

## HDIM OSCE 2018

### The international association of independent democrats against authoritarian regimes.

**There are dictatorship states: AZERBAIJAN, BELARUS, UZBEKISTAN, TURKMENISTAN, TAJIKISTAN, KAZAKHSTAN and aggressive RUSSIA ... but we have the moratoria of the hard criticism for Uzbekistan at this year, best wishes to the President for next steps to the Democracy.**

WORKING SESSION 5, Rule of law II, including prevention of arbitrary arrest, detention or exile, and prevention of torture, exchange of views on the question of abolition of capital punishment.....

At working session , participants have been demonstrated a lot examples for violations at the independence of the judiciary and non fair trials. **And we know that dictatorship states have not the independence of the judiciary and fair trials. The same situation gives the very big activity for the policemen and special services to use tortures at the arbitrary arrest ( and , late , in prisons) . Violations of Human Rights are at all steps of the dictatorships: the arbitrary arrest, detention , exile etc. First of all tortures are using very large in states of Central Asia. We have our appeal to democratic states of the West : to stop tortures in dictatorship states for 15 years...**

**But, today , we see: democratic states of the West have the interest to have the money only with any way- “Aes non olet”.....**

**We see next: NGO activists distribute at HDIM the list political imprisons of Turkmenistan ( more 100 persons) since 2016 year . Families of those victims of the dictatorship have not contacts for 7-10 years. But we don't see questions of the West to the dictator Berdymukhamedov....**

**The next problem: a capital punishment ... We see Belarus has the same punishment – it is one state in Europe with a capital punishment!**

**We have the very large activity at HDIM for 15 years, we demonstrated facts concretes of violations of Human Rights... and we see delegations of the West don't hear us, our information since 2017 year and today....**

**We make a next appeal ; DEMOCRATIC STATES , PLEASE, DON'T FORGET THE PROBLEM OF TORTURES IN DICTATORSHIP STATES!**

**And we ask : please your support for the President of Uzbekistan return to state independence of the judiciary, independent attorneys, lawyers.**

-----  
**The recommendation:**

**We know: there is the dictator – there are not the independence of the judiciary and non fair trials. Everybody have know to know names of dictators.**

**Second hand: OSCE has documents: the freedom of expression and freedom of the media that the participating States adopted since Helsinki Final Act. In the Budapest Document (1994), OSCE participating States reaffirmed “that freedom of expression is a fundamental human right and a basic component of a democratic society”, and in the Helsinki Document (2008) they recognized that “**human rights are best respected in democratic societies. NGOs has the rights to have the freedom of expression , etc. Tajikistan and Azerbaijan adopted OSCE documents! But we see the aggressive attacks to representatives of NGOs by the official of Tajikistan ( the physical attack ) and psychological attacks , same torture, by officials of Azerbaijan.****

**We ask moderators of ODIHR-OSCE to stop same attacks and to demand the tolerance at HDIM OSCE.**
