

Set My People Free recommendations:

Thank you for the work you have done for adopting the EU Guidelines on the promotion and protection of freedom of religion or belief, which was passed by the Foreign Affairs Council meeting Luxembourg, 24 June 2013 and I believe you in OSCE has played part on it.

The guide lines are based on article 18

Freedom of thoughts, conscious and believe and freedom to change and practice and teach and assemble. It is freedom to adopt and not adopt religion.
Religious freedom is a civil right we need to protect.

Now we need have to have procedures of implementation because without implementation this guidelines will not make any difference for the people on the ground. It becomes only Slogans.

The concern of Set People Free is that there is around 1.3 billion muslims who have no freedom to leave Islam.

Around 10 Islamic states have the death penalty for Apostasy and Blasphemy in their legal code.

In 16 Islamic states it is illegal to leave Islam, even moderate countries like Jordan, Malaysia and Morocco.

We need your help to see Apostasy abolished in these countries.

We need to do something like what we did to end Apartheid in South Africa.

We need to monitor any violation of religious freedom.

We need to put pressure for change; by sanctions and by stopping co-operation and aid to countries, who are applying Apostasy and blasphemy and violating the European guidelines.

“Democracy is always an unfinished experiment, testing the capacity of each generation to live freedom nobly.”
