INTRODUCTION

By the time of the conference, the Council of Europe (GRETA monitoring mechanism) will have evaluated the anti-trafficking action of almost 30 European countries, including Austria. The aim of the joint Council of Europe/OSCE conference is to take stock of the progress made so far and to discuss the challenges in the implementation of the Council of Europe Convention on Action against Human Trafficking. It will also provide an opportunity for exchange on practices and tools developed on the basis of the OSCE Action Plan to Combat Trafficking in Human Beings and on how legally binding standards, monitoring mechanisms and political strategies can mutually reinforce each other and lead to effective action to counter trafficking in human beings.

The conference will be opened by a high-level panel and followed by four thematic panels on prevention, victim identification and protection, prosecution as well as partnership and coordination.
