

EMBASSY OF FINLAND
PERMANENT DELEGATION OF FINLAND
TO THE OSCE

FSC.EMI/161/18
30 May 2018

ENGLISH only

WIE7W0031-26

VERBAL NOTE

The Permanent Delegation of Finland to the OSCE presents its compliments to all Delegations and Permanent Missions to the OSCE and to the Conflict Prevention Centre and, in accordance with the Forum For Security Co-operation Decision 7/2004, has the honour to convey Finland's response to the OSCE Questionnaire on Anti-Personnel Landmines and Explosive Remnants of War.

The Permanent Delegation of Finland to the OSCE avails itself of this opportunity to renew to all Delegations and Permanent Missions to the OSCE and to the OSCE Conflict Prevention Centre the assurance of its highest consideration.

Vienna 30 May 2018

Encl.

To all Delegations and Permanent Missions to the OSCE
To the Conflict Prevention Centre

OSCE QUESTIONNAIRE ON ANTI-PERSONNEL MINES

**To be submitted no later than 31 May of each year
(starting in May 2005)**

Part I

1. Is your country a State Party to the 1996 Amended Protocol II on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices annexed to the 1980 Convention on Conventional Weapons (CCW)?

Yes

If yes:

2. Please attach the most recent annual report submitted by your country in accordance with Article 13 of the Amended Protocol or give the appropriate electronic address for the report.

Annual report is attached to this document.

If no:

3. Is your country considering ratification/accession to the Amended Protocol II?

4. What measures have been taken to prevent the indiscriminate use of mines, booby-traps and other devices?

The national legislation of Finland has been amended to meet the requirements of the Ottawa treaty as well as other international arms control treaties that Finland is a state party to. In the latest issued training manual of the Finnish Defence Forces it is clearly described which weapons and/or mine systems are illegal and against international law. The implementation of different treaties has been assured by the Defence Command and irregular and regular inspections are conducted continuously.

5. Would your country be interested in receiving assistance related to the implementation of this Protocol? If so, please describe.

No

6. Does your country have the capacity to assist others related to this Protocol? If so, please describe.

Yes, Finland has capacity to assist in both training and advising. The decision on possible assistance is made by the Ministry for Foreign Affairs.

Part II

7. Has your country ratified or acceded to the 1997 Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction?

Yes

8.(a) If yes, please attach the most recent report submitted by your country in accordance with Article 7 of the Convention or give the appropriate electronic address for the report.

The report is attached to this document.

(b) If no, is your country considering ratification/accession to the Convention?

- 2 - FSC.DEC/7/04, 24 November 2004 Annex 1

(c) Has your country adopted legislation to address the humanitarian objectives of the convention, or taken any specific measures regarding the use, production, storage, transfer and destruction of anti-personnel landmines? In case a moratorium has been introduced, what is its scope and duration and when was it introduced?

Yes. Reference is made to the attached document.

9. Does your country have any specific measures in place to provide assistance to victims?

Yes

10. Does your country require assistance in mine clearance, stockpile destruction, mine awareness and/or victim assistance? If so, please describe.

No

11. Does your country have the capacity to assist others in mine action? If so, please describe.

Yes, Finland can provide training, advice and experts in field. Finland has supported humanitarian mine action since the 1990s. Finland's current support in 2016-2020 is c. 12 million Euros and it is focused on fragile environments where mines pose a major problem. Recipients of our assistance are Afghanistan, Iraq, Syria, Somalia and Ukraine.

PROTOCOL ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF MINES,
BOOBY-TRAPS AND OTHER DEVICES AS AMENDED ON 3 MAY 1996, ANNEXED
TO THE CONVENTION ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF
CERTAIN CONVENTIONAL WEAPONS WHICH MAY BE DEEMED TO BE
EXCESSIVELY INJURIOUS OR TO HAVE INDISCRIMINATE EFFECTS
(**PROTOCOL II** AS AMENDED ON 3 MAY 1996)

Form B Mine clearance and rehabilitation programmes

Article 13, “The High Contracting Parties shall provide annual reports to the
paragraph 4 (b) Depository ... on:

(b) mine clearance and rehabilitation programmes;”

High
Contracting FINLAND reporting for time March 2017 March 2018
Party _____ period from _____ to _____

Mine clearance programme incl. rehabilitation

Finland has taken part in humanitarian mine action since 1991 in countries with the highest number of accidents caused by landmines and explosive remnants of war (ERW). Finland's support is based on a holistic approach. Finland's humanitarian mine action (HMA) policy was externally evaluated in 2015 and a new HMA concept was developed the following year. The goal is to save lives as well as to strengthen long-term security and development in the affected countries. The new concept also stresses the importance of including a gender perspective into all stages of mine action activities. Finland's comprehensive approach comprises all five pillars of humanitarian mine action: clearance, risk education, victim assistance, stockpile destruction and advocacy. Depending on the context, mine action can be a means of stabilisation, the first step towards development cooperation or an instrument for the promotion of employment and equality.

Humanitarian mine action is funded from the development cooperation budget. Finland's support is largely focused on fragile states and fragile environments where mines pose a major problem. Recipients of our assistance are Afghanistan, Iraq, Syria, Somalia and Ukraine. Almost half of the total of c. 12 million euros of funding for 2016-2020 is channelled to support activities in Iraq and Syria in areas liberated from ISIL. Support is based on multiannual Framework Agreements with the partner organizations in order to ensure predictability of funding. Finland also takes part in EU humanitarian landmine activities through its contributions to the Community Budget.

Finland's humanitarian mine action support and policy are coordinated by the Ministry for Foreign Affairs' Unit for Arms Control. Finland participates in donor coordination through the Mine Action Support Group (MASG). Finnish HMA work is guided by the international principles of Paris Declaration on Aid Effectiveness, the Accra Action Plan, and the Good Humanitarian Donorship principles. The implementation of Finnish development policy is guided by the 2016 Government Report on Development Policy and Finland's activities are based on the 2030 Agenda for Sustainable Development. Finnish HMA funding and approach reflect also broader foreign policy objectives.

During the reporting period the FDF has carried out 374 Explosive Ordnance Disposal (EOD) cases. The most of cases have been clearance of ERWs , but there has also been some land mine clearances.

(ONLY FOR THE PURPOSES OF CLARIFICATION)

Form A National implementation measures

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
a) The national implementation measures referred to in Article 9."

Remark: In accordance with Article 9, "Each State Party shall take all appropriate legal, administrative and other measures, including the imposition of penal sanctions, to prevent and suppress any activity prohibited to a State Party under this Convention undertaken by persons or on territory under its jurisdiction or control".

State [Party]: **Finland** reporting for time period from **January 1. 2017** to **December 31. 2017**

Measures	Supplementary information (e.g., effective date of implementation & text of legislation attached).
<ol style="list-style-type: none">1. Standard Operating Instructions (SOI) of Finnish Defence Command has been published 3.4.2012.2. Decision of Army Command "Decommissioning of Anti Personal Mines" has been published 24.2.20123. Decision of Finnish defence Command "Approval of Plan of Destruction of anti-personnel mines" has been published 25.10.2010	

Form B Stockpiled anti-personnel mines

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

b) The total of all stockpiled anti-personnel mines owned or possessed by it, or under its jurisdiction or control, to include a breakdown of the type, quantity and, if possible, lot numbers of each type of anti-personnel mine stockpiled."

State [Party]: **Finland**

reporting for time period from **January 1. 2017** to **December 31. 2017**

1. Total of stockpiled anti-personnel mines

Type	Quantity	Lot # (if possible)	Supplementary information
APM 43-86	2 828		mines will be retained for training etc. (Form C)
APM 68-95	4 382		mines will be retained for training etc. (Form C)
APM 65-98	8 982		mines will be retained for training etc. (Form C)
TOTAL	16 192		

2. Previously unknown stockpiles of anti-personnel mines discovered after the deadlines have passed. (*Action #15 of Nairobi Action Plan*) *

Type	Quantity	Lot # (if possible)	Supplementary information
-	-	-	
TOTAL			

* Pursuant to the decision of the 8MSP, as contained in paragraph 29 of the Final Report of the Meeting, document APLC/MSP.8/2007/6.

Form C Location of mined areas

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

c) To the extent possible, the location of all mined areas that contain, or are suspected to contain, anti-personnel mines under its jurisdiction or control, to include as much detail as possible regarding the type and quantity of each type of anti-personnel mine in each mined area and when they were emplaced."

State [Party]: **Finland**

reporting for time period from **January 1. 2017** to **December 31. 2017**

1. Areas that contain mines*

Location	Type	Quantity	Date of emplacement	Supplementary information
-				

2. Areas suspected to contain mines*

Location	Type	Quantity	Date of emplacement	Supplementary information
No mined areas, see supplementary information				<p>There are tens of thousands Explosive Remnants of War (ERW) on the ground and water in Finland due to the World War II.</p> <ol style="list-style-type: none"> 1. Unexploded Ordnances (UXO) 2. Abandoned Explosive Ordnances (AXO) <p>Most of ERW's are in the uninhabited areas.</p> <p>Most of the areas contaminated with ERW's are recorded in the database.</p>

* If necessary, a separate table for each mined area may be provided

--	--	--	--	--

Form D APMs retained or transferred

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

d) The types, quantities and, if possible, lot numbers of all anti-personnel mines retained or transferred for the development of and training in mine detection, mine clearance or mine destruction techniques, or transferred for the purpose of destruction, as well as the institutions authorized by a State Party to retain or transfer anti-personnel mines, in accordance with Article 3"

State [Party]: **Finland** reporting for time period from **January 1. 2017** to **December 31. 2017**

1a. **Compulsory:** Retained for development of and training in (Article 3, para.1)

Institution authorized by State Party	Type	Quantity	Lot # (if possible)	Supplementary information
Finnish Defence Forces	APM 43-68	2 828		In stockpiles
	APM 68-95	4 382		In stockpiles
	APM 65-98	8 982		In stockpiles
TOTAL	-----	16 192		

1b. **Voluntary information** (Action #54 of Nairobi Action Plan)

Objectives	Activity / Project	Supplementary information
		<i>(Description of programs or activities, their objectives and progress, types of mines, time period if and when appropriate...)</i>

		“Information on the plans requiring the retention of mines for the development of and training in mine detection, mine clearance, or mine destruction techniques and report on the actual use of retained mines and the results of such use”
--	--	--

NOTE: Each State Party should provide information on plans and future activities if and when appropriate and reserves the right to modify it at any time

Form D (continued)

2. Compulsory: Transferred for development of and training in (*Article 3, para.1*)

Institution authorized by State Party	Type	Quantity	Lot # (if possible)	Supplementary information: e.g. transferred from, transferred to
Finnish Defence Forces				Mines are safely and securely stockpiled and can be transferred for temporary training purposes by the Finnish Defence Forces.
TOTAL	-----			

3. Compulsory: Transferred for the purpose of destruction (*Article 3, para.2*)

Institution authorized by State Party	Type	Quantity	Lot # (if possible)	Supplementary information: e.g. transferred from, transferred to
Finnish Defence Forces				Mines are in stockpiles and will be transferred on a yearly basis to Finnish Defence Forces' destruction sites.
TOTAL	-----			

Form F Status of programs for destruction of APMs

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

f) The status of programs for the destruction of anti-personnel mines in accordance with Articles 4 and 5, including details of the methods which will be used in destruction, the location of all destruction sites and the applicable safety and environmental standards to be observed."

State [Party]: **Finland**

reporting for time period from **January 1. 2017** to **December 31. 2017**

1. Status of programs for destruction of stockpiled APMs (*Article 4*)

Description of the status of programs including:	Details of:
Location of destruction sites	
Destruction sites of APM are 1. Kittilä (explosives mass disposal area in northern part of Finland) a. Kittilä area has been used for years for disposal of old ammunition and explosives 2. Ähtäri (Army Depot in central part of Finland)	Methods 1. Kittilä a. APM 43-68 and APM 68-95 are destroyed by blowing them up entirely b. The fuses of APM 65-98 are destroyed by blowing them up entirely 2. Ähtäri a. APM 65-98 are unloaded b. Explosive contents are recycled c. Metal part of the fuses are recycled
	Applicable safety standards

	Applicable environmental standards
--	------------------------------------

2. Status of programs for destruction of APMs in mined areas (*Article 5*)

Description of the status of programs including: No mined areas	Details of:
Location of destruction sites	
	Methods
	Applicable safety standards
	Applicable environmental standards

Form G (continued)

3. Previously unknown stockpiles of anti-personnel mines discovered and destroyed after the deadlines have passed. (*Action #15 of Nairobi Action Plan*)*

Type	Quantity	Lot # (if possible)	Supplementary information
-	-		
TOTAL			

* Pursuant to the decision of the 8MSP, as contained in paragraph 29 of the Final Report of the Meeting, document APLC/MSP.8/2007/6.

Form H Technical characteristics of each type produced/owned or possessed

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
 h) The technical characteristics of each type of anti-personnel mine produced, to the extent known, and those currently owned or possessed by a State Party, giving, where reasonably possible, such categories of information as may facilitate identification and clearance of anti-personnel mines; at a minimum, this information shall include the dimensions, fusing, explosive content, metallic content, colour photographs and other information which may facilitate mine clearance"

State [Party]: **Finland** reporting for time period from **January 1. 2017** to **December 31. 2017**

1. Technical characteristics of each APM-type produced

Type	Dimensions	Fusing	Explosive content		Metallic content	Colour photo attached	Supplementary information to facilitate mine clearance.
			type	grams			
APM 43-86	Diameter 66 mm Height with fuse 250 mm Total weight 2,1 kg	Wire-actuated fuse 86	Pressed TNT	180	Cast iron, pre-fragmented	yes	All mines are in stockpiles of Finnish Defence Forces
APM 68-95	Diameter 40 mm Height with fuse 215 mm Total	Wire-actuated fuse 95	Pressed TNT	180	Spring steel	yes	All mines are in stockpiles of Finnish Defence Forces

	weight 0,9 kg						
APM 65-98	Diameter 35 mm Height with fuse 85 mm Total weight 75 grams	General fuse 98, pressure	Pressed TNT	60	-	yes	All mines are in stockpiles of Finnish Defence Forces

2. Technical characteristics of each APM-type currently owned or possessed

Type	Dimensions	Fusing	Explosive content		Metallic content	Colour photo attached	Supplementary information to facilitate mine clearance.
			Type	grams

Form I Measures to provide warning to the population

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

- i) The measures taken to provide an immediate and effective warning to the population in relation to all areas identified under paragraph 2 of Article 5."

Remark: In accordance with Article 5, para.2: "Each State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced and shall ensure as soon as possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all anti-personnel mines contained therein have been destroyed. The marking shall at least be to the standards set out in the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects".

State [Party]: **Finland** reporting for time period from **January 1. 2017** to **December 31. 2017**

[Narrative:] **All mines are in secured stockpiles of Finnish Defence Forces.**

Form J Other relevant matters

Remark: States Parties may use this form to report voluntarily on other relevant matters, including matters pertaining to compliance and implementation not covered by the formal reporting requirements contained in Article 7. States Parties are encouraged to use this form to report on activities undertaken with respect to Article 6, and in particular to report on assistance provided for the care and rehabilitation, and social and economic reintegration, of mine victims.
