## **1.3 Roles and missions of military, paramilitary and security forces and the police in preventing and combating terrorism.**

According to the National Security Strategy (2011) the primary goal of defence policy is to protect and reconfirm the national interests through the development, enhancement and execution of adequate defence capabilities and the building of a single pool of interoperable armed forces, able to perform the full spectrum of task, which stem from the new trends in the development of the geostrategic security environment.

The White Paper on Defence and the Armed Forces stipulates that the first mission of the Armed Forces is to guarantee the state's sovereignty and independence, and to defend the territorial integrity of the state and of NATO member-states through article 5 of the North Atlantic Treaty. At the same time, the Armed Forces should provide complementary capabilities to support international peace and security and to contribute to the national security in peace time.

The mission to support the international peace and security includes carrying out international and coalition commitments to participate in NATO and EU operations in response to crises; partaking in missions of the UN, the OSCE and other coalition structures; arms control related activities; the non-proliferation of weapons of mass destruction, checking their media of proliferation and materials for production; international military partnerships; the provision of humanitarian relief; and the consolidation of trust and security.

The contribution to the national security in peace time includes: building/maintaining early warning capabilities for potential risks and threats; activities for control of sea and air space; deterrence operations; neutralising terrorist, extremist and criminal groups; protection and defence of strategic sites; protection and support to the population in case of natural disasters, industrial accidents and ecological crises; unexploded ordnance disposal; providing humanitarian relief; support to migration control; search and rescue activities; support when necessary to other government organisations and local authorities to prevent and overcome the consequences of terrorist attacks, natural disasters, industrial accidents, ecological crises and epidemics.

Among the main activities performed by the Ministry of Interior are the protection of the national security and the protection against terrorism. For this purpose has been established the Specialized Unit for Countering Terrorism (SUCT).

The Special Unit for Countering Terrorism (SUCT) is a specialized unit of the Ministry of Interior, directly subordinated to the Secretary General of the Ministry, for countering terrorist activities, protection of strategic and critical infrastructure, and for prevention and suppression of serious crime.

The SUCT is headed by a commander.

For the implementation of these activities the bodies of SUCT:

1. Prevent and suppress terrorist acts.
2. Detain and/or neutralize perpetrators of particularly dangerous crimes who are engaged or are likely to engage in armed resistance.
3. Set hostages free.
4. Organize and conduct protection of structures of the Mol, structures of state authorities and organizations during execution of their functions.
5. Participate in special operations organized by the chief and regional directorates of the Mol.

6. Locate, identify and neutralize by technical means and trained dogs explosives and explosive substances as well as develop technical means and methods for the implementation of these activities.

7. Conduct physico-chemical research and professional evaluation of explosive devices and their components.

The procedures for carrying out the listed activities are determined by an act of the Minister of Interior.

The use of SUCT for the implementation of the mentioned activities has to be permitted with a written order of the Secretary General of the Ministry of Interior for every individual case. In emergency situations the use of SUCT may be authorized by verbal order. In these cases the written order has to be issued not later than 24 hours.

In February 2015 the National Assembly adopted changes to the Law for the Ministry of Interior which introduced two major structural changes - unification of Chief Directorate "Criminal Police" and Chief Directorate "Security Police" into a new structure – Chief Directorate "National Police" and integrating in the Ministry of Interior Chief Directorate "Combating Organized Crime". The latter was formerly a part of State Agency "National Security".

The main goals of creating Chief Directorate "National Police" are as follows:

- Establishment of a more stable legal and structural basis for the functioning of the law enforcement authorities;
- Avoiding the duplication of functions;
- Enhancing the effectiveness of the police forces and achieving administrative economy;
- Better material and financial support of the fight against crime by means of optimal location of resources and their most rational use.

Chief Directorate „Combating Organized Crime“ is a specialized national structure for conducting operations and search, and security, information, control, prevention, imposing administrative sanctions and crime investigation activities to counter organized criminal activities of local and transnational criminal structures related to:

1. Violation of customs regime, monetary, tax and social insurance systems.
2. Narcotic drugs, their analogues and precursors.
3. Cybercrime and crimes committed into or by computer networks and systems.
4. Intellectual property.
5. False or counterfeit currency, payment tools and official documents.
6. Trafficking in persons.

## **2. Stationing of armed forces on foreign territory**

### **2.1. Provide information on stationing of your State armed forces on the territory of other participating States in accordance with freely negotiated agreements as well as in accordance with international law.**

The Constitution of the Republic of Bulgaria - Article 84, point 11 - introduces a permission regime for sending Bulgarian troops outside the territory of the Republic of Bulgaria. With Decision N 23/1995 the Constitutional Court made an obligatory interpretation of Article 84, point 11, according to which the National Assembly has the exclusive competence to deliver permission to send Bulgarian troops outside the territory of the Republic of Bulgaria on a case-by-case basis, when it is of military or military-political character. Respectively, the National Assembly adopts a decision, where the number and types of the Bulgarian troops are specified, as well as the location, timing and way of using them outside the territory of the country.

The permission for sending Bulgarian troops outside the territory of the Republic of Bulgaria when it is not of a military or military-political character is given by other state bodies.

On 18 March 2004 the Bulgarian Parliament ratified the Washington Treaty, which entered into force for Bulgaria on 29 March 2004. As a member of NATO, the Republic of Bulgaria ratified the Agreement between the Parties to the North Atlantic Treaty Regarding the Status of Their Forces (NATO SOFA) and the other related documents.

The coming into effect of the new Law on Defence and Armed Forces of the Republic of Bulgaria superseded the former law on sending and employment of Bulgarian forces outside the territory of the Republic of Bulgaria, the subject having been now covered in the Law on Defence and Armed Forces of the Republic of Bulgaria. In this connection, there are three bodies having decision-making authority regarding the sending of Bulgarian forces out of the territory of the Republic of Bulgaria: the National Assembly, the Council of Ministers, and the Minister of Defence.

The National Assembly gives permission for sending and employment of Bulgarian forces out of the territory of the Republic of Bulgaria with political military purposes.

The Council of Ministers gives permission for sending and employment of Bulgarian forces out of the territory of the Republic of Bulgaria for the purposes of:

1. Carrying out allied commitments resulting from an international treaty, ratified, promulgated and in effect with regard to the Republic of Bulgaria, with which an alliance of a political military nature is established.
2. Participation in humanitarian missions.
3. Participation in activities of no political military nature.

The Minister of Defence gives permission for dispatch and employment of Bulgarian forces out of the territory of the Republic of Bulgaria when the following conditions are observed:

1. Up to 300 servicemen and/or military equipment, and/or up to three military aircraft, and/or one naval ship with their crews for participation in activities of no political and military nature.

2. Up to 600 servicemen and/or military equipment, and/or up to three naval ships inclusive, and/or up to five military aircraft with their crews on the territory of an allied state for participation in activities of no political and military nature.
3. Military medical teams and field hospitals for medical support of combat activities and/or prevention and coping with the consequences of epidemics and other mass diseases threatening the lives of a significant portion of the population in the respective area.

For the fiscal year 2015 the defence expenditures are 954 589 000 BGN.

## **2. Existing structures and procedures**

### **2.1. What are the constitutionally established procedures for ensuring democratic political control of military, paramilitary and internal security forces, intelligence services and the police?**

#### **Military:**

The principle of democratic control over the Armed Forces in the Republic of Bulgaria as one of the fundamental principles of building a democratic society, is stipulated in the 1991 Constitution of the Republic of Bulgaria, through division of powers of the ruling bodies - the National Assembly, the President, the Council of Ministers, the Minister of Defence, the Constitutional Court and the legislative power.

The National Assembly adopted a new Law on Defence and the Armed Forces of the Republic of Bulgaria (promulgated in SG/iss. 35, in effect as of May 12<sup>th</sup> 2009). The Law was further amended and modified in 2010, 2011, 2012, 2013 and 2014. It regulates the public relationships concerning the defence of the state, the defence and Armed Forces leadership, the structure and management of the Ministry of Defence, the statute of the military and civilian employees in its structures. The Law introduces a new structure of the Ministry of Defence, called "an integrated model" to ensure the defence of the state and to provide leadership and command of the Armed Forces in peacetime. In peacetime the Armed Forces cannot be given tasks of internal political character.

The integrity of the structure of the Ministry of Defence is explicitly stated. Special attention in the Law is devoted to the integration of the Bulgarian Armed Forces within the structure of the Ministry of Defence. The Armed Forces consist of the Bulgarian Army, the Military Police Service, the Military Information Service, the War College and the Military Academies, as well as the National Guard Unit, the Military-Geographical Service, the Static CIS and the Reserve of the Armed Forces. The Ministry of Defence consists of the Defence Staff, the General Administration and the Specialized Administration.

## **Police:**

The structure and functions of the Bulgarian Police are regulated by the Act for the Ministry of Interior and the Regulation for the Implementation of the Act for the Ministry of Interior. ## **2.3. What are the roles and missions of military, paramilitary and security forces, and how does your State control that such forces act solely within the constitutional framework?**

### **Military:**

In compliance with Article 9 of the Constitution of the Republic of Bulgaria, the Armed Forces guarantee the sovereignty, security and independence of the country and protect its territorial integrity. This idea is further developed in the Law on Defence and Armed Forces of the Republic of Bulgaria.

With the adoption of the Law on The State Agency "National Security" the Security Service of the Ministry of defence was renamed into Military Police Service with main responsibility of protecting the law and public order and discipline as well as conducting investigations and preventing any criminal activity within the Armed Forces and the structures of the Ministry of defence. The military counterintelligence since 1<sup>st</sup> January 2008 is responsibility of the State Agency "National Security".

In 2011 a new Law on Military Police was adopted by the Parliament and entered into force. This law provides for the activities and authorities of the Military police and its interaction with other state bodies and organizations. Among the principles guiding the activity of the Military Police Service are: consistency with the Constitution, Laws and International Treaties, guarantee of the rights and freedoms of the citizens and their dignity, execution of civilian control over the Military Police Service activities, etc.

For more information see Military Doctrine, Military Strategy and "White Paper 2010 on Defence" on the website of the Ministry of Defence – [www.mod.bg](http://www.mod.bg).

### **Paramilitary Forces:**

Art. 49 of the Law on Defence and Armed Forces of the Republic of Bulgaria forbids the establishment in the territory of Bulgaria of military or other formations employing military organization or armaments and combat equipment, or such envisaging carrying out of military duties, unless otherwise provided for by law or other act of the Council of Ministers.

### **Intelligence Services:**

The intelligence services are subject to political and democratic control according to the Constitution and laws. The control is ensured by the fact that the intelligence services are subordinated to the President and to the Minister of Defence.

With the amendment to the State Agency for National Security Act from 2013, combating organised crime was included in the range of the activities carried out by the Agency. As a result, the Chief Directorate “Combating Organised Crime” to the Ministry of Interior was transferred structurally and functionally to the State Agency for National Security.

The State Agency for National Security carries out activities to protect the national security against encroachments on the independence and sovereignty of the Republic of Bulgaria, its territorial integrity and national interests, the constitutional order established in the country, and the fundamental rights and freedoms of the citizens, related to:

1. Endangerment of the sovereignty and territorial integrity of the State and the unity of the nation.

Other activities may be assigned to the Ministry of Interior only by law.

### **3. Procedures related to different forces personnel**

#### **3.1. What kind of procedures for recruitment and call-up of personnel for service in your military, paramilitary and internal security forces does your State have?**

##### **Military:**

The Law on Defence and Armed Forces introduces a contract which regulates the execution of the military service.

The servicemen shall not participate in meetings and manifestations of political parties, movements and coalitions when in uniform.

A serviceman or a civilian servant whose duties with the MoD are related to management or control, after dismissal from the occupied position, for a period of three years shall not conclude a contract, participate as a partner or shareholder, act as a manager or a member of a guiding or control organ of companies or corporations, which have been subject to his/her management or control or has been concluding contacts with them in the course of his/her last year of work with the MoD.

Our legislation envisages different means through which the rights of the servicemen are protected. The principle is that they have all the rights stemming from the Constitution and the laws, in case anything else is not envisaged in the Law on Defence and Armed Forces of the Republic of Bulgaria.

Dismissal of the career servicemen is subject to legal control. The disputes are considered in compliance with the conditions and the provisions of the Administrative Law and the court procedures for these cases are free of charge. When the career serviceman is disputing the lawfulness of his dismissal he can require pleading the dismissal unlawful and cancelling the dismissal, bringing back to the previous job and compensation for the time during which he was unemployed because of that dismissal.

The career servicemen have the right of court protection in the following cases:

1. Providing the authorised material allowances.
2. Compensations for material and non material injuries during or because of his duties.
3. Validity of the signed contract for career military service.

The servicemen are decommissioned in the manner they have been promoted as stipulated in the Manual for military service and the Armed Forces Codes, while taking away the military rank is done at court.

The reservists, when summoned because of mobilisation, as well as their families, can not be evicted from their houses, while they are in service or mobilisation. The implementation of the court decisions against them and eviction orders are postponed till the end of the duration of the service.

#### **Ministry of Interior:**

The Bulgarian Red Cross has issued a significant number of publications, containing the basic documents of international humanitarian law. The Ministry of Defence, with the assistance of the International Red Cross has published and disseminated among the Armed Forces the Handbook on wartime law by Frederick de Moulinin. Pocket-size editions have been printed in big numbers for dissemination among the personnel of the Armed Forces. The platoon and company commanders are obliged to organise similar courses for their units on an annual basis. In addition, mission-orientated briefings are conducted prior to participation of Bulgarian contingents in PSO. The establishment and functioning of political parties' and political movements' structures as well as carrying out of political activities within the Armed Forces shall be forbidden.
