THE CODE OF CONDUCT ON POLITICO - MILITARY
ASPECTS OF SECURITY
(YEAR 2022)

SECTION I - INTER-STATE ELEMENTS

1. Account of measures to prevent and combat terrorism

1.1. To which agreements and arrangements (universal, regional, sub-regional and bilateral) related to preventing and combating terrorism is your State a party?

The Republic of Croatia condemns international terrorism and is strongly committed to combating terrorism in all its forms and manifestations at national, regional and global level. In order to counter efficiently this threat, Croatia recognizes the need for strong and intensive cooperation with-within-and-among the United Nations, regional organisations and all States.

Croatia firmly supports values and objectives of the UN Global Counter-Terrorism Strategy, especially the position that all counterterrorism measures must comply with the undertaken obligations under international law, including the Charter of the United Nations and relevant international conventions and protocols, and in particular with human rights law, refugee law and international humanitarian law. Croatia has always acted in accordance with those values and in line with provisions set by the United Nations, in particular those set by Committees established pursuant to relevant Security Council Resolutions.

Regarding international agreements and conventions related to the fight against terrorism, Croatia has ratified fourteen (14) universal legal counter-terrorism instruments (UN conventions and protocols) while the two SUA 2005 protocols related to maritime security are in the ratification procedure.

Croatia is a state party to a number of agreements within the Council of Europe framework that in a broader sense relate to terrorism (along with other forms of criminal issues). Croatia has ratified Convention of the Council of Europe on the Prevention of Terrorism as well as Convention on Laundering, Search, Seizure and Confiscation on of the Proceeds from Crime and on the Financing of Terrorism.

Enhancing international cooperation within the framework of international institutions and geopolitical alliances, Croatia actively participates in the global struggle against terrorism, through active cooperation within regional initiatives, such as SEEDM, SEI, SECI, SEECF, CEI the Adriatic-Ionian Initiative and the Budapest Process. Croatia is a state party to SELEC Convention, Agreement between the governments of Slovenia, Austria and Hungary on the operation of the Centre for Law Enforcement Cooperation in Dolga Vas and Agreement on Cooperation in the Area of Witness Protection between Austria, Bulgaria, Croatia, Czech Republic, Hungary, Poland, Romania, Slovakia and Slovenia. Croatia joined these initiatives and organisations to achieve more efficient results in the exchange of information relevant for the suppression of terrorism. For the same reason, the Republic of Croatia joined the Regional Expert Group with the main goal of improving police cooperation.

The international agreement between the Republic of Croatia and the European Police Office was signed on 13 January 2006 and an official agreement on strengthening judicial cooperation between Eurojust and Croatia was signed in Brussels on 9 November 2007. The purpose of this agreement is to formalise and develop closer co-operation between Croatia and Eurojust, in order to increase the effectiveness of their response to combating serious forms of international, cross-border and organised crime.

The Republic of Croatia, as a member of Interpol, actively participates in exchanges of information on the fight against terrorism. This co-operation has been especially intensified by the

exchange of information with the Interpol Expert Working Group for the fight against terrorism (FUSION TASK FORCE), 63 the aim of which is to identify terrorist organisations, groups and individuals, as well as their connections and sources of financing.

By acceding to the international anti-terrorist conventions, the European Convention on Extradition and both of its two protocols and signing numerous bilateral agreements on this topic, the Republic of Croatia has completely regulated the legal basis for the implementation of the *aut dedere aut judicare principle*.

In order to improve international co-operation in the field of the suppression of organised crime, drugs and terrorism, the Republic of Croatia has so far signed 36 governmental and 17 ministerial bilateral treaties on police co-operation with other countries and international organisations. It has signed bilateral agreements with all its neighbouring countries, while additional bilateral agreements are in the pipeline and/or about to be signed.

Bilateral Agreements on Police Cooperation include following countries: Albania, Belgium, Bosnia and Herzegovina (two agreements), Bulgaria, Czech Republic, Chile, Egypt, India, Italy (two agreements), Latvia, Hungary, Macedonia, Moldova, Montenegro, Romania, Slovenia (two agreements), Spain, Sri Lanka, Sweden, Turkey, Ukraine, the United Kingdom of Great Britain and Northern Ireland, Austria, France, Germany, Hellenic Republic, Serbia, Israel, Kazakhstan, Malta, Poland and USA.

The Ministry of the Interior of the Republic of Croatia contracted 17 bilateral international acts with the Ministries of the Interior of the following countries: Poland, Ukraine, Austria, Montenegro, Bulgaria, China (two agreements), the Russian Federation (three agreements), Netherlands, USA, and Kosovo; with local governments: Federal State of Bavaria (three agreements) and the Federal State of Baden Württemberg.

Recently, prompted by the desire to establish an appropriate procedure for accessing and exchanging screening information concerning known or suspected terrorists, a Memorandum of Understanding was concluded between the Ministry of the Interior of the Republic of Croatia and the Terrorist Screening Centre on the exchange of screening information concerning known or suspected terrorists on 31 August 2018, in Dubrovnik.

1.2. What national legislation has been adopted in your State to implement the above-mentioned agreements and arrangements?

In addition to the obligation of implementation of relevant resolutions of the UN Security Council, the prevention and suppression of terrorism and the active contribution of the Republic of Croatia to global efforts were defined among the national security priorities in the National Security Strategy adopted by the Croatian Parliament on 19 March 2002. This document underlines the importance of implementing a series of specific measures for the purpose of neutralising security risks such as terrorism and organised crime.

These measures comprise the following: establishment of an efficient system of border control in the Republic of Croatia; deepening of police and intelligence cooperation with neighbouring countries on the surveillance and prevention of the activities of terrorist groups and organised crime; precise legal regulation of the status of immigrants and asylum seekers; alignment of extradition procedures for persons accused of the said activities with procedures in other EU countries (in particular with EU procedures); linking of relevant national databases with equivalent databases in other countries, in particular EU countries.

In October 2015 the Government of the Republic of Croatia amended the National Strategy for the Prevention and Suppression of Terrorism. The amendments of the Strategy emphasizes new terrorist *modus operandi* such as foreign terrorist fighters, using of Internet for terrorist purposes etc. Moreover, it sets out the general framework of counterterrorism activities of the Republic of Croatia by providing guidelines for the improvement of existing, and for the development of new measures, mechanisms and instruments for the prevention and suppression of

terrorism. Croatian Parliament amended in 2015 the Criminal Code. This new document further improves previous 2008 and 2011 amendments and brings even more coherence in regards to terrorism related offences. It provides, inter alia, for the implementation of the resolution 2178 of the UN Security Council on foreign terrorist fighters, as well as the Additional Protocol of the Council of Europe's Convention on the Prevention of Terrorism, CETS 196. One of the most important amendments of the Criminal Code regarding counterterrorism is the criminalisation of preparation measures for all terrorism related activities.

The Criminal Procedure Act entered into force on 1 September 2011. The national legislation is in line with relevant documents of the United Nations, *EU acquis communautaire*, Council of Europe's conventions, legal standards of the European Court for Human Rights, as well as best practices of other comparatively relevant national legislations. In the process of aligning the Croatian criminal law with the legal norms and provisions of the EU, Croatia achieved complete harmonization with the Framework Council Decision on combating terrorism of June 2002 (definition of the criminal act of terrorism; criminal acts of association in the terrorist group; criminal acts connected to terrorist activities; inciting, aiding and attempting of terrorist acts; penalties and special circumstances; liabilities of legal entities and sanctions against legal entities; competence and criminal prosecution; protection of, and assistance to, victims).

The Criminal Code introduces important changes with regard to counterterrorism provisions. Some of the novelties are: amended definition of terrorism offence, financing of terrorism and introducing of the new terrorist organization offence. Articles in new Criminal Code that incriminate terrorism are: Terrorism, Article 97; Financing of Terrorism, Article 98; Public provocation to terrorism, Article 99; Recruitment for terrorism, Article 100; Training for terrorism, Article 101; Terrorist Organization, Article 102. Moreover, the Act on Proceedings for the Confiscation of Pecuniary Benefit Resulting from Criminal Offences and Misdemeanours also entered into force on 1 January 2011. This act has not only direct but also a preventive effect on all forms of organized crime as well as on terrorist activities.

Activities undertaken by competent national bodies with the purpose of eliminating the danger of terrorist activities are in line with the national political and legal framework, in line with all legal norms prescribed by international conventions. International treaties pertaining to the suppression of terrorism, to which Croatia is a state party, form integral part of the Croatian legal system. Pursuant to article 141 of the Constitution of the Republic of Croatia: "International agreements concluded and ratified in accordance with the Constitution and made public, and which are in force, shall be part of the internal legal order of the Republic of Croatia and shall be above law in terms of legal effects." For the purpose of combating terrorism Croatia applies a broad scope of legislation covering different forms of criminal activities (organised crime, corruption, money laundering, trafficking in narcotics, arms, human beings etc.).

On 1 October 2004 (in accordance with Article 9 of the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines, and on their Destruction) Croatian Parliament passed the Law on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction (Official Gazette No. 141/2004). Croatian authorities continued their activities and have taken numerous steps in order to improve the national system of countering money laundering and financing of terrorism. One of the most important steps was conducting National Risk Assessment, which included representatives of competent state authorities and agencies and private sector. Croatia conducted NRA using National Money Laundering and Terrorist Financing (ML/TF) Risk Assessment Tool developed and provided by the World Bank.

Furthermore, Action Plan for implementation of National Risk Assessment was adopted by Croatian Government in January 2017. The NRA Working Group (NRA WG) was composed of following competent state authorities and agencies and private sector:

- Anti-Money Laundering Office
- State Attorney's Office
- Office for Suppression Corruption and Organized Crime

- Croatian National Bank
- Croatian Financial Services Supervisory Agency (HANFA)
- The Financial Inspectorate
- Tax Administration
- Customs Administration
- Ministry of Interior
- Ministry of Justice
- Security and Intelligence Agency
- County Court in Zagreb
- The Faculty of Law in Zagreb
- Office for Combating Drug Abuse
- Office for Cooperating with NGO's
- Croatian Bureau of Statistics
- Representatives of different sectors of reporting entities (banks, insurance companies, notaries public, lawyers, representatives of organisers of games of chance, brokers, authorised exchange offices, money remittance companies, Croatian Post).

In 2008, the Croatian parliament passed the Anti-Money Laundering and Terrorist Financing Law in order to fully harmonize it with the international standards and commitments (3rd EU Directive on the prevention of the use of the financial system for the purpose of money laundering and terrorist financing, FATF Recommendations (2003), EU Regulation No.1889/2005 on controls of cash entering or leaving the Community, EU Regulation No. 1781/2006 on information on the payer accompanying transfers of funds).

Furthermore, Croatian authorities formed a Working Group on harmonisation of Croatian AMLTF Law with Directive (EU) 2015/849 of the European Parliament and of the Council of 20 May 2015 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing (4th EU AML Directive), and with FATF Recommendations (2012). Working Group consists of representatives of AMLO, Financial Inspectorate, Tax Administration, CNB and HANFA. The Draft Law was finalised and Croatian Government sent the Proposal of the Law to Croatian Parliament for further legislative procedure. Croatian parliament adopted the Act on Amendments to the Act on Anti-Money Laundering and Terrorist Financing Act (Official Gazette 39/2019 – Croatian version only) in April 2019.

The latest amendments to the law were adopted in order to fulfil the measures from the Action Plan for strengthening the effectiveness of the Croatian anti-money laundering and terrorist financing system adopted by Croatian Government in May 2022. The Law on Amendments to the Anti-Money Laundering and Terrorist Financing Law (Official Gazette 151/2022) has entered into force on January 1, 2023.

With the new amendments, the definition of terrorist financing prescribed in Article 3, was amended in such a way that financing of travel for the purpose of committing or contributing to the commission of a criminal offense of terrorism or the commission of a criminal offense of training for terrorism and terrorist association is also considered as terrorist financing. Thus, the definition of terrorist financing in AML/CFT Law has been fully harmonized with the requirements of Recommendation 5 of the FATF.

On 14 July 2017, the Croatian Parliament adopted the new National Security Strategy; the overarching strategic document defining the policies for national interests and achieving security conditions in view of the changed security paradigm, as no such document was composed since 2002. The National Security Strategy is a fundamental strategic document defining the policies and tools to achieve national interests and providing security conditions to enable a balanced and continuous development of the country and the society.

Croatian Parliament amended in 2018 the **Criminal Code**. With new amendments Republic of Croatia implemented all terms of the Directive (EU) 2017/541 of the European Parliament and of the Council of 15 March 2017 on combating terrorism and replacing Council Framework

Decision 2002/475/JHA and amending Council Decision 2005/671/JHA. The Criminal Procedure Act entered into force on 1 September 2011. The national legislation is in line with relevant documents of the United Nations, EU *acquis communautaire*, Council of Europe's conventions, legal standards of the European Court for Human Rights, as well as best practices of other comparatively relevant national legislations.

After amendments of the Criminal Code, criminal offences of terrorism are: Terrorism, Article 97; Financing of Terrorism, Article 98; Public provocation to terrorism, Article 99; Recruitment for terrorism, Article 100; Training for terrorism, Article 101; Travel for Terrorist Purposes, Article 100 A; Terrorist Organization, Article 102, and Preparation of Criminal Acts Against Values Protected by International Law, Article 103.

On July 19, 2022, the Law on the Implementation of Regulation (EU) 2021/784 of the European Parliament and the Council of April 29, 2021 on the fight against the spread of terrorist content on the Internet was adopted, which transposed the said Regulation into national legislation.

1.3. What are the roles and missions of military, paramilitary and security forces and the police in preventing and combating terrorism in your State?

The Republic of Croatia has developed and maintained defence capabilities at appropriate readiness level for the purpose of timely reaction to changing circumstances and challenges from international environment. The main document that sets the strategic framework of the Republic of Croatia in this area is the National Strategy for the Prevention and Suppression of Terrorism. The goal of the Strategy is to provide the basis - by engaging and developing all necessary national resources - for the highest possible level of protection of the Republic of Croatia from terrorism, while providing the most effective contribution to international counterterrorism efforts as a key part of the national response to terrorism.

Croatian Armed Forces have been developing capabilities of the conduct of combat operations within defence of their own territory on land, at sea and in the air as well as in cyber space, independently or in cooperation with allies, till activation of the collective defence mechanism. The missions of the Armed Forces of the Republic of Croatia, as the basic proponent of the defence function, are defence of the territorial integrity, sovereignty and independence of the Republic of Croatia and defence of allies, contribution to international security and support to civilian institutions. Membership of the Republic of Croatia in NATO ensures a convincing guarantee of collective defence as an important factor of deterrence and defence of the population, territory and national sovereignty.

Article 39 Paragraphs (1) and (2) of the Defence Act (Official Gazette No. 73/2013, 75/2015, 27/2016, 110/2017, 30/2018 and 70/2019) defines the tasks of Armed Forces of the Republic of Croatia:

1. Armed Forces shall protect the sovereignty and independence of the Republic of Croatia and defend its territorial integrity.
2. Armed Forces may, subject to the conditions stipulated by the Constitution, international treaties and law:
 - participate in peace support operations, crisis response operations, humanitarian operations and other activities abroad;
 - render assistance in the defence of allied states in case of armed attack against one or more of them as stipulated under concluded international treaties;
 - participate in joint efforts of the European Union, in a spirit of solidarity should any member state be exposed to a terrorist attack or had been the victim of a natural or by human activity provoked disaster;

Article 62 a Paragraph (1) of the Defence Act states that the Armed Forces may provide support to police forces regarding the state border protection tasks, in compliance with the law on border control.

Concerning international military tasks and missions in the prevention and fight against terrorism, the Republic of Croatia actively participates in different NATO, EU and UN led peace support missions operations and activities.

1.4. Provide any additional relevant information on national efforts to prevent and combat terrorism, e.g., those pertaining *inter alia* to:

Financing of terrorism: Border controls: Travel document security: Container and supply chain security: Security of radioactive sources: Use of the Internet and other information networks for terrorist purposes: Legal co-operation including extradition: Safe havens and shelter to terrorists and terrorist organizations:

The General Police Directorate and Security and Intelligence Agency, as two main national authorities responsible for prevention and suppression of terrorism, have regular operational coordination meetings, and discuss about all available information that are possibly related to terrorism, radicalization and violent extremism.

With the Amendments of the Criminal Code (Official Gazette no. 118/18) the description of the term “money laundering” from article 265 has been fully amended.

The Interagency Working Group for Suppression of Terrorism is the Government’s main body responsible for coordinating national mechanisms for the implementation of UN Security Council resolutions 1373 and 1566 and other important documents in the domain of the UN, the EU, NATO, the OSCE, and the Council of Europe. In addition, the International Restrictive Measures Act was adopted on 21 November, 2008. This Act enables a more comprehensive and efficient implementation of the sanctions regimes (including the sanctions regime against Al’ Qaida and Taliban, UNSC Resolution 1267), counting as well existing counterterrorism sanctions, that are adopted within the framework of the UN and the European Union (and other international organizations), including also those restrictive measures that the Republic of Croatia introduces in accordance with other obligations that are in conformity with international law.

In the Law on Coast Guard, passed by Croatian Parliament at the session on 03 October 2007 (Official Gazette No. 125/2019 28 December 2019) in Chapter IV, the Republic of Croatia regulates the scope of work and assignments of the Coast Guard in the “Suppression and Prohibition of Terrorism, International Organized Crime and Proliferation of the Weapons for Mass Destruction”, and in Chapter V “Suppression of Piracy and Other Forms of Open Seas Usage for Non-peaceful Purposes”.

The Government of the Republic of Croatia adopted in year 2009 National Small Arms and Light Weapons Control Strategy and Action Plan. In the same period the Government of the Republic of Croatia established the inter-ministerial National Authority coordinated by the MFEA with a responsibility for ensuring effective implementation of above mentioned documents.

The close link between terrorism and other forms of criminal activities has always been in the focus of all counter-terrorism strategies and effective measures. Since the main prerequisite for the preparation of terrorist actions is the accumulation of financial means, it is obvious why it

must be dealt with the outmost vigorousness and resolve. To this end, a careful consideration must also be given to the full protection of human rights, especially to the right of personal privacy. For this reason, the Republic of Croatia attaches great importance to the legal basis for the prevention of financing terrorism, which, in addition to being contained in several international agreements, is also contained in the Criminal Code, the Anti-Money Laundering and Terrorist Financing Act, the Banking Act, the National Payment System Act, the Foreign Exchange Act, and the Act on Seizure.

The supervision over transactions pursuant to the Foreign Exchange Act is exercised by the Croatian National Bank and the Ministry of Finance - Financial Inspectorate and Customs Administration. The Croatian National Bank supervises banks and the Financial Inspectorate supervises exchange offices. Supervisory bodies exchange information needed in the process of supervision and inform each other of any irregularities found in the course of supervision, provided such findings are relevant to the work of the other supervisory body.

In December 1997, the Anti-Money Laundering Office (AMLO) was established within Ministry of Finance, as an independent administrative and analytical body authorised for receiving information on financial transaction from obligated entities, relevant state authorities - supervisory authorities within the Ministry of Finance (Financial Police, Customs, Tax Department, Supervision of Foreign Transactions Department), the Ministry of Interior, and appropriate authorities and organizations, as well as to international organizations responsible for preventing money laundering. The Croatian Parliament has passed Anti Money Laundering and Terrorist Financing Act at its session held on 15 July 2008. The Act entered into force on 1 January 2009. It prescribes measures and actions in banking and non-banking financial operations, money-related and other operations taken for the purpose of the prevention and detection of money laundering and terrorist financing, reporting entities subject to the Act obliged to implement the measures and actions, supervision over reporting entities in their implementation of measures and actions in banking and non-banking financial operations, cash and other operations, which measures and actions shall be taken for the purpose of money laundering and terrorist financing prevention and detection, tasks and jurisdictions of the Anti-Money Laundering Office as a Financial Intelligence Unit international co-operation of the Office, jurisdictions and actions of other state bodies and legal persons with public authorities in the detection of money laundering and terrorist financing, and other issues of significance for the development of the preventive system within the scope of money laundering and terrorist financing prevention. The provisions contained in the above mentioned Act concerning money laundering prevention equally apply to the countering of terrorist financing for the purpose of preventing and detecting activities of individuals, legal persons, groups and organizations in relation with terrorist financing.

Croatian authorities formed a Working Group on harmonisation of Croatian AMLTF Law with Directive (EU) 2015/849 of the European Parliament and of the Council of 20 May 2015 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing (4th EU AML Directive), and with FATF Recommendations (2012). Working Group consists of representatives of AMLO, Financial Inspectorate, Tax Administration, CNB and HANFA. The Draft Law was finalised and Croatian Government sent the Proposal of the Law to Croatian Parliament for further legislative procedure.

The Anti-Money Laundering Office is an independent organisational unit within the structure of the Ministry of Finance, performing tasks aimed at money laundering and terrorist financing prevention, as well as other tasks as provided for in the Act. As a Financial Intelligence Unit, AMLO collects, stores, analyses and submits data, information and documentation on suspicious transactions to competent government bodies for further proceeding for the purpose of money laundering and terrorist financing prevention and detection in keeping with the provisions contained in the Act. In the money laundering and terrorist financing prevention and detection, AMLO cooperates with the State Attorney's Office of the Republic of Croatia, the Ministry of the Interior - the General Police Directorate, the supervisory services of the Ministry of Finance (the Financial Inspectorate, the Customs Administration and the Tax Administration), the Croatian

Financial Services Supervision Agency, the Croatian National Bank, the Security-Intelligence Agency, the Ministry of Foreign and European Affairs, the Ministry of Justice and with other state bodies.

For the purpose of achieving the strategic and operational objectives, the above-mentioned bodies (including AMLO) signed a protocol on cooperation and on the establishment of an inter-institutional money laundering and terrorist financing working group. Furthermore, AMLO has a timely access, direct or indirect, to financial, administrative and security data, information and documentation relative to the implementation of the Law and regulations passed on the basis of the Act for the purpose of the AMLO's tasks performance, including the suspicious transactions analyses.

Within the framework of international cooperation in the field of global prevention of money laundering and terrorist financing, the Anti-Money Laundering Office as a Croatian Financial Intelligence Unit has actively participated in the work of the Egmont Group of Financial Intelligence Units (FIUs) since June of 1998. Furthermore, Anti-Money Laundering Office is a member of decentralised computer network FIU.NET, and uses its secure facilities for the exchange of information with FIUs from Member States. International standards pertaining to the prevention, uncovering and punishing money laundering are incorporated in the Croatian respective legislation (UN Convention against Illicit Trafficking in Narcotic Drugs and Psychotropic Substances; Convention on Laundering, Search, Seizure and Confiscation of the Proceeds from Crime; Council of Europe Convention on Laundering, Search, Seizure and Confiscation of the Proceeds from Crime and on the Financing of Terrorism; FATF 40 + IX Recommendations ; 3rd EU AML Directive etc.).The new AMLTF Law will incorporate the 4th EU AML Directive as well as FATF Recommendations adopted in 2012.

International police co-operation is defined in the Police Act, the Criminal Proceedings Act, and The Act on International Legal Assistance in Criminal Matters, as well as in bilateral agreements and international acts mentioned under 1. (b). As of July 1, 2013 the Republic of Croatia as new EU Member State cooperate with European Police Office on the basis of Council decision on establishment of EUROPOL and which replaced Agreement on Operational and Strategic Cooperation between the Republic of Croatia and EUROPOL signed in 2006.

In 2016, the III phase of VTMIS/PNDGM System upgrading was finished. Existing Vessel Traffic Management Information System (VTMIS) owned by the Ministry of sea, traffic and infrastructure was upgraded with 4 new radars, 19 day/night long range cameras and 7 termovision long range cameras. Thus enabled better detection, recognition and at last and identification of security interesting targets on the maritime area.

When selecting the location, the care was taken to improve surveillance of maritime border and of southern part of the Adriatic area where we expect the greatest threats. System was finished on the 21st December 2016, and was funded by Schengen Facility Fund.

All cameras are completely integrated in system, by choosing object on the screen, camera was automatically directed and show target. If the target is moving camera is following him. On that way, depending of the distance of the target, weather conditions, it is possible to recognize the type of the vessel (fishing vessel, pleasure craft), number of the person on the deck and even to read the name of the vessel.

The surveillance of the blue border and the maritime area with the VTMIS/PNDGM system, on the national level is conducted in National Maritime Centre for Data Collecting in Zadar and National Coordination Centre in Zagreb, on the regional level in maritime police stations in Pula, Rijeka, Zadar, Šibenik, Split and Dubrovnik and on the local level on the police vessels by simplified WEB Application.

On 15 March 2017 European Parliament and of the Council have adopted Regulation (EU) 2017/458 of amending Regulation (EU) 2016/399 as regards the reinforcement of checks against relevant databases at external borders whose provisions are implemented by the Croatian authorities at state borders.

The Ministry of the Interior, in cooperation with other competent bodies of state

administration, local and regional self-government units, the university and scientific community, sports organizations of civil society, the media, educational institutions, athletes, musicians, artists and other relevant actors, implements a preventive program " Together against hate speech" intended for the wider population. The goal of implementing the mentioned Program is to promote a culture of tolerance and non-violence, prevention of all forms of hate speech as a socially unacceptable form of behaviour, and ultimately prevention of crime motivated by various forms of hatred, and thus prevention of radicalization and extremism with elements of violence.

The project is implemented through two components: 1st component: "Say no to hate speech" - in this component prominent persons from public, social, political, cultural and sports life, representatives of religious communities, civil society organizations, fan associations, professional organizations, representatives national minorities and other prominent members of the community send short and clear messages directed against hate speech from the perspective of their institutions.

The 2nd component - a public event is organized in an open space intended primarily for primary and secondary school students, students, young people and the general public.

As part of the project, activities are organized on the topics of prevention of hate speech at sports competitions, hate speech towards national minorities, hate speech towards members of the Roma community, hate speech towards LGBTQ people and hate speech on the Internet and social networks.

The above stated plainly shows that no state government body has the exclusive responsibility for developing defence regulations, documents and plans. The responsibility concerning all issues, including determining/approving military position rests with several state government bodies, whose powers may include proposing, approving, discussing, providing opinions, adopting a particular document and making decision on a particular issue.

The comprehensive defence planning system, as a key component of the overall defence management, is focused on the development of strategic and conceptual documents as well as on the documents of operational and implementation planning. It consists of strategic development, operational and implementation planning.

The National planning and decision-making process in determining/approving defence expenditures is part of the state budget developing process. It is a result of interaction among the President of the Republic of Croatia, Croatian Parliament, Croatian Government, the Ministry of Finance, the Ministry of Defence, and other ministries. The state budget for one year and projections for next two years (and the Budget of the Ministry of Defence, accordingly) is approved by the Croatian Parliament.

The abovementioned process is regulated by:

1. The Budget Act (Official Gazette No. 87/2008, 136/2012, 15/2015 and 144/21),
2. The Act on State Budget Execution for the current year,
3. The Defence Act (Official Gazette No. 73/2013, 75/2015, 27/2016, 110/2017, 30/2018 and 70/2019).

The State Budget is prepared based on the assessment of economic development and macroeconomic indicators specified in regulations and other documents passed by Parliament, the Government and the Finance Minister in accordance with their scope of work and competence.

Ministry of Finance prepares draft economic and fiscal policy guidelines for a three-year period and the Government adopts them.

The Guidelines contains macroeconomic policy objectives for a three-year period, the macroeconomic and fiscal framework of the Republic of Croatia; the level of planned funding for each institution (ministries and other) including the levels of funding planned for the previous budget year and the current budget year, as well as the level of funding planned for the next budget year and the following two years. Relying on the Government's Guidelines, the Ministry of Finance issues Instructions for the preparation of the draft State Budget. It contains key economic indicators, the methodology and schedule for the preparation of the State Budget.

Based on the instructions for the preparation of the draft State Budget, budget users of the State Budget prepare their draft financial plans (draft budgets).

Each draft financial plan contains: revenues and receipts; expenditures and outlays planned for a three-year period and presented according to budgetary classifications; and an explanation of the draft financial plan. The explanation of draft financial plan contains a summary of the budget user's scope of work; explained programmes; legal and other grounds; goals, strategies and programmes aligned with long-term development documents; sources and indicators underlying calculations and estimates of funds required to implement programmes; report on goals achieved and programme outcomes for the previous year, measured by performance indicators under the purview of the budget user, other explanations and documentation.

Ministries deliver draft financial plans to the Ministry of Finance. Ministry of Finance reviews draft financial plans with estimated revenues and receipts; prepares a draft budget for the budget year and projections for the next two years, and submits these to the Government. Government submits a proposal for the budget and projections for the next two years to Parliament for adoption. Before the budget is adopted, a debate is held in Parliament. During the debate on

the proposed State Budget and projections, submitted amendments proposing any increase in budgetary expenditure and outlays beyond the amounts established in the proposed State Budget may be accepted, provided that a proposal is also made to decrease other expenditure and outlays. Parliament adopts the budget for the budget year and the projections for the following two budget years before the end of the current year and, in any case, no later than such time that allows the application of the budget as from 1 January of the year for which it is being passed.

The State Budget is composed of a general and special part. The general part is consisted of Revenue and Expenditure Account and a Financing Account. The special part of the State Budget is formed of financial plans (budgets) of the each budget user (accordingly, the Ministry of Defence financial plan (budget) is visible in the State Budget).

1.2. How does your State ensure that its military capabilities take into account the legitimate security concerns of other States as well as the need to contribute to international security and stability?

Drawing and adoption of policy and planning documents that define military capabilities of the Croatian Armed Forces, is being conducted in a transparent and open manner and all adopted documents are available to domestic and international public. In that way, all interested states have insight in the current situation and reasons for development of military capabilities. Also, through intensive bilateral and multilateral defence cooperation with all democratic states, especially with those from the region and close neighbourhood, security and defence talks are being held, through which all security questions, concepts and solutions are being discussed among participants. Croatian foreign and security policy identifies contribution to international security, and sustainment of favourable regional and wider international environment, as one of the missions of Croatian Armed Forces.

In order to fulfil its security and defence objectives, Croatia identifies the capability requirements, develops and delivers its defence forces and capabilities within the national defence planning processes. Existing processes are conducted in accordance to political guidance for defence planning and in a structured and transparent manner. These are also reviewed on a regular basis in view of the changing security environment. In addition, Croatia harmonizes its national defence plans with those of NATO Allies and EU Member States, aimed to identify, develop and deliver a fair share of the overall forces and capabilities needed for the alliances to be able to undertake full range of missions and operations, which represents part of national contribution to international security and stability.

The supervision of security and intelligence agencies is carried out by the Croatian Parliament directly and through its National Security Committee and the Council for Civil Supervision of Security and Intelligence Agencies.

The ONSC performs professional supervision of the operation of security and intelligence agencies. In the supervision of security and intelligence agencies, the Croatian Parliament, through its National Security Committee, may request the ONSC to submit reports and notifications and/or to carry out professional supervision of security and intelligence agencies. The Committee may also perform direct supervision of security and intelligence agencies, and Chairman comes from the most represented opposition party in the Croatian Parliament. The Council for Civil Supervision of Security and Intelligence Agencies was formed to perform civil supervision of the operation of security and intelligence agencies. The chairman and the Council are held accountable for the lawfulness of their work to the Croatian Parliament, and supervision of their work is carried out by the National Security Committee of the Croatian Parliament. 3. Procedures related to different forces personnel

3.1. What kind of procedures for recruitment and call-up of personnel for service in your military, paramilitary and internal security forces does your State have?

The obligation to serve in the military is the duty to undergo training, preparations and to take part in defence in an organized manner, by joining the Armed Forces, of all able-bodied citizens of the Republic of Croatia. The military obligation occurs in the calendar year in which a citizen of the Republic of Croatia turns 18 years of age. The military obligation of a citizen of the Republic of Croatia terminates: at the end of the calendar year in which a male citizen turns 55 years of age, or in the case of female citizens 50 years of age; if he or she is declared unable to do military service; and further in the event a citizen is released from Croatian citizenship. The military obligation consists of the recruitment obligation, the obligation to serve in the military or take part in civilian service and to serve in the reserves of the Armed Forces. Women who fall under military obligation are not subject to the recruitment obligation and the obligation to serve in the military. Men under military obligation are subject to the recruitment obligation and the obligation to serve in the military or civilian service whenever an obligation is in force to serve in the military.

When there is no such obligation in force, men under military obligation are still subject to inclusion in military records and have obligation to serve in the reserves of the Armed forces. During their recruitment, conscripts are subject to inclusion in military records, medical and other examinations and psychological examination, recruitment, military service or civilian service, and response to a general or individual call-up. Medical and other examinations and psychological examinations of those under military obligation are carried out in medical institutions or in the competent organizational unit of the Ministry of Defence.

At the recruitment, the person under military obligation receives a grade of his capacity for military service and is assigned a branch or profession for serving in the military. Recruitment is carried out by recruitment commissions established by the Minister of Defence. Serving the military service or civilian service is compulsory by force of law in the case of an immediate threat or war.

The Croatian Parliament may issue a decision stipulating the obligation to serve in the military or to perform civilian service. If the state authorities are prevented from regularly performing their duties prescribed by law, the President of the Republic may issue a regulation with legal force concerning the obligation to serve in the military or civilian service at the proposal of the Prime Minister and with his co-signature. The upper age limit of those under military obligation subject to military service or to take part in civilian service is 27 years of age. Serving in the military lasts six months. The time and the manner of assigning conscripts to serve in the military and their release from the Armed Forces are set out by the Minister of Defence in a decision, at the proposal of the head of the General Staff. As of 2008, in the Republic of Croatia conscripts have not been assigned to serve in the military.

(1) Voluntary military training is carried out whenever the mandatory military service is not in force in accordance with the provisions of this Act.

(2) The citizens of the Republic of Croatia who report to the competent organisational unit of the Ministry of Defence may be assigned to voluntary military training until the last day of the calendar year in which they turn 30 years of age.

(3) As an exception to paragraph 2 of this Article, the citizens of the Republic of Croatia over the age of 30 may also be referred to voluntary military training if they are candidates for contract reservists, for military specialists or for late admission to active military service.

(4) Women may also be assigned to voluntary military training in accordance with the provisions of this Act.

Article 122 of the Defence Act regulates the following:
“During the time while, in accordance with the provisions of this Act, the conscripts are not called for mandatory military service, there is no their obligation either to participate in civil service in accordance with the provisions of a separate act.”

3.3 What are the legal and administrative procedures to protect the rights of all forces personnel as well as conscripts?

The rights of the Armed Forces personnel are regulated by Article 113 paragraphs 1, 4 and 5 of the Defence Act (Official Gazette No. 73/2013, 75/2015, 27/2016, 110/2017, 30/2018 and 70/2019) as follows:

“(1) To service in the Ministry of Defence shall be assigned civil servants and employees and active duty military personnel to positions and posts as established by the Ordinance on Internal Order of the Ministry of Defence.

(4) To service in the Armed Forces shall be assigned active duty military personnel and civil servants and employees, to organizational posts as established by the documents on organization of the headquarters, commands, units and institutions of the Armed Forces.

(5) The rights, obligations and responsibilities of members of the Armed Forces shall be regulated by a separate Act.”

This separate Act is the Act on Service in the Armed Forces of the Republic of Croatia (Official Gazette No. 73/2013, 75/2015, 50/2016, 30/2018 and 125/2019).

In accordance with Article 214, paragraph 1 of the Act on Service in the Armed Forces of the Republic of Croatia:

“Decision-making on admission to service, termination of service, status in service and the rights and obligations for which the provisions of this Act stipulate adoption of a decision, are administrative matters”.

Pursuant to this provision, the Act on General Administrative Procedure (Official Gazette, No. 47/2009 and 110/2021) and the Act on Administrative Disputes (Official Gazette, No. 20/2010, 143/2012, 152/2014, 94/2016, 29/2017 and 110/2021) apply on the above mentioned decisions, including on appeal procedures and administrative disputes before the administrative courts of the Republic of Croatia which are initiated by the injured party.

4. Implementation of other political norms, principles, decisions and international humanitarian law

4.1 How does your State ensure that international humanitarian law and law of war are made widely available, e.g., through military training programmes and regulations?

The International Humanitarian Law (IHL) and Law of Armed Conflict (LOAC) are widely available due to the fact that first sentence in Article 141 of the Constitution of the Republic of Croatia (Official Gazette No. 85/2010 – consolidated text and 5/2014) stipulates the following:

“International treaties which have been concluded and ratified in accordance with the Constitution, which have been published and which have entered into force, shall be a component of the domestic legal order of the Republic of Croatia and shall have primacy over domestic law.”

Accordingly, this procedure also applies to international conventions in the field of IHL/LOAC. These international conventions are published in the “Official Gazette – International Treaties”, and so made available in a printed version (in the English and Croatian language), as well as on its web site.

Each member of the Armed Forces, in addition to familiarization with national laws and regulations, acquires a basic knowledge of IHL/LOAC during regular education and training activities provided at the various stages of Croatian military service. Trainees are: soldiers, NCOs, officers, participants in international activities (NATO/PfP, UN, and EU) and legal advisers. Methods of education are: education in military educational institutions, seminars, practical training and exercises, and written documentation (manuals, handouts etc.).

The education curricula for officers of the Armed Forces of the Republic of Croatia include topics relating to the treatment of civilians in armed conflicts. Within this education the following issues are covered:

- General principles and starting points of the Geneva and The Hague conventions;
- Basic prohibitions concerning the objectives, weapons and tactics of the Armed Forces;
- Appropriate treatment of prisoners of war and other persons of protected categories.

The Croatian peacekeeping forces undergo special training, which reflects Croatia's commitment to deploy qualified personnel to peacekeeping/peace support operations and missions. The civil rights and special needs of persons as individuals or representatives of groups in armed conflicts are an integral part of the training programme conducted by the International Military Operations Centre of the Armed Forces of the Republic of Croatia (IMOC). The tasks of the IMOC include:

- Training of military and civilian personnel to be deployed as participants in international activities;
- Preparation, training, exercises, evaluations, etc., of individuals/troops to be deployed as participants in international activities;
- Peacekeeping/peace support operations and missions joint exercises in NATO/PfP, humanitarian aid operations, natural disasters, etc.;
- Cooperation with similar centres in other countries.

The Croatian state bodies and administration, as well as professional groups working with and for peacekeeping/peace support operations, joint exercises of NATO/PfP and humanitarian aid operations (including NGOs) undergo specific training according to their role in the national implementation of International Humanitarian Law.

4.2. What has been done to ensure that armed forces personnel are aware of being individually accountable under national and international law for their actions?

During their regular national military training, as well as training prior to their deployment to the international activities, each member of the Armed Forces of the Republic of Croatia becomes familiar with the national laws and regulations and acquires a basic education in International Humanitarian Law (IHL) and the Law of Armed Conflict (LOAC).

The aforementioned includes the relevant provisions of the Defence Act (Official Gazette No. 73/2013, 75/2015, 27/2016, 110/2017, 30/2018 and 70/2019) and Act on Service in the Armed Forces of the Republic of Croatia (Official Gazette, No. 73/2013, 75/2015, 50/2016, 39/2018, and 125/2019) that regulate individual accountability under national and international law for their actions.

The Defence Act in Article 40 paragraphs 1 and 2 stipulates:

"(1) Members of the Armed Forces are obliged to, always and in all circumstances, in combat and non-combat actions comply with the rules of the Law of Armed Conflict and International Humanitarian Law.

(2) A member of the Armed Forces is obliged to refuse an order by which is required to act contrary to the provisions of the Constitution and the rules of the Law of Armed Conflict and International Humanitarian Law."

The Act on Service in the Armed Forces of the Republic of Croatia in Article 167 stipulates:

"While participating in a peace support operation, crisis response operation, humanitarian operation and other activity abroad, persons sent to such activities are, *inter alia*, obliged to: worthily represent the Republic of Croatia, act in accordance with the Constitution and the laws of the Republic of Croatia, respect the decisions, orders and tasks as well as the principles and rules of the Law of Armed Conflict and International Humanitarian Law, and specific rules of the

concrete operation or other activity in which they are participating, respect military discipline and respect the cultural and religious practices and other values of the host country."

Criminal Code of the Republic of Croatia (Official Gazette No. 125/2011, 144/2012, 56/2015, 61/2015, 101/2017, 118/2018, 126/2019, 84/2021 and 114/2022) in its Chapter IX specifically regulates criminal offenses against humanity and human dignity to include offenses against the values protected under international law.

The Act on Service in the Armed Forces of the Republic of Croatia in Article 170, paragraphs 1 and 2 and Article 172, paragraphs 1 and 2 stipulates:

"(1) Members of the Armed Forces are responsible for criminal offenses under the provisions of the Criminal Code and other laws.

(2) Criminal liability does not exclude disciplinary liability if the act that is the subject of a criminal procedure represents a breach of military discipline.

(1) Members of the Armed Forces are responsible for misdemeanours pursuant to the general regulations on misdemeanours.

(2) Misdemeanour liability does not exclude the disciplinary liability if act which is the subject of a misdemeanour procedure represents a breach of military discipline."

4.3. How does your State ensure that armed forces are not used to limit the peaceful and lawful exercise of human and civil rights by persons as individuals or as representatives of groups nor to deprive them of national, religious, cultural, linguistic or ethnic identity?

Armed Forces of the Republic of Croatia, during their deployment to all international activities, are obliged to act in accordance with the above mentioned Article 167 of the Act on Service in the Armed Forces of the Republic of Croatia (Official Gazette, No. 73/2013, 75/2015, 50/2016, 30/2018 and 125/2019).

On the national territory of the Republic of Croatia the Armed Forces may be used, in accordance with Article 39 paragraph 2 of the Defence Act (Official Gazette No. 73/2013, 75/2015, 27/2016, 110/2017, 30/2018 and 70/2019), and subject to the conditions stipulated by the Constitution and law, for assistance to the institutions of civil authorities, organizations and services designated for protection and rescue, and to the population in cases of disasters and major accidents, search and rescue, and transport of injured or sick persons, including an emergency medical flight.

Pursuant to Article 60 of the Defence Act, while providing assistance in situations of disasters and major accidents, Armed Forces coordinate their actions in accordance with the plans, rules and procedures established by the central state administration body responsible for the protection and rescue, as Armed Forces do not act independently in those activities.

4.4 What has been done to provide for the individual service member's exercise of his or her civil rights and how does your State ensure that the country's armed forces are politically neutral?

Article 81 indent 7 of the Constitution of the Republic of Croatia (Official Gazette No. 85/2010 – consolidated text and 5/2014) provides, as follows:

"The Croatian Parliament shall exercise civilian oversight of the Armed Forces and security services of the Republic of Croatia. "

Article 93 paragraphs 1 and 2 of the Constitution of the Republic of Croatia regulate the issue of protection of civil rights including those of the individual service members, as follows:

"(1) The Ombudsman shall be a commissioner of the Croatian Parliament responsible for the promotion and protection of human rights and freedoms enshrined in the Constitution, laws and international legal instruments on human rights and freedoms ratified by the Republic of Croatia.

(2) Everyone may lodge a complaint to the Ombudsman if he/she deems that his/her constitutional or legal rights have been threatened or violated as a result of any illegal or irregular act by state bodies, local and regional self-government bodies and bodies vested with public authority.”

Article 1 paragraph 1 of the Act on Service in the Armed Forces of the Republic of Croatia (Official Gazette, No. 73/2013, 75/2015, 50/2016, 30/2018 and 125/2019) defines the legal framework for service in the Armed Forces, as follows:

“This Act primarily regulates service in the Armed Forces of the Republic of Croatia, admission, appointment to organisational posts, ranks and promotions in ranks, obligations, rights and responsibilities, separation and termination of service, as well as other matters related to members of the Armed Forces.”

The Act on Service in the Armed Forces of the Republic of Croatia in Article 2 titled “Gender Equality” regulates, as follows:

“Terms in this Act that have gender meaning, and regardless of whether they are used in the masculine or feminine gender, apply equally to male and female gender.”

Political neutrality of the Armed Forces is ensured by the provisions of Article 15 paragraphs 3 and 4 of the Act on Service in the Armed Forces of the Republic of Croatia:

“(3) Military personnel, civil servants and employees are not permitted to be politically active in the Armed Forces.

(4) Active duty military personnel are not permitted to have membership in political parties and to stand as candidates for representative bodies of citizens, representative bodies of local and regional self-government and the Croatian Parliament.”

Article 16 paragraphs 1 and 3 of the Act on Service in the Armed Forces of the Republic of Croatia regulate the issue of making public statements, as follows:

“(1) To members of the Armed Forces public statements in connection with the state of the Armed Forces and relations in the Armed Forces are prohibited without the approval of the minister of defence or a person authorized by him.

(3) The members of the Armed Forces are allowed to make statements referred to in paragraph 1 of this Article in peace support operations, crisis response operations, humanitarian operations and other activities abroad, if that is allowed by the rules in the international organisation within which these activities take place.”

4.5. How does your State ensure that its defence policy and doctrine are consistent with international law?

Croatian legislation, including defence policy and doctrine documents, is consistent with international law, as a result of their regular and thorough review with regard to domestic constitutional and legal provisions, as well as with regard to compliance with international legal obligations of the Republic of Croatia.

As a liable member of the international community, the Republic of Croatia highly appreciates the role of the international legal norms in regulating relations among states and other subjects of the international law. This is reflected in the first sentence of Article 141 of the Constitution of the Republic of Croatia (Official Gazette No. 85/2010 – consolidated text and 5/2014) that stipulates the following:

“International treaties which have been concluded and ratified in accordance with the Constitution, which have been published and which have entered into force, shall be a component of the domestic legal order of the Republic of Croatia and shall have primacy over domestic law.”

During the drafting and adoption of defence policy documents (and all other policy and legal documents), transparent and multi-step procedures of adoption and discussions are applied, through which harmonization with the Constitution of the Republic of Croatia is assured, as well as harmonization with domestic legal framework and provisions of the international law.

The key role in above mentioned is given to the Legislation Office of the Government of the Republic of Croatia, a national expert body which gives opinion on the harmonization of the proposed laws and other acts by the Government with the Constitution of the Republic of Croatia and legal order of the Republic of Croatia. The Legislation Office also prepares and draws drafts of the documents that are issued by the Government of the Republic of Croatia and the Croatian Parliament.

- Inclusion of systematic gender analysis of areas at risk of conflicts, including gender disaggregated socio-economic indicators and power over resources and decision making:

See aforementioned data.

2. Measures to address the violation of the rights of women and girls, in line with international standards

- Number and percentage of military manuals, guidelines, national security policy frameworks, codes of conduct and standard operating procedures/protocols of national security forces that include measures to protect women's and girls' human rights:

In September 2013 the Ministry of Defence introduced a "Gender Mainstreaming Policy in the MOD and CAF". The Chief of the General Staff signed an order for the implementation of this document together with the "Action Plan for Promoting and Establishing Gender Equality in the MOD and CAF" (primarily based on the national policy for gender equality and NAP for the implementation of UNSCR 1325 on WPS and related Resolutions), thereby assigning responsibilities in the CAF with a special focus on: increasing the number of lectures on human rights at all levels of military education and training, including pre-deployment for PSOs, with particular attention to gender-related topics on preventing violence and discrimination against women, lectures on UNSCR 1325 and related Resolutions on WPS, investigation of reports on possible violations of gender equality, conflict-related gender-based violence against women and children.

II. Participation

1. Measures to increase the number of women in general and in decision-making positions in the Armed Forces and the Ministry of Defence

- Number and percentage of women applying to be part of the Armed Forces:

In 2022, 101 women applied for voluntary military service, which made up 17.9% of all candidates.

- Establishment of policies to attract female candidates (targeted campaigns, review of accession tests, etc.):

The requirements for admission into the Armed Forces are the same for men and women. The only evident difference in terms of the evaluation of results during the selection process is in the evaluation of functional-physical abilities; whereby there is a lower criterion for women.

The attraction of candidates is conducted through promotion in the media and direct presentation of the military vocation to target groups regardless of gender, i.e. campaigns are targeted to attract both males and females. Additionally, the current cadets of both sexes are engaged equally in campaigns that are conducted to promote the military vocation.

- Number and percentage of women in the Armed Forces disaggregated by rank:

- Number and percentage of discrimination and sexual harassment complaints that are referred, investigated and acted upon:

During 2022, 1 complaint for sexual harassment was received and the case was not resolved as at the reporting period.

- Development of regular analysis of retention and promotion practices for men and women in the forces.

Retention and promotions are regulated by the law and apply equally to men and women.

The CAF apply retention policies in order to retain the services of personnel, both women and men alike, who possess scarce/key skills, such as: doctors, pilots, IT experts, university professors, etc. The retention policies include incentives such as: special bonuses for personnel with scarce/key skills, accelerated career development, the provision of financial support for further technical training among other competitive benefits.

2. Measures to increase the number of women in peacekeeping forces.

- Number and percentage of women in peacekeeping forces disaggregated by rank:

IV. Other information

1. Information on the development, implementation and evaluation of a National Action Plan to implement UNSCR 1325.

A. Development

Regarding Women, Peace and Security Agenda (WPS), Croatia remains strongly committed to the effective implementation of the UNSCR 1325 and subsequent resolutions in the domestic context. Our continued engagement in the area of WPS rests on our firm belief that the full realization of women's rights is an indispensable basis for safeguarding basic human rights and achieving lasting peace and security. Therefore, we pay particular attention to ensure that guiding norms and principles of WPS agenda are integrated into our national policies and practices.

Croatia has taken steps to integrate the gender perspective into the national foreign and security policy through its National Policy for the Promotion of Gender Equality and its second National Action Plan for the Implementation of UNSCR1325 on WPS and related Resolutions (NAP) adopted in 2019.

The basic objective of the NAP is to support implementation of the UNSCR on WPS Agenda - at the national level through strengthening the gender awareness and integrating the gender perspective in the national security policy, as well as at the international level through Croatia's active involvement in international efforts on promoting women's role in the field of peace and security.

In the process of developing its NAP, Croatia closely followed the general principles and recommendations contained in the relevant UN documents related to the WPS Agenda. At a regional level, Croatia drew inspiration particularly from the *EU Comprehensive Approach to the EU implementation of the United Nations Security Council Resolutions 1325 and 1820 on Women, Peace and Security*, as well as from the *OSCE's 2004 Action Plan for the Promotion of Gender Equality*.

While Croatia is in the process of developing a new National Policy for Gender Equality measures contained in the policy for the period 2011-2015 continue to be implemented. In 2019 the second NAP was developed. The new NAP covers both our domestic and international activities by setting out and strengthening specific measures in the area of prevention and protection, as well as the representation of women in decision-making activities and processes concerning security and peace-building.

B. Implementation

The 2011 NAP covers the main relevant principles of UNSCR 1325 and elaborates specific measures in the area of participation of women, protection against and prevention of gender-based violence and women's role in conflicts and post-conflict recovery, with measurable indicators for implementation.

In the area of prevention, the specific goals are related to full integration of gender perspective in military and police training programs, as well as in all aspects of Croatia's foreign policy and actions.

In the area of participation, the specific goals are to introduce gender balance in the activities of the security system: to increase the representation of women in decision-making activities and processes concerning security and peace building and to implement gender sensitive program of international development assistance.

In the area of protection and post-conflict recovery, the specific goals are related to the protection of the rights of women and girls – war victims in the Republic of Croatia with a view to their post-conflict recovery, as well as to the protection of the rights of women and girls – victims of gender-based violence in conflict and post-conflict settings abroad;

In the area of implementation and monitoring, the main goal is to improve cooperation in the implementation of resolution 1325 and related resolutions at national, regional and international level.

For the implementation of the specific measures envisaged by the NAP, following ministries and agencies are responsible: Ministry of Defence, Ministry of Interior, Ministry of Justice, Ministry of Science and Education, Ministry of Social policy, Ministry of Health, Ministry for War Veterans, Government's Office for Human Rights, Government Office for Gender Equality and the Office of the National Security Council. Alongside with the implementation of the measures within its area of responsibility, the Ministry of Foreign and European Affairs has also the coordinative role regarding the overall implementation of the NAP. The majority of specific measures envisaged by NAP are suitable for implementation in cooperation with civil society organisations, and their involvement has been particularly encouraged.

C. Evaluation

There is a monitoring, reporting and evaluation matrix included within the NAP, with all measures linked to a responsible facilitator, indicator and time-frame. Individual facilitators/responsible ministries tasked with implementing the NAP's measures are required to provide annual and ad hoc implementation reports to the MFA and the Gender Equality Ombudsperson. Working Group for drafting NAP was also meant to act as the supervisory mechanism and to submit annual report on the implementation of the NAP measures to the Government Human Rights Commission. However the group was dismissed at the end of 2012

and the coordination of the NAP's implementation has become the responsibility of MFA. On the other hand, the monitoring and evaluation become a part of annual report of the Gender Equality Ombudsperson to Parliament. We are currently in the process of setting up new inter-ministerial working group which be in charge to evaluate current NAP cycle and to prepare a new NAP for the next four years period.

2. Information on best practices and lessons learned.

The measures which have been implemented so far under the Croatian NAP significantly contributed to gender mainstreaming in general. One of the most important results of our first NAP cycle is more effective integration of gender perspective in our foreign and security policy and actions.

The Ministry of Foreign and European Affairs has been implementing since 2013 its own action plan with special measures aimed to promote equal participation of women and men in our Foreign Service. Within the Ministry of Foreign and European Affairs, female diplomats occupy more than 50% of the decision-making positions. There is also higher representation of women than men in all diplomatic ranks except the two highest: the ministers plenipotentiary and ambassadors. There are currently 15 women among the heads of our diplomatic missions (27.7%) and 5 female ambassadors waiting to be posted abroad. There is also one female ambassador from Croatia among the heads of the EU delegation.

Under the NAP, The Ministry of Foreign and European Affairs has taken steps to integrate gender perspective and the promotion of gender equality in all its foreign policy activities, the policy of international development cooperation and relations with third countries.

We put special focus to countries facing conflicts and going through post-conflict democratic transition, such as Afghanistan, where we have focused on women's reproductive health (construction of the Midwife Training Centre in Mazar-e-Sharif) and women's economic empowerment (supporting the women start-up business in carpet weaving and photography).

As the only EU member state with recent war and post-conflict management experience Croatia knows from its own experience how war can affect women and girls as a civilian victims, but we are also well aware of women's significant role as combatants and peace builders. We are particularly interested in promoting Croatian experiences and lessons learnt about dealing with sexual violence in war and conflict in the region and globally.

One of the lessons Croatia has learned so far is that the enactment of NAP on 1325 should not be an aim in itself, but rather the beginning of a process aimed at effecting real and meaningful change. Women should be considered as active agents in security governance, conflict prevention and resolution and post-conflict recovery. Therefore, meaningful participation should be promoted not only as an objective, but also through the selection of adequate means for promoting participation by women. In this regard, incorporation and further operationalization of NAP objectives in other legislation and strategies, as well as further operationalization in NAP of other strategies and legislation could be recommended. For example, Croatia harmonised Women, Peace and Security agenda with its National Policy on Gender Equality, as a basic strategic document which binds Croatia to integrate the gender dimension in all policy areas, including the promotion of international cooperation and gender equality outside Croatia.

Collaborative work on preparation and implementation of the NAP has improved coordination among our responsible ministries and helped them develop new capacities and a more comprehensive understanding of gender and security. Among main challenges we are facing are

certainly budgetary constraints as well as lack of administrative capacities for better monitoring and evaluation.

Also related to Women, Peace and Security agenda, Croatia organized in September 2013 - during its Chairmanship of the United Nations Peacebuilding Commission, and jointly with UN Women - the High-Level UNGA Event on “Women’s Economic Empowerment for Peacebuilding”. The Declaration adopted at this occasion renews commitment and sharpens global focus on women’s role as agents of positive change and transformation in the countries emerging from a conflict.
