

2019 HUMAN DIMENSION IMPLEMENTATION MEETING

The international association of independent democrats against authoritarian regimes.

WORKING SESSION 10 ,Rule of law I, including:

- Independence of the judiciary
- Democratic law-making
- Ensuring equal enjoyment of rights and equal participation in political and public life

There are dictatorship states: **AZERBAIJAN, BELARUS, TURKMENISTAN, TAJIKISTAN, and aggressive RUSSIA** and again , UZBEKISTAN.

KAZAKHSTAN has the authoritarian system again.

But we hope UZBEKISTAN and KAZAKHSTAN have the way of the opportunity to the DEMOCRACY.

The dictatorship state have not any an Independence of the judiciary . There are not a Democratic law-making. Please ,see next examples, 2 (two) only.

AZERBAIJAN. The dictator Ilkham Aliev showed : **he is the Law!**

The dictator Ilkham Aliev wants to be the sultan !

He (with the fake Constitution, art.101) called **extraordinary** elections of the president of Azerbaijan, HIS election, without any reason. This his right has been masked in art.101, non art .109.

We see the next violation of the democratic legislation and **the violation of the Democratic law-making..** The president post for the end of the life.

The dictator Aliev appointed his wife to be the vice –president !

Is it the Democratic law-making ? No and no!

Where is Independence of the judiciary in Azerbaijan?

Belarus

The dictator Lukashenko doesn't respects his Constitution with next time..

Lukashenko appointed “elections” to the fake parliament at 17 **November**, this year. It is the very hard violation of the Constitution: Articles .93, 94, 95.

We see the total the **Democratic law-making**

There are **very hard conditions with the Constitution for to stop the activity of the “parliament”**. Today Belarus has not same conditions.

And we see minus 10 (ten) months for the work of the “parliament” !

And what is the Ensuring equal enjoyment of rights and equal participation in political and public life?

We watch the election spectacle in Belarus today.

More.

This violation of the dictator Lukashenko makes the big Human Rights problem for yang people, also .

After 17 **November**, after **next** 10 month the very many young people will have rights citizens ,the **right of the participation** in elections.

But, at 17 November they have not this right again !

The young student made the application to Minsk court for the trial:
she waits the judgment for the illegal order of the dictator Lukashenko for **the date** of elections.

But the first court of the dictator made the rejection of the application.

Do you remember :” *OSCE commitments acknowledge the need for additional efforts to promote the participation of women, youth,..*”

We see the election spectacle in Belarus has the start with violations of the legislation. And more , the power continues violations of the legislation.

Is it the Democratic law-making ? No and no!

And more the dictatorship of Lukashenko adopted the law text for the ban de facto for the freedom of expression, for the Freedom of peaceful assembly
It demands very high payment by the people for democratic actions.

Dictators of Turkmenistan, Berdymukammedov, of Tajikistan , Rakhmonov have not the time for the game in the Democratic law-making.....

All words dictators are the law!

The persecutions of independent lawyers is not the method for the Independence of the judiciary.

,,,
And. To states of the European Union. Germany was in our statement.
Today – Poland.

Poland has not a Democratic law-making. The case of the DISCRIMINATION has not an article of the criminal cod. The Polish court rejects all applications with title :DISCRIMINATION.

And more , the Polish court uses illegal methods to stop the application of Belarusian person.

The DEFAMATION has not the article in the Polish legislation..

The result: the Polish court rejects the application of the Belarusian person against the Polish official.

Poland is not the democratic state.
