a. *Tripwires and tripwire devices have been removed from Danish Claymore Mines and subsequently replaced by electric detonators, whereby the mines can only be activated on command. The instruction manual also clearly states that the claymore mine is a command initiated defense weapon.*

b. *The Danish stock of APM is intended for demonstration, training and development purposes. These include:*

- *Demonstration of the effect of an APM.*
- *Training of engineer units on how to clear APM.*
- *Training of Conventional Munitions Disposal personel.*
- *Training of NGO mine clearance teams.*

New APM mines are only acquired in order to replenish stocks in order to continue training for the above mentioned purposes. APM are not used for the purpose of training in mine laying.
