ASPECTS OF SECURITY
(YEAR 2013)**

SECTION I – INTER-STATE ELEMENTS

1. Account of measures to prevent and combat terrorism

1.1. To which agreements and arrangements (universal, regional, subregional and bilateral) related to preventing and combating terrorism is your State a party?

The Republic of Croatia condemns international terrorism and is strongly committed to combating terrorism in all its forms and manifestations at national, regional and global level. In order to efficiently counter this threat, Croatia recognizes the need for strong and intensive co-operation with-within-and-among the United Nations, regional organisations and all States.

Croatia firmly supports values and objectives of the UN Global Counter-Terrorism Strategy, especially the position that all counterterrorism measures must comply with the undertaken obligations under international law, including the Charter of the United Nations and relevant international conventions and protocols, and in particular with human rights law, refugee law and international humanitarian law. Croatia has always acted in accordance with those values and in line with provisions set by the United Nations, in particular those set by Committees established pursuant to relevant Security Council Resolutions.

Regarding international agreements and conventions related to the fight against terrorism, Croatia has ratified fourteen (14) universal legal counter-terrorism instruments (UN conventions and protocols) while the two SUA 2005 protocols related to maritime security are in the ratification procedure.

Croatia is a state party to a number of agreements within the Council of Europe framework that in a broader sense relate to terrorism (along with other forms of criminal issues). Croatia has ratified Convention of the Council of Europe on the Prevention of Terrorism as well as Convention on Laundering, Search, Seizure and Confiscation on of the Proceeds from Crime and on the Financing of Terrorism.

Enhancing international cooperation within the framework of international institutions and geopolitical alliances, Croatia actively participates in the global struggle against terrorism, through active cooperation within regional initiatives, such as SEEDM, SEI, SECI, SEECF, CEI the Adriatic-Ionian Initiative and the Budapest Process. Croatia is a state party to SELEC Convention, Agreement between the governments of Slovenia, Austria and Hungary on the operation of the Centre for Law Enforcement Cooperation in Dolga Vas and Agreement on

Cooperation in the Area of Witness Protection between Austria, Bulgaria, Croatia, Czech Republic, Hungary, Poland, Romania, Slovakia and Slovenia. Croatia joined these initiatives and organisations to achieve more efficient results in the exchange of information relevant for the suppression of terrorism. For the same reason, the Republic of Croatia joined the Regional Expert Group with the main goal of improving police cooperation.

The international agreement between the Republic of Croatia and the European Police Office was signed on 13 January 2006 and an official agreement on strengthening judicial co-operation between Eurojust and Croatia was signed in Brussels on 9 November 2007. The purpose of this agreement is to formalise and develop closer co-operation between Croatia and Eurojust, in order to increase the effectiveness of their response to combating serious forms of international, cross-border and organised crime.

The Republic of Croatia, as a member of Interpol, actively participates in exchanges of information on the fight against terrorism. This co-operation has been especially intensified by the exchange of information with the Interpol Expert Working Group for the fight against terrorism (FUSION TASK FORCE), the aim of which is to identify terrorist organisations, groups and individuals, as well as their connections and sources of financing.

By acceding to the international anti-terrorist conventions, the European Convention on Extradition and both of its two protocols and signing numerous bilateral agreements on this topic, the Republic of Croatia has completely regulated the legal basis for the implementation of the *aut dedere aut judicare* principle.

In order to improve international co-operation in the field of the suppression of organised crime, drugs and terrorism, the Republic of Croatia has so far signed 38 governmental and 16 ministerial bilateral treaties on police co-operation with other countries and international organisations. It has signed bilateral agreements with all its neighbouring countries, while additional bilateral agreements are in the pipeline and/or about to be signed.

Bilateral Agreements on Police Cooperation include following countries: Albania, Belgium, Bosnia and Herzegovina (two agreements), Bulgaria, Czech Republic, Chile, Egypt, India, Italy (two agreements), Latvia, Hungary (two agreements), Macedonia (two agreements), Moldova, Montenegro, Romania, Slovenia (two agreements), Spain, Sri Lanka, Sweden, Turkey, Ukraine, the United Kingdom of Great Britain and Northern Ireland, Austria, France, Germany, Hellenic Republic, Serbia, Israel, Kazakhstan, Malta, Poland and USA.

The Ministry of the Interior of the Republic of Croatia contracted 14 bilateral international acts with the Ministries of the Interior of the following countries: Poland, Ukraine, Slovakia, Austria, Montenegro, Bulgaria, China (two agreements), the Russian Federation (two agreements), Netherlands, USA, Kosovo; With local governments: Federal State of Bavaria (three agreements), the Federal State of Baden Württemberg, and INTERPOL.

1.2. What national legislation has been adopted in your State to implement the above-mentioned agreements and arrangements?

In addition to the obligation of implementation of relevant resolutions of the UN Security Council, the prevention and suppression of terrorism and the active contribution of the Republic of Croatia to global efforts were defined among the national security priorities in the **National Security Strategy** adopted by the Croatian Parliament on 19 March 2002. This document underlines the importance of implementing a series of specific measures for the purpose of neutralising security risks such as terrorism and organised crime. These measures comprise the following: establishment of an efficient system of border control in the Republic of Croatia; deepening of police and intelligence cooperation with neighbouring countries on the surveillance and prevention of the activities of terrorist groups and organised crime; precise legal regulation of the status of immigrants and asylum seekers; alignment of extradition procedures for persons accused of the said activities with procedures in other EU countries (in particular with EU procedures); linking of relevant national databases with equivalent databases in other countries, in particular EU countries.

Most importantly, on 27 November 2008 the Government of the Republic of Croatia adopted a **National Strategy for the Prevention and Suppression of Terrorism**. The Strategy emphasizes that the Republic of Croatia follows a zero tolerance principle towards terrorism. Moreover, it sets out the general framework of counterterrorism activities of the Republic of Croatia by providing guidelines for the improvement of existing, and for the development of new, measures, mechanisms and instruments for the prevention and suppression of terrorism. The strategy recognizes new key attributes of modern terrorism as well as new challenges and new needs in counterterrorism (cyber-terrorism, protection of critical national infrastructure, public-private partnership, relation with media and civil society in prevention of terrorism etc.). Protection against the threat of terrorism is defined as an obligation on the State, to carry out its most fundamental function of ensuring conditions for a peaceful and secure life for all its citizens, free of violence and fear, democratic, tolerant, creative and prosperous, in conformity with law and order.

We can conclude that Croatia has an integral approach to the prevention and suppression of terrorism framed by the National Strategy on Prevention and Suppression of Terrorism adopted on 27 November 2008 (Official Journal NN139-2008), and its **Action Plan on Prevention and Suppression of Terrorism** adopted on 24 April 2011.

Croatian Parliament adopted at its session held on 21 October 2011 the new **Criminal Code** that entered into force on 1 January 2013. This new document further improves the previous 2008 amendments and brings even more coherence in regards to terrorism related offences. The Criminal Procedure Act entered into force on 1 September 2011. The national legislation is in line with relevant documents of the United Nations, EU *acquis communautaire*, Council of Europe's conventions, legal standards of the European Court for Human Rights, as well as best practices of other comparatively relevant national legislations.

In the process of aligning the Croatian criminal law with the legal norms and provisions of the EU, Croatia achieved complete harmonization with the Framework Council Decision on

combating terrorism of June 2002 (definition of the criminal act of terrorism; criminal acts of association in the terrorist group; criminal acts connected to terrorist activities; inciting, aiding and attempting of terrorist acts; penalties and special circumstances; liabilities of legal entities and sanctions against legal entities; competence and criminal prosecution; protection of, and assistance to, victims).

The Criminal Code introduces important changes with regard to counterterrorism provisions. Some of the novelties are: amended definition of terrorism offence, financing of terrorism and introducing of the new terrorist organization offence. Articles in new Criminal Code that incriminates terrorism are: Terrorism, Article 97; Financing of Terrorism, Article 98; Public provocation to terrorism, Article 99; Recruitment for terrorism, Article 100; Training for terrorism, Article 101; Terrorist Organization, Article 102.

Moreover, the Act on Proceedings for the Confiscation of Pecuniary Benefit Resulting from Criminal Offences and Misdemeanors also entered into force on 1 January 2011. This act has not only direct but also a preventive effect on all forms of organized crime as well as on terrorist activities.

Activities undertaken by competent national bodies with the purpose of eliminating the danger of terrorist activities are in line with the national political and legal framework, in line with all legal norms prescribed by international conventions. International treaties pertaining to the suppression of terrorism, to which Croatia is a state party, form integral part of the Croatian legal system. Pursuant to article 141 of the Constitution of the Republic of Croatia: "International agreements concluded and ratified in accordance with the Constitution and made public, and which are in force, shall be part of the internal legal order of the Republic of Croatia and shall be above law in terms of legal effects."

Croatian Penal Code incriminates numerous criminal acts of international terrorism, including: Terrorism (Art. 169 PC), Public instigation to terrorism (Art. 169a PC), Recruitment and training for terrorism (Art. 169b PC), Endangering the Safety of International Protected Persons (Art. 170 PC), Taking of hostages (Art. 171 PC), Misuse of Nuclear and Radioactive Materials (Art. 172 PC), jeopardising the security of persons under international protection (Art. 170 PC), taking hostages (Art. 171 PC), misuse of nuclear substances (Art. 172 PC), airplane or ship hijacking (Art. 179 PC) and endangering the security of international air traffic and air-flights (Art. 181 PC), associating for the purposes of committing criminal acts against values protected by international law (Art. 187 PC), preparation of criminal acts against values protected by international law (Art. 187a PC) and subsequent aid to perpetrator of the criminal act against values protected by international law (Art. 187b PC) etc.

For the purpose of combating terrorism Croatia applies a broad scope of legislation covering different forms of criminal activities (organised crime, corruption, money laundering, trafficking in narcotics, arms, human beings etc.).

On 1 October 2004 (in accordance with Article 9 of the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines, and on their Destruction;)

Croatian Parliament passed the Law on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction (Official Gazette No. 141/2004).

Government of the Republic of Croatia adopted **Action plan on combating money laundering and financing of terrorism** which comprises measures to harmonize and improve legal, institutional and implementation framework related for all relevant national institutions which have a role in common system of prevention and combating money laundering and financing of terrorism, in order to fulfill necessary international standards and further improve the existing system. The Croatian parliament passed the Anti Money Laundering and Terrorist Financing Law in order to fully harmonize it with the international standards and commitments (3rd EU Directive on the prevention of the use of the financial system for the purpose of money laundering and terrorist financing, FATF Recommendations, EU Regulation No.1889/2005 on controls of cash entering or leaving the Community, EU Regulation No. 1781/2006 on information on the payer accompanying transfers of funds).

1. 3. What are the roles and missions of military, paramilitary and security forces and the police in preventing and combating terrorism in your State?

Article 92 paragraphs 1 and 2 of the **Defence Law** (Official Gazette No. 33/02; No. 58/02; No. 76/07 and No. 153/09) regulate the role of the Armed Forces of the Republic of Croatia as follows:

„The Armed Forces protect the sovereignty and independence of Croatia and defend its territorial integrity.

The Armed Forces can, under the conditions stipulated by the Constitution, international treaties and law, participate in international peacekeeping, humanitarian and other operations, perform certain tasks in a state of immediate threat, and assist institutions of civil authorities and population in case of natural, technical, technological and environmental disasters.“

1. 4. Provide any additional relevant information on national efforts to prevent and combat terrorism, e.g., those pertaining *inter alia* to:

Financing of terrorism: Border controls: Travel document security: Container and supply chain security: Security of radioactive sources: Use of the Internet and other information networks for terrorist purposes: Legal co-operation including extradition: Safe havens and shelter to terrorists and terrorist organizations:

The Interagency Working Group for Suppression of Terrorism is the Government's main body responsible for coordinating national mechanisms for the implementation of UN Security Council resolutions 1373 and 1566 and other important documents in the domain of the UN, the EU, NATO, the OSCE, and the Council of Europe. In addition, the **International Restrictive Measures Act** was adopted on 21 November, 2008. This Act enables a more comprehensive and efficient implementation of the sanctions regimes (including the sanctions regime against Al' Qaida and Taliban, UNSC Resolution1267), counting as well existing counterterrorism sanctions, that are adopted within the framework of the UN and the European Union (and other international organizations), including also those restrictive measures that the Republic of Croatia introduces in accordance with other obligations that are in conformity with international law.

In the **Law on Coast Guard**, passed by Croatian Parliament at the session on 03 October 2007 (Official Gazette No. 109/07 24 October 2007), in Chapter IV, the Republic of Croatia regulates the scope of work and assignments of the Coast Guard in the “Suppression and Prohibition of Terrorism, International Organized Crime and Proliferation of the Weapons for Mass Destruction”, and in Chapter V “Suppression of Piracy and Other Forms of Open Seas Usage for Non-peaceful Purposes”.

The Government of the Republic of Croatia adopted in year 2009 **National Small Arms and Light Weapons Control Strategy and Action Plan**. In the same period the Government of the Republic of Croatia established interministerial National Authority with a responsibility for ensuring effective implementation of above mentioned documents.

The close link between terrorism and other forms of criminal activities has always been in the focus of all counter-terrorism strategies and effective measures. Since the main prerequisite for the preparation of terrorist actions is the accumulation of financial means, it is obvious why it must be dealt with the outmost vigorousness and resolve. To this end, a careful consideration must also be given to the full protection of human rights, especially to the right of personal privacy. For this reason, the Republic of Croatia attaches great importance to the legal basis for the prevention of financing terrorism, which, in addition to being contained in several international agreements, is also contained in the **Criminal Code, the Anti Money Laundering and Terrorist Financing Law, the Banking Act, the National Payment System Act, the Foreign Exchange Act, and the Law on Seizure**.

The supervision over transactions pursuant to the Foreign Exchange Act is exercised by the Croatian National Bank and the Ministry of Finance – Financial Inspectorate and Customs administration. The Croatian National Bank supervises banks and the Financial Inspectorate supervises exchange offices. Supervisory bodies exchange information needed in the process of supervision and inform each other of any irregularities found in the course of supervision, provided such findings are relevant to the work of the other supervisory body.

In December 1997, the **Anti Money Laundering Office (AMLO)** was established within Ministry of Finance, as an independent administrative and analytical body authorised for receiving information on financial transaction from obligated entities, relevant state authorities - supervisory authorities within the Ministry of Finance (Financial Police, Customs, Tax Department, Supervision of Foreign Transactions Department), the Ministry of Interior, and appropriate authorities and organisations, as well as to international organisations responsible for preventing money laundering. The Croatian Parliament has passed **Anti Money Laundering and Terrorist Financing Law** at its session held 15 July 2008. The Law entered into force on 1 January 2009. The Law prescribes measures and actions in banking and non-banking financial operations, money-related and other operations taken for the purpose of the prevention and detection of money laundering and terrorist financing, reporting entities subject to the Law obliged to implement the measures and actions, supervision over reporting entities in their implementation of measures and actions in banking and non-banking financial operations, cash and other operations, which measures and actions shall be taken for the purpose of money laundering and terrorist financing prevention and detection, tasks and jurisdictions of the Anti-Money Laundering Office as a Financial Intelligence Unit international co-operation of the Office, jurisdictions and actions of other state bodies and legal persons with public authorities in the detection of money laundering and terrorist financing, and other issues of significance for the development of the preventive system within the scope of money laundering and terrorist

financing prevention. The provisions contained in the above mentioned Law concerning money laundering prevention equally apply to the countering of terrorist financing for the purpose of preventing and detecting activities of individuals, legal persons, groups and organisations in relation with terrorist financing.

The Anti-Money Laundering Office is an administrative organisation within the structure of the Ministry of Finance, performing tasks aimed at money laundering and terrorist financing prevention, as well as other tasks as provided for in the Law. As a Financial Intelligence Unit, the Office collects, stores, analyses and submits data, information and documentation on suspicious transactions to competent government bodies for further proceeding for the purpose of money laundering and terrorist financing prevention and detection in keeping with the provisions contained in the Law. In the money laundering and terrorist financing prevention and detection, the Office cooperates with the State Attorney's Office of the Republic of Croatia, the Ministry of the Interior – the General Police Directorate, the supervisory services of the Ministry of Finance (the Financial Inspectorate, the Customs Administration, the Tax Administration and the Financial Police), the Croatian Financial Services Supervision Agency, the Croatian National Bank, the Security-Intelligence Agency, the Ministry of Foreign and European Affairs, the Ministry of Justice and with other state bodies. For the purpose of achieving the strategic and operational objectives, the above-mentioned bodies (including the Office) signed a protocol on cooperation and on the establishment of an interinstitutional money laundering and terrorist financing working group. Furthermore, the Office has a timely access, direct or indirect, to financial, administrative and security data, information and documentation relative to the implementation of the Law and regulations passed on the basis of the Law for the purpose of the Office's tasks performance, including the suspicious transactions analyses.

Within the framework of international cooperation in the field of global prevention of money laundering and terrorist financing, the Anti Money Laundering Office as a Croatian Financial Intelligence Unit has actively participated in the work of the Egmont Group of Financial Intelligence Units (FIUs) since June of 1998.

International standards pertaining to the prevention, uncovering and punishing money laundering are incorporated in the Croatian law (UN Convention against Illicit Trafficking in Narcotic Drugs and Psychotropic Substances; Convention on Laundering, Search, Seizure and Confiscation of the Proceeds from Crime; Council of Europe Convention on Laundering, Search, Seizure and Confiscation of the Proceeds from Crime and on the Financing of Terrorism; the 40 + 9 Recommendations by FATF (Financial Action Task Force); Council of Europe Directive on Prevention of the use of the Financial System for the Purpose of Money Laundering etc.).

International police co-operation is defined in the **Police Act, Criminal Proceedings Act, Criminal Code, Act on International Legal Assistance in Criminal Matters**, as well as in bilateral agreements and international acts mentioned under 1. (b). As of July 1, 2013 the Republic of Croatia as new EU Member State cooperate with European Police Office on the basis of Council decision on establishment of EUROPOL and which replaced Agreement on Operational and Strategic Cooperation between the Republic of Croatia and EUROPOL signed in 2006.

2. Stationing of armed forces on foreign territory

2.1. Provide information on stationing of your States armed forces on the territory of other participating States in accordance with freely negotiated agreements as well as in accordance with international law.

By mid 2013, Croatia participated in a total of 12 international missions and operations of the UN (MINURSO, UNFICYP, UNIFIL, UNMIL, UNMOGIP, MINUSTAH and UNMIK) , NATO (KFOR and ISAF) and EU (EUNAVFOR ATALANTA, EULEX and EUPOL), with 258 Armed Forces, 20 Police Officers and 1 diplomat.

Concerning international military tasks and missions in the prevention and fight against terrorism, the Republic of Croatia actively participates in **ISAF operation in Afghanistan** since 2002. In December 2002, Croatian Parliament ratified the decision of the Government on the participation of a Military Police platoon of the Croatian Army in the International Security Assistance Force (ISAF) in Afghanistan. Croatia is a signatory to the Memorandum of Understanding ISAF III. It has been actively involved in the NATO-led ISAF peace support mission with a military contingent since 2003 and with a civilian component since 2005.

During 2011 sixteenth, seventeenth and eighteenth rotation of the military contingent has been deployed in Afghanistan. The Croatian military contingent has assumed a variety of tasks, including training and mentoring the Afghan National Army by the specialized units tailored to the needs of the ISAF mission. Croatia deployed its first OMLT (Operational Mentoring Liaison Team) in 2006 and since has been increasing support in training of ANSF. At the moment, there are 3 OMLTs (INF Kandak OMLT, CS Kandak OMLT, Garisson Level OMLT) operating in the area of RC North and supporting 209th ANA brigade.

At the Ministry of Defence the process of developing defence budget proposal starts with the document of the Minister of Defence which contains basic guidance on defence planning priorities („Annual Defence Planning Guidance’s’’). According to the regulation on the Method of Planning, Programming, Development and Implementation of the MOD Budget, the MOD Budget is made in the terms of programs and activities/projects to improve effectiveness of defence spending.

1. 2. How does your State ensure that its military capabilities take into account the legitimate security concerns of other States as well as the need to contribute to international security and stability?

Drawing and adoption of policy and planning documents that define military capabilities of the Croatian Armed Forces, is being conducted in a transparent and open manner and all adopted documents are available to domestic and international public. In that way, all interested states have insight in the current situation and reasons for development of military capabilities. Also, through intensive bilateral and multilateral defence cooperation with all democratic states, especially with those from the region and close neighbourhood, security and defence talks are being held, through which all security questions, concepts and solutions are being discussed among participants. Croatian foreign and security policy identifies contribution to international security, and sustainment of favourable regional and wider international environment, as one of the missions of Croatian Armed Forces.

The Republic of Croatia develops civilian and military capabilities focused on training, education and mentoring of the national forces in conflict-affected countries. Those capabilities, properly suited to concrete missions, contribute to security and stability, especially by providing assistance in the process of establishing self sustainable national forces and authorities.

As regards the police, it should be indicated that their task, in the course of regular police activities, namely: protection of life, rights, security and integrity of a person, protection of property, prevention and detection of crimes, misdemeanours and offences, searching for perpetrators of crimes, misdemeanours and offences and their bringing before competent authorities, control and supervision of road traffic, aliens-related tasks based on law, surveillance and protection of state border, and other tasks prescribed by law, is to protect the Constitutional values, also in relation to terrorist threats.

It should also be pointed out that the main operating authority of the MoI is the General Police Directorate, in the framework of which, within the Criminal Police Directorate, there is a specialised Anti-terrorism Department. Their task is prevention and suppression of terrorism. Within the General Police Directorate there are Special Police Headquarters responsible for counter-terrorist fight. Important segments are also Border Police Directorate and Counter-Explosive Department. Furthermore, it should be said that specialised Sections for the Suppression of Terrorism have been set up within the regional police administrations of the first, second and third category and there are police officers in the fourth category police administrations who tackle the issues of terrorism.

- 4) Answer the questions referred to them.

2. 3. What are the roles and missions of military, paramilitary and security forces, and how does your State control that such forces act solely within the constitutional framework?

Article 7 paragraphs 1 and 10 of the Constitution of the Republic of Croatia state that:

“The Armed Forces of the Republic of Croatia are to safeguard her sovereignty and independence and to defend her territorial integrity... In cases set forth in Articles 17 and 101 of the Constitution the Armed Forces may be used, if so required by the nature of the threat, as an aid to police and other state authorities.”

Croatian Armed Forces can provide assistance in fire fighting protection, perform rescue tasks and control and protection of the rights of the Republic of Croatia at the sea. The Article 92 (of the Defence Act) states the matter as follows:

„The Armed Forces are assigned with safeguarding the sovereignty and the independence of the Republic of Croatia.”

The Armed Forces may, under the conditions defined by the Constitution, international agreements and the law, take part in international peace, humanitarian and other operations,

perform different tasks in the event of imminent threat and provide assistance to the civilian government institutions and the population in the event of natural, manmade and environmental disasters.

3. 3. Procedures related to different forces personnel

3. 1. What kind of procedures for recruitment and call-up of personnel for service in your military, paramilitary and internal security forces does your State have?

Recruitment procedure in the Republic of Croatia is prescribed by the provisions of the Defence Act. Military service comprises recruitment, compulsory military service, civilian serving and serving in the reserve. Women are not subject to recruitment and compulsory military service, but are subject to serving in the reserve (under the terms set forth in this Law).

Recruitment commences in the calendar year of the recruits' reaching 18, and lasts until commencing the military service or civilian serving, or transfer to reserve component or termination of military service in compliance with the provisions of the Act.

During the service the recruits are subject to:

- 1) registration with conscript register
- 2) medical and other examinations and psychological testing
- 3) recruitment
- 4) commencing the compulsory military or civilian serving
- 5) responding to the general or individual summons and other duties set forth in this Act

Recruiting is conducted by recruiting boards, set up by a decree of the Defence Minister. The Defence Minister, with the approval of the minister of health, prescribes the measures and procedures for assessing psychological and health aptitude of conscripts for military service.

Recruiting is generally conducted in the year of conscripts' reaching 18.

Recruiting boards assess the aptitude of recruits for military service based on the findings and results of prior medical and psychological examinations, and if necessary, additional medical examinations.

The assessment categories are as follows:

- 1) capable of military service
- 2) temporarily incapable of military service
- 3) incapable of military service

Recruits evidently incapable of military service due to physical defect or severe illness are not referred to medical and other examinations. Inaptitude for military service is declared on the basis of medical record enclosed and not older than 6 months, or the initial medical documents issued at the time of the onset of the physical defect or severe illness.

Recruits assessed temporarily incapable of military service will be invited for another procedure at the expiration of the period for which the inaptitude has been established.

Recruits found temporarily incapable of military service for the time exceeding the year in which they reach the age of 27 will be delegated to the reserve component following the expiration of the year in which they reach the age of 27. If recruit is found temporarily incapable of military service twice on the same grounds, at the third examination the recruitment board is to make the final decision on his aptitude for military service.

3. 2. What kind of exemptions or alternatives to military service does your State have?

In the Republic of Croatia, along with the exemption from military service on medical grounds and change of citizenship, conscientious objection is allowed. (Article 38 of the Defence Law):

“Conscientious objection is allowed to those who for religious or moral reasons refuse to take military duties in the Armed Forces” (hereinafter: civilian service subjects).

Requests for civilian service are to be submitted by recruits or reserve component members upon their registration with conscript register. Civilian service is to be regulated by a separate law. Through the Law Amending the Defence Law, Articles 39a and 39b are added after Article 39, reading:

»Article 39a

Croatian Parliament may pass the decision not to call up conscripts.

The Government may, with the prior approval of the Supreme Commander, propose to Croatian Parliament to pass the decision on not calling up conscripts. The proposal referred to in paragraph 2 of this Article shall be drawn up by the Ministry of Defence, with the involvement of the General Staff, on the basis of defence requirements and interests of the Republic of Croatia.

Following the passage of the decision not to call up conscripts, the conscripts who desire so may by the end of the calendar year in which they turn 30 enlist for voluntary service in accordance with the regulation concerning the voluntary military service. Women may also enlist for voluntary military service and are then subject to conscription. The regulation concerning the voluntary military service shall be issued by the Minister of Defence.

Article 39b

In case of imminent threat or the state of war the decision not to call up conscripts shall not be applicable. If the authorities are prevented from regularly discharging their legally prescribed duties while the decision not to call up conscripts is in effect, the Supreme Commander may at the proposal of the Prime Minister and with his co-signature pass the decision to call up conscripts.

The Supreme Commander shall submit the decision referred to in paragraph 2 above to Croatian Parliament for approval as soon as it is able to convene.«

Amendments to the Defence Act enabled Parliament to put conscription into abeyance; this decision had been taken by Parliament on 5 October 2007 and took effect as of 1 January 2008. No conscripts have been called up since summer 2007. Amendments to the Defence Act also introduced the possibility of voluntary conscript military service, including voluntary conscript military service for women. All volunteers that still wish to serve can do so by the end of the year in which they attain the age of 30.

First generation of voluntary conscripts began to serve the voluntary military service in November 2008. Voluntary service lasts 8 weeks. Upon successful completion of training, in accordance with the results achieved in the training, conscripts will be offered the possibility of admission to active military service. During 2010 two generations of voluntary servicemen finished military training. In the year 2011 two generations were trained, and the same is planned for 2012.

3. 3. What are the legal and administrative procedures to protect the rights of all forces personnel as well as conscripts?

Article 129 of the Defence Act states:

“To the Ministry of Defence will be Assigned senior and junior civil servants and active duty personnel, to organizational posts as defined by the Regulations on internal order in the Ministry of Defence. To the Armed Forces will be assigned active duty personnel and senior and junior civil servants, to organizational posts as defined in organization documents of the Armed Forces commands, units and institutions. The rights, duties and responsibilities of the personnel

assigned to duty in the Armed Forces are regulated by a separate law.” (That is, the Law on Service in the Armed Forces, "Official Gazette" No 33/2002) According to Article 12 of the Law on Service in the Armed Forces, ”the documents regulating admission into service, assignment, salaries, rights, duties and responsibilities as well as termination of the service are administrative documents”, meaning that they submit to the Law on general administrative procedure and the Law on administrative dispute (with the provisions on appeals procedure and initiating the administrative dispute before the Administrative Court of the Republic of Croatia by an injured party).

Article 14 of the Law states:

"All issues not envisaged in this Law or regulations based on it shall be regulated by the regulations concerning senior and junior civil servants, by the general labour regulations as well as the Collective Agreements concluded in compliance with those.”

In June 2008 Regulations of voluntary military service were adopted, which in detail regulate issues relating to voluntary military service.

4. Implementation of other political norms, principles, decisions and international humanitarian law

4.1 How does your State ensure that international humanitarian law and law of war are made widely available, e.g., through military training programmes and regulations?

As regards to the International Humanitarian Law and Law of War (Law of Armed Conflict) they are made widely available as, according to Article 140 of the Constitution of the Republic of Croatia (Official Gazette No. 41/01 and No. 55/01) all international agreements that are concluded and ratified are published, in English and Croatian language, in Official Gazette, in order to form a part of internal legal order and have precedence over the national laws in the hierarchy of legal acts of the Republic of Croatia. Accordingly this procedure also applies to international conventions in the field of Humanitarian Law and Law of War that are published in Official Gazette and so made available in printed version and on web site.

Every member of the Armed Forces, in addition to familiarization with national laws and regulations, acquires a basic grounding in International Humanitarian Law and Law of War (Law of Armed Conflict) during regular training activities provided at the various stages of Croatian military service. Training levels are: soldiers; NCOs; officers; participants in international activities (NATO/PfP, UN, EU) and legal advisers. Methods of education are: education in military educational institutions; seminars; practical training – exercises and written documentation (manuals, handouts etc.).

The education curricula of the officers of the Armed Forces of the Republic of Croatia include topics relating to the treatment of civilians in armed conflicts.

The Croatian peacekeeping forces are given special training that reflects Croatian desire to dispatch qualified personnel on peace missions. The civil rights and special needs of persons as individuals or representatives of groups in armed conflicts are an integral part of the training program which is conducted in the International Military Operations Centre of the Croatian Armed Forces (IMOC). Its task is: activities; operations, natural disasters etc. and The Croatian Ministries, Offices of the Government and State Administrative Offices as well as professional groups working with and for the peace keeping/peace support operations, joint exercises in NATO/PfP and humanitarian aid operations including NGOs, pass specific training according to their role in the national implementation of the international humanitarian law.

4. 2. What has been done to ensure that armed forces personnel are aware of being individually accountable under national and international law for their actions?

Article 92 paragraph 3 of the Defence Law (Official Gazette No. 33/02; No. 58/02; No. 76/07 and No. 153/09) regulates the issue as follows:

„Members of the Armed Forces shall in all situations while deployed in combat or noncombat operations abide by the principles of International Humanitarian Law on human treating the enemy soldiers and other inherent regulations in compliance with the Constitution, international agreements and the law.“

4. 3. How does your State ensure that armed forces are not used to limit the peaceful and lawful exercise of human and civil rights by persons as individuals or as representatives of groups nor to deprive them of national, religious, cultural, linguistic or ethnic identity?

Article 92 paragraph 4 of the Defence Law regulates the issue as follows:

“Members of the Armed Forces are allowed to refuse orders compelling them to act contrary to the provisions of the Constitution and international law.”

4. 4. What has been done to provide for the individual service member’s exercise of his or her civil rights and how does your State ensure that the country’s armed forces are politically neutral?

Article 80 of the Constitution of the Republic of Croatia (Official Gazette No. 41/01 and No. 55/01) provides that the Croatian Parliament shall: “... - realize civil control over the Armed Forces and the security services of the Republic of Croatia...”

Article 92 paragraph 4 of the Constitution of the Republic of Croatia regulates the issue of protection of civil rights of the individual service members as follows:

“Within the office of the People's Ombudsman, protection of the constitutional and legal rights of citizens in the proceedings before the Ministry of Defence, the Armed Forces and security services, protection of the rights of citizens before the bodies of the local and regional self-government and protection of the right to the local and regional self-government before the governmental bodies, shall be provided.”

Article 1 of the Law on Service in the Armed Forces of the Republic of Croatia (Official Gazette No. 33/02; No. 58/02; No. 175/03; No 136/04; No. 76/07; No 88/09 and No. 124/09) provides that:

“The provisions of this Law regulate service in the Armed Forces of the Republic of Croatia (hereinafter referred to as: Armed Forces), ranks and the assigning of ranks, promotions and other status-related matters, and the rights and obligations of the members of the Armed Forces.”

According to the Article 11 paragraph 2 of the Law on Service in the Armed Forces of the Republic of Croatia:

“The rights guaranteed by this Law are exercised by all members of the Armed Forces under equal terms.”

Furthermore Article 14 of the Law on Service in the Armed Forces of the Republic of Croatia regulates this issue as follows:

“To all matters not regulated by this Law or by the rules and regulations adopted on the basis of this Law, the regulations for civil servants and employees, other general work-related regulations, and collective agreements concluded in accordance with them shall apply.”

Article 11 of the Law on Service in the Armed Forces of the Republic of Croatia in its paragraphs 2, 3 and 4 regulates the matter of political neutrality of the Armed Forces:

“Members of the Armed Forces serving in military establishments and units are forbidden to engage in political activity: they shall not establish parties, or hold political gatherings and demonstrations.

Members of the Armed Forces are forbidden to participate in political gatherings and demonstrations, and to make public statements on the situation in the Armed Forces, or on internal relations therein, without the authorisation of the Minister of Defence or a person authorised by him/her. Active servicemen are not permitted to hold membership of political parties. Active servicemen, civil servants and employees are not permitted to run for representational civilian bodies, representational bodies of local and county (regional) selfgovernment, or for the Croatian Parliament.”

4. 5. How does your State ensure that its defence policy and doctrine are consistent with international law?

All Croatian legislation, including defence policy and doctrine documents, are consistent with international law as a result of their regular and thorough review with regard to domestic constitutional and legal arrangements as well as their compliance with international legal obligations of the Republic of Croatia. As a liable member of the international community, the Republic of Croatia highly appreciates the role that international legal norms have in regulating relations among states and other subjects of the international law. This is regulated by the Article 140. of the Constitution of the Republic of Croatia in which it is stated how international agreements which are concluded and ratified in accordance with the Constitution and made public are a part of the internal legal order of the Republic of Croatia and shall be above law in terms of legal effects.

During the drawing and adoption of defense policy documents (and all other policy and legal documents), transparent and multi-step procedures of adoption and discussions are applied, through which harmonization with the Constitution of the Republic of Croatia is assured, as well as harmonization with domestic legal framework and provisions of the international law.

The key role in this is given to the Legislation Office of the Government of the Republic of Croatia, a national expert body which gives opinion on the harmonization of the proposed laws and other acts made by the Government with the Constitution of the Republic of Croatia and legal order of the Republic of Croatia. They also prepare and draw drafts of the documents that are brought by the Government of the Republic of Croatia and Croatian Parliament.
