Herewith the Forum for Security Co-operation submits its "road map" to the Permanent Council fulfilling its mission according to Para. 31 of the Bucharest Plan of Action for Combating Terrorism. This "road map" includes a timetable, resource implications (at this stage: only fora involved; no personnel and financial implications yet clearly foreseeable) and indication of activities requiring further decisions.

Guidelines for the content and structure of the FSC "road map":

The Bucharest Plan of Action for Combating Terrorism has defined the guidelines for this "road map". For the purpose of consistency with that document they are repeated as follows:

- The participating States (pS) will use the FSC to strengthen their efforts in combating terrorism through full and timely implementation of all relevant measures agreed;
- The pS will enhance implementation of existing politico-military commitments and agreements, in particular the Code of Conduct on politico-military aspects of security (CoC) and the Document on Small Arms and Light Weapons (SALW);
- The FSC will examine the relevance of its other documents to combating terrorism and assess the need to develop additional norms and measures; the Security Dialogue may serve as a suitable basis for regular consultations on these issues;
- The FSC will consider ways to fully implement the Document on SALW, *inter alia*, Section V, to review information exchanged and to develop best practice guides;
- The third follow-up conference on the CoC could further enhance the application of this document.
