

STRENGTHENING DIALOGUE

among civil society & with key government stakeholders in UKTAINE

A key strength of ODIHR's work in Ukraine has been a strong focus on partnerships that bring together state and non-state stakeholders with complementary resources and expertise, enabling a wider scope and coverage of activities and the receipt of timely feedback on local needs. ODIHR stands ready to utilize its expertise and knowledge tools to build even broader coalitions and raise awareness in support of human dimension issues across Ukraine." Ingibjörg Sólrún Gísladóttir, ODIHR Director
