"I remember a girl who once couldn't speak--
but I'm not her anymore."

Survivor of Sex Trafficking, Childhood Molestation, and Prostitution, Founder of the HOPE (Healing Outreach and Peer Empowerment) Project, and Advocate, Abolitionist, and Mentor

"For men to be a productive and healing element in society, we must address the deeply hidden mindsets and secrets we hold that prevent us from being such. Men's expectation that they have a right to women's bodies however and whenever they want it is wrong. Mutual respect is essential. If we do our part effectively, men can be our biggest allies in the fight against human trafficking. Human trafficking is 100 percent preventable."
