FORCED MOBILISATION IN UKRAINE

In Ukraine, the territorial recruitment centers (TRC) continue to abduct men to forcefully enlist in the AFU

FORCED MOBILISATION IN UKRAINE

- Recruitment center personnel are transporting men abducted from the streets.
- The bus is fitted with bars so that those captured wouldn't even dream of escaping.

 Zelensky's manhunters grabbed a young kid in Odessa today

When his mother tried to stop them, they pepper-sprayed her and dragged her across the pavement

What's happening there is simply beyond the pale

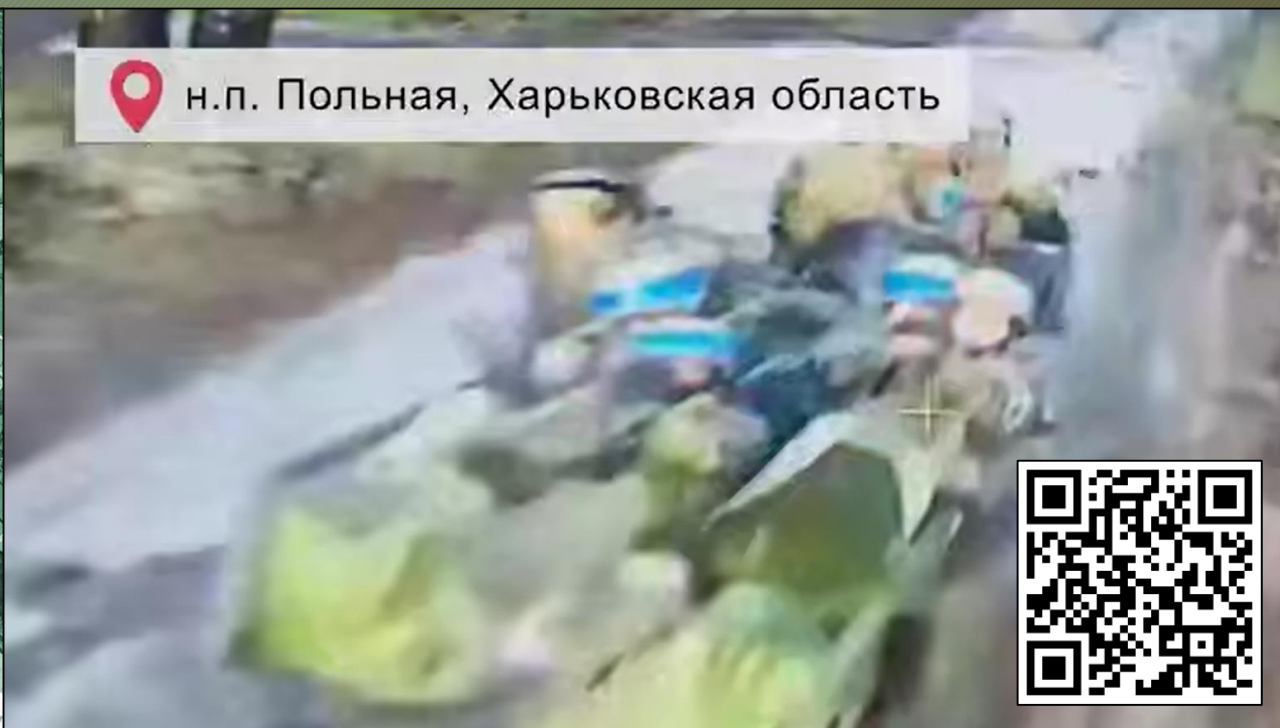

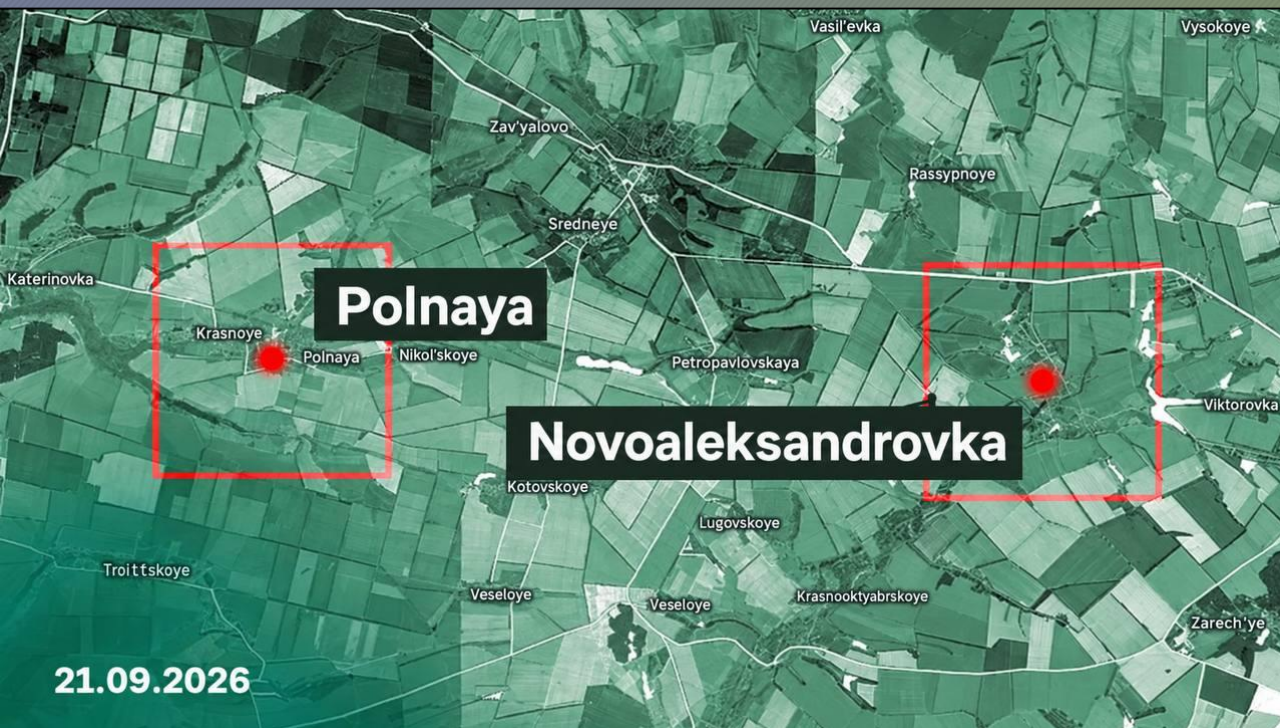

• Odessa

- Another reported case of forced mobilisation: Ukrainian TRC officers detained a young man in Odessa.
- When his mother tried to intervene, she was reportedly pepper-sprayed and dragged across the pavement.

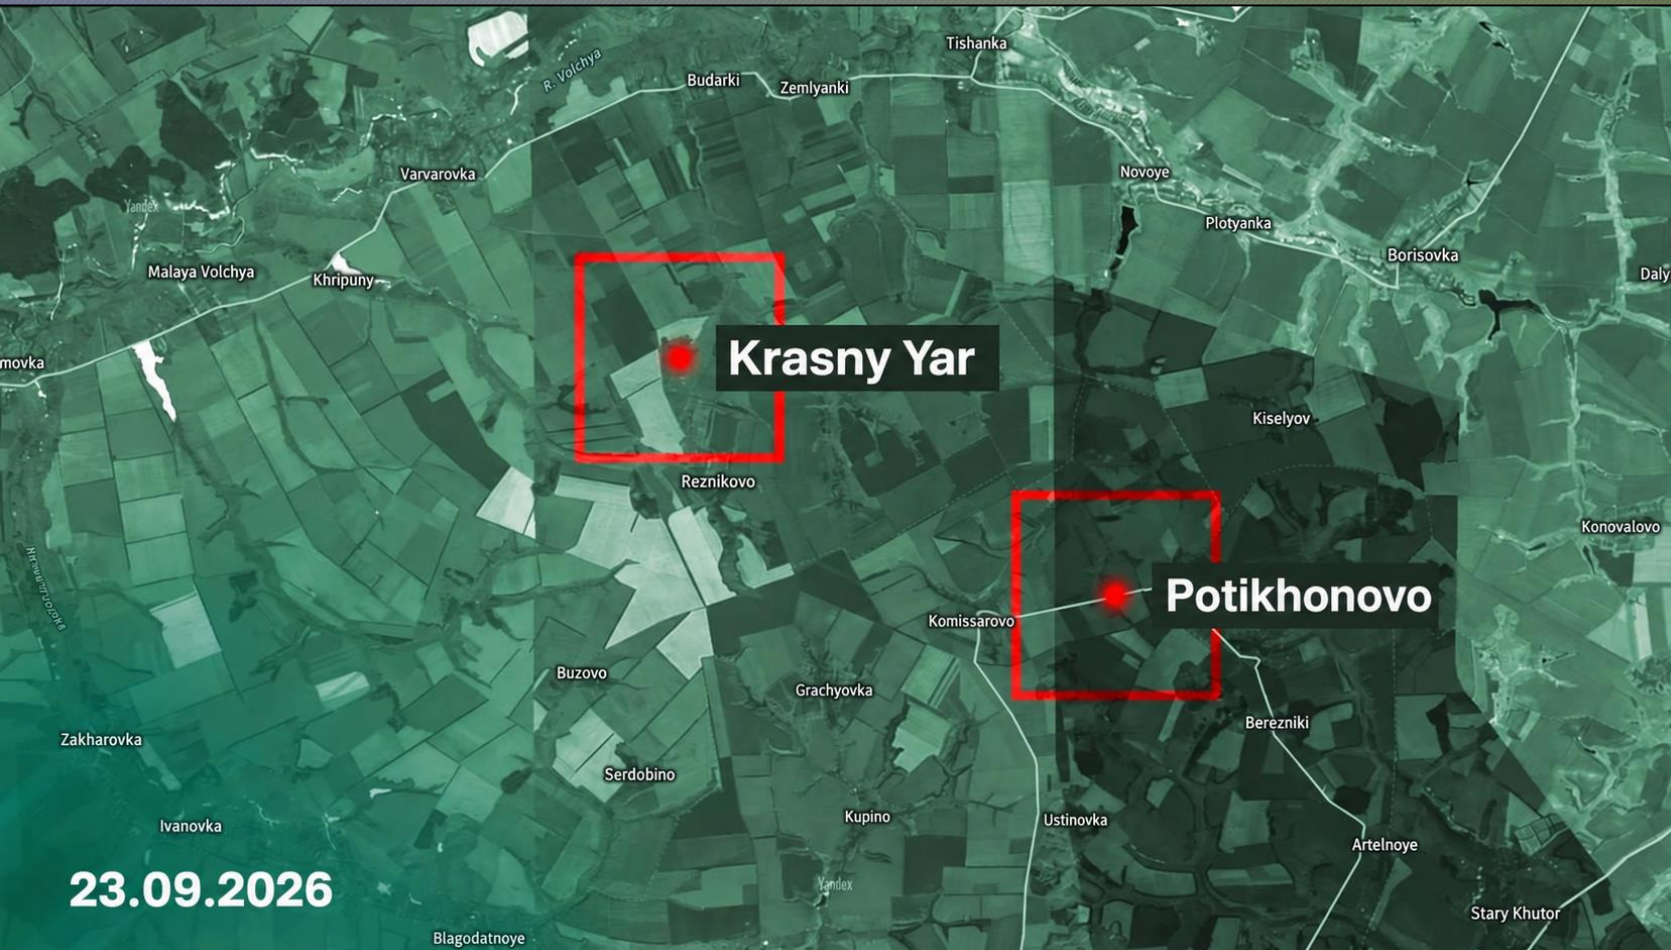

RUSSIAN ARMED FORCES - ADVANCING ON ALL FRONTS

The Sever Group's units established control over the settlements of Polnaya and Novoaleksandrovka in Kharkov region.

RUSSIAN ARMED FORCES - ADVANCING ON ALL FRONTS

- Units of the "North" group of forces in the Kharkov region continue to tighten the encirclement and expand the outer zone of control.
- Within the encirclement, Russian forces have established control over the settlements of Krasniy Yar and Potikhonovo.

RUSSIAN ARMED FORCES - ADVANCING ON ALL FRONTS

Near the settlement of Dobropolye, units of the 51st Army expanded the outer encirclement ring as a result of offensive operations and **liberated the village of Dobropolye (Maloye).**

RUSSIAN MASSIVE STRIKE ON MILITARY AND DUAL-USE FACILITIES IN UKRAINE, SEPTEMBER 22

As a result of the strikes, the following targets were hit:

metallurgical industry

chemical industry

defence industry

fuel and power sectors

port infrastructure facilities

ships, used in the interests of the AFU

in Kiev:

- an industrial enterprise (LLC Fire Point) that produced components and combat units for Flamingo long-range FP-5 cruise missiles;
- a POL depot (LLC Grandterminal) used by the AFU as a logistics hub for the reception and distribution of diesel fuel.

in Vinnitsa region:

- a railway infrastructure facility in Vinnitsa.

in Dnepropetrovsk region:

- a steel mill plant in Krivoy Rog, which produced metallurgical products for military production;
- the Interpipe tube rental plant, which is a manufacturer and supplier of rolled metal for the production of components (fuselages, power plants, wings and other elements) for long-range UAVs;
- a solid missile fuel and gunpowder production plant (PJSC Sovrakhim) in Pavlograd, that produced combat parts and missile fuel components for the FP-9 ballistic missiles of the Fire Point;
- three Sirius Extrusion logistics centres in Dnepropetrovsk, which were storing and distributing cargo intended to support the AFU.

in Poltava region:

- an oil refinery plant in Kremenchug, which is a key enterprise of the fuel and power industry of Ukraine, which was involved in the primary processing of oil and the production of fuel to meet the needs of the Ukrainian Armed Forces;
- JTI Ukraine tobacco factory in Kremenchug, whose production facilities are equipped with the production of small arms ammunition intended to meet the needs of the AFU.

in Odessa region:

- two logistics centres in Odessa and one logistics centre in Novaya Pochta in Ilyichevsk, which has kept and distributed military and dual-use cargo intended for use by the AFU;
- port infrastructure facilities used for unloading and storing military cargo and fuel and lubricants intended to support the Ukrainian army in the port of Reni in Odessa region.

In addition, a dry cargo ship delivered military cargo to the port of Odessa was hit at sea.

Russian Armed Forces launched a massive strike against military infrastructure of Ukraine in Kiev, as well as in Dnepropetrovsk, Poltava, Vinnitsa, and Odessa regions, and ships, used in the interests of the AFU.

RUSSIAN MASSIVE STRIKE ON MILITARY AND DUAL-USE FACILITIES IN UKRAINE, SEPTEMBER 23

As a result of the strikes, the following targets were hit:

defence industry

fuel and energy industry

logistics centres

sea vessels

in Kiev and Kiev region:

a depot storing materiel for the production of unmanned aerial vehicles;

an industrial enterprise (LLC Tucans), in Vishnevoye, which produced components for unmanned aerial vehicles;

in Odessa region:

three logistics centres in Odessa storing and distributing military and dual-use cargo to support the AFU;

a depot storing UAV components in Mirnoye, Odessa region.

In addition, a dry cargo ship delivering military cargo to the port of Odessa was destroyed at sea.

◆ Russian Defence Ministry

Armed Forces of the Russian Federation carried out group strikes by unmanned aerial vehicles against enterprises of the Ukrainian defence and fuel-energy industries, logistics centres, and sea vessels operating in the interests of the AFU.

RUSSIAN MASSIVE STRIKE ON MILITARY AND DUAL-USE FACILITIES IN UKRAINE, SEPTEMBER 24

in Kiev:

-  an industrial enterprise producing components for long- and medium-range unmanned aerial vehicles as well as preparing unmanned ground vehicles for combat deployment;
-  a UAV production workshop (Pegasus Arms LLC) which produces and stores long-range and medium-range drones including fixed-wing UAVs;
-  an industrial enterprise (Element UA LLC) producing and storing components for Hornet strike UAVs;
-  a transport logistics centre that maintains and distributes long- and medium-range unmanned aerial vehicles;
-  **Kievstar and Parkovy** telecommunication centres. They provide communication services and computing facilities for the AFU.

Moreover, a tanker delivering POLs intended for the AFU was hit on the way to the port of Chernomorsk.

in Odessa region:

two logistics centres in Odessa, which stored and distributed military and dual-use goods supplied to Ukraine from European states.

Russian Army delivered a massed strike by high-precision ground-, air-launched weapons, unmanned aerial vehicles and engaged drone manufacturing workshops, telecommunication, and logistics centres in Kiev and Odessa regions as well as vessels involved in the interests of AFU.

RUSSIAN MASSIVE STRIKE ON MILITARY AND DUAL-USE FACILITIES IN UKRAINE, SEPTEMBER 25

in Kiev region

- the logistics centre (**HAVI Logistics Ukraine**) in **Trebukhov**, the territory of which was used by units of the Ministry of Defence and other security structures of Ukraine to store dual-use goods;

in Kiev

- **DataGroup** data centre, which was responsible for processing and transmitting intelligence data in the interests of the AFU;

in Odessa region

- a **dry cargo ship** that delivered military cargo to the port of **Chernomorsk**.

The Armed Forces of the Russian Federation continue to deliver strikes by unmanned aerial vehicles at the defence industry enterprises and logistics centres, as well as ships operating in the interests of the AFU.
