

United States Mission to the OSCE

Right of Reply to the Russian Federation

As delivered by Chargé d’Affaires Katherine Brucker
to the Permanent Council, Vienna
October 9, 2025

I just feel compelled to point out what is patently clear that any fire, anything directed to the Russian Federation is a result of the Russian Federation being an aggressor and picking on its peaceful neighbor. The easiest way to stop the missiles and drones being aimed at Russia is for Russia to end the war. You started it, you end it. You're responsible for the peace.

Thank you, Mr Chair.
