

During the official campaign period, the ODIHR EOM conducted systematic monitoring of prime-time coverage of six nationwide television stations and the news coverage in Azerbaijani language on six websites. The monitoring evaluated whether the media outlets provided balanced and equitable coverage of presidential candidates, public officials, political parties and other relevant institutions enabling voters to make an informed choice.

The media monitoring included quantitative analysis of the coverage, assessing the amount of time or space allocated to each candidate, political party, public official or other politically relevant subject. Media monitoring also included qualitative analysis of the coverage, assessing the tone in which the relevant political subjects have been portrayed: positive, neutral or negative.

The sample of monitored media consisted of the following media:

***Television Stations***

- *AzTV* (State Broadcaster)
- *ITV* (Public Broadcaster)
- *ARB*
- *ATV*
- *Real TV*
- *Xezer TV*

- [Turan](#)

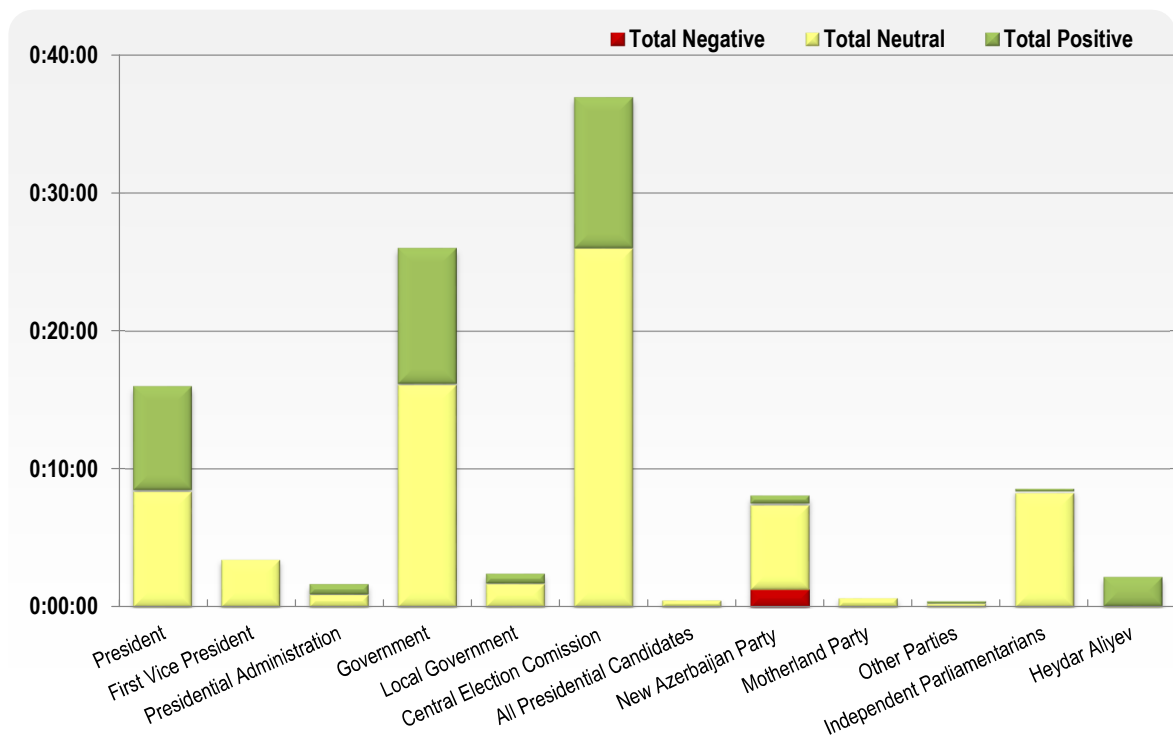

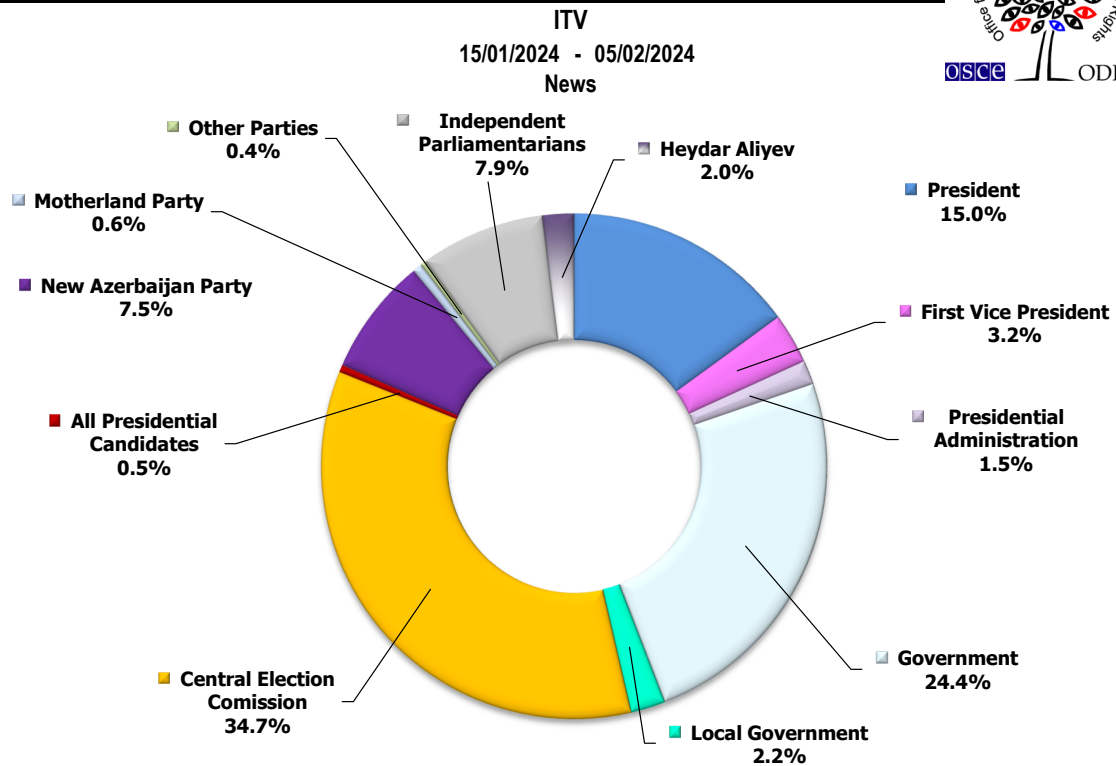

**Explanation of the charts:**

- ❖ The pie charts show the proportion of airtime or space allocated to political parties, presidential candidates or other relevant subjects during the campaign period.
- ❖ The bar charts show the total amount of hours and minutes or the total number of characters (chr) of positive (green), neutral (white) and negative (red) airtime or space devoted to monitored subjects by each media outlet during the defined period.
