**UNITED STATES MISSION  
ORGANIZATION FOR SECURITY AND COOPERATION IN EUROPE**

No. 2025/04

The Mission of the United States of America to the Organization for Security and Cooperation in Europe presents its compliments to all of the other Delegations and Permanent Missions to the Organization for Security and Cooperation in Europe, the Forum for Security Cooperation, and the Conflict Prevention Center and, in accordance with Decision 13/97 of the Forum for Security Cooperation, has the honor to submit the report of the United States of America's Information Exchange on Conventional Arms Transfers.

The Mission of the United States of America to the Organization for Security and Cooperation in Europe avails itself of this opportunity to renew to all Delegations and Permanent Missions to the OSCE, the Forum for

Security Cooperation, and the Conflict Prevention Center the assurances of  
its highest consideration.

United States Mission to the  
Organization for Security and Cooperation in Europe  
Vienna, February 13, 2025

**Reporting country: United States**

**Calendar year: 2023**

Report of international conventional arms transfers (according to United Nations General Assembly resolutions 46/36 L and 58/54)

**National point of contact**

## Light weapons imports

Category	Trading partner	Number of items	State of origin (if not exporter)	Intermediate location(s)	Description of items	Comments on the transfer
----------	-----------------	-----------------	-----------------------------------	--------------------------	----------------------	--------------------------

## Source of information

Data reflects actual transfers

## Explanatory Notes

(a) Member States that do not have anything to report should file a "nil report" stating that no exports or imports have taken place in any of the categories during the reporting period.

(b) International arms transfers involve, in addition to the physical movement of equipment into or from national territory, the transfer of title to and control over the equipment. Member States are invited to provide with their return a concise explanation of national criteria used to determine when an arms transfer becomes effective. (See paragraph 42 of the annex to document A/49/316.)

(c) In the "Remarks" column Member States may wish to describe the item transferred by entering the designation, type, model or any other information considered relevant. Member States may also wish to use the "Remarks" column to explain or clarify aspects relevant to the transfer.

(d) Multiple-launch rocket systems are covered by the definition of category III. Rockets qualifying for registration are covered under category VII. MANPADS should be reported if the MANPADS system is supplied as a complete unit, i.e. the missile and launcher/grip-stock form an integral unit. In addition, individual launching mechanisms or grip-stock should also be reported. Individual missiles, not supplied with a launching mechanism or grip stock need not be reported.

(e) Check any of the following provided as part of your submission:

## When reporting transfers, which criterion, drawn from paragraph 42 of the annex to document A/49/316, was used:

Other criterion: Transfer of title and control.

## **Categories of equipment and their definitions**

### **Battle tanks**

Tracked or wheeled self-propelled armoured fighting vehicles with high cross-country mobility and a high-level of selfprotection, weighing at least 16.5 metric tons unladen weight, with a high muzzle velocity direct fire main gun of at least 75 millimetres calibre.

### **Armoured combat vehicles**

Tracked, semi-tracked or wheeled self-propelled vehicles, with armoured protection and cross-country capability, either: (a) designed and equipped to transport a squad of four or more infantrymen, or (b) armed with an integral or organic weapon of at least 12.5 millimetres calibre or a missile launcher.

### **Large-calibre artillery systems**

Guns, howitzers, artillery pieces, combining the characteristics of a gun or a howitzer, mortars or multiple-launch rocket systems, capable of engaging surface targets by delivering primarily indirect fire, with a calibre of 75 millimetres and above.

### **Combat aircraft and unmanned combat aerial vehicles (UCAV)**

Includes fixed-wing or variable-geometry wing aerial vehicles as defined below: (a) Manned fixed-wing or variable-geometry wing aircraft, designed, equipped or modified to engage targets by employing guided missiles, unguided rockets, bombs, guns, cannons or other weapons of destruction, including versions of these aircraft which perform specialized electronic warfare, suppression of air defence or reconnaissance missions. (b) Unmanned fixed-wing or variable-geometry wing aircraft, designed, equipped or modified to engage targets by employing guided missiles, unguided rockets, bombs, guns, cannons or other weapons of destruction. The terms "combat aircraft" and "unmanned combat aerial vehicles (UCAV)" do not include primary trainer aircraft, unless designed, equipped or modified as described above.

### **Attack helicopters**

Rotary-wing aircraft designed, equipped or modified to engage targets by employing guided or unguided anti-armour, air-to-surface, air-to-subsurface, or air-to-air weapons and equipped with an integrated fire control and aiming system for these weapons, including versions of these aircraft which perform specialized reconnaissance or electronic warfare missions.

### **Warships**

Vessels or submarines armed and equipped for military use with a standard displacement of 500 metric tons or above, and those with a standard displacement of less than 500 metric tons, equipped for launching missiles with a range of at least 25 kilometres or torpedoes with similar range.

### **Missiles and missile launchers**

(a) Guided or unguided rockets, ballistic or cruise missiles capable of delivering a warhead or weapon of destruction to a range of at least 25 kilometres, and means designed or modified specifically for launching such missiles or rockets, if not covered by categories I through VI. For the purpose of the Register, this sub-category includes remotely piloted vehicles with the characteristics for missiles as defined above but does not include ground-to-air missiles. (b) Man-Portable Air-Defence Systems (MANPADS).
