

Friday 25 September 2015 Workshop Session 8

1. Torture; Returning Jihadist to the OSCE we can not receive them with open arms their victims demand justice.
2. Capital Punishment; add to it abolishing Honour killing and killing of alive born babies in the OSCE participating countries.
3. Terrorism; To end Islamic radicalism and terrorism starts with ending Apostasy and Blasphemy laws in Islam.
There is no social justice without freedom of thought, conscience and belief, and freedom to change belief.
There is no end of intolerance in Islamic states without giving x-muslims and non muslims their basic political and civil rights.
There will be no end to international terrorism and jihad without x-muslims and non muslims having their political and social freedom and equality in Islamic states their home land.
There is no justification for terrorism.
We should never justify the perpetrator of terrorist acts. Murder of the innocent can not be justified it is a crime. This does not help to eliminate terrorism.
Our focus should be to bring justice for the victims and to condemn the atrocities.

Kamal Fahmi

International Executive Director of Set My People Free
