by – EU

Implemented by – OSCE

#### Thematic Programmes

Democratization and Good Governance

**Human Security** 

Rule of Law and Human Rights

Economic-Environmental and Politico-Military Projects
